

Overall Design Overview: OPEN-DOOR JZ

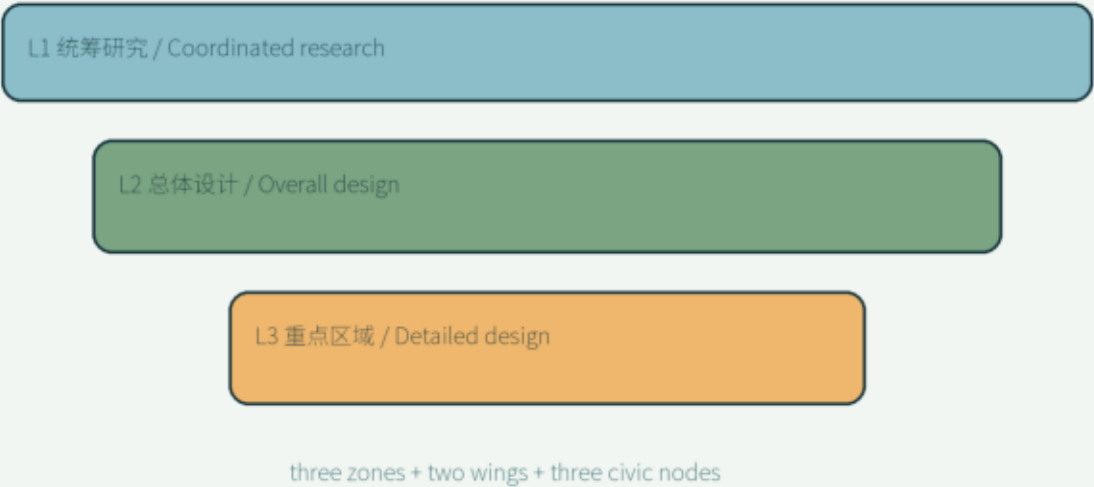

Three nodes, two wings, and an accessible civic interface belt • provisional concept geometry

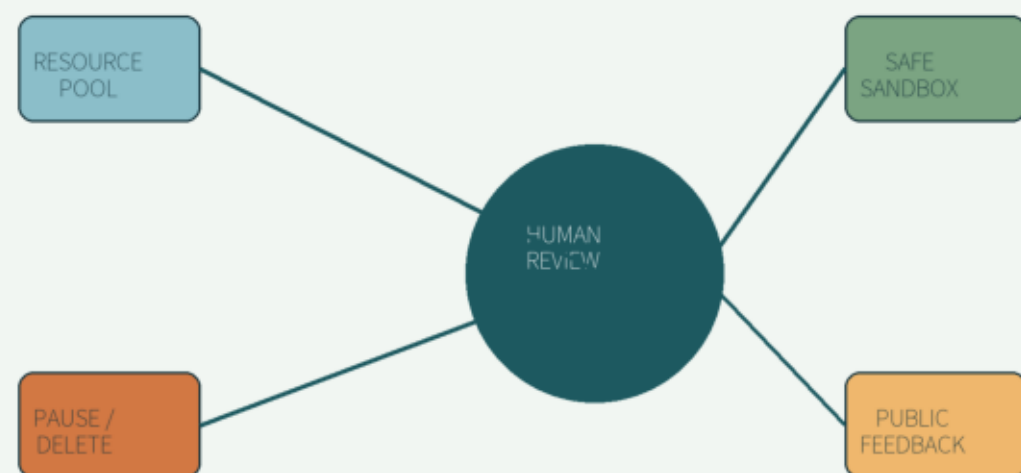

Three zones + two wings

Three levels × three nodes × two wings

Resource - Sandbox - Feedback - Human review

Accessible components and human fallback

No face. No voiceprint. No continuous trajectory.

Metrics Evidence: Provisional Values and Proposed Counts

Geometry ratios and design counts are separate; 12 are proposed scenario cards, not observed results

PROVISIONAL • RECOMPUTE WITH OFFICIAL DATA

site_area_sqm

6374567.284

provisional working-subarea area

green_ratio

0.160342

ecological green-layer ratio

public_space_ratio

0.059524

public-space-layer ratio

scenario_card_count

12

proposed scenario cards (status: proposed)

These values come from provisional package geometry or a structured design ledger; before official geometry, field audit, and user co-creation, they are not built, validated, or approved results.
