

ONE URBAN ROUTE, THREE PUBLIC EVIDENCE GATES

UNDERSTAND THE SPACE, MECHANISM AND PUBLIC VALUE IN THREE MINUTES

CORE MECHANISM

ONE AI SERVICE EARNS PUBLIC TRUST ALONG ONE URBAN ROUTE

It carries verifiable records of safety, explanation, first use and disposition - not a publicity claim.

Ordinary urban service remains available; AI receives limited street access only after passing the evidence gates.

SPATIAL FRAMEWORK

ONE NORTH-SOUTH PUBLIC BASE, SIX REAL CROSS-CORRIDOR GATEWAYS

The heritage park provides continuous public space; cross-corridor gateways connect universities, parks, communities, rail and renewal areas to one launch protocol.

THREE PLACES / THREE GATES

THREE KEY AREAS, ONE DECISIVE QUESTION EACH

One Street Pass connects the three places, without copying one spatial type.
