

ATLAS • JZ — Global AI Ecosystem Atlas

Public Atlas Platform of Global AI Innovation Ecosystem Cases

Project: ATLAS • JZ — Global AI Ecosystem Atlas

Nature: Concept suggestion & reference scheme (not a statutory decision)

Three Scopes: Coordinated ~43.6 km² / Overall ~11.4 km² / Key areas ~368.4 ha

One Belt, Three Pavilions: Atlas Pavilion, Radar Station, Co-creation Gallery

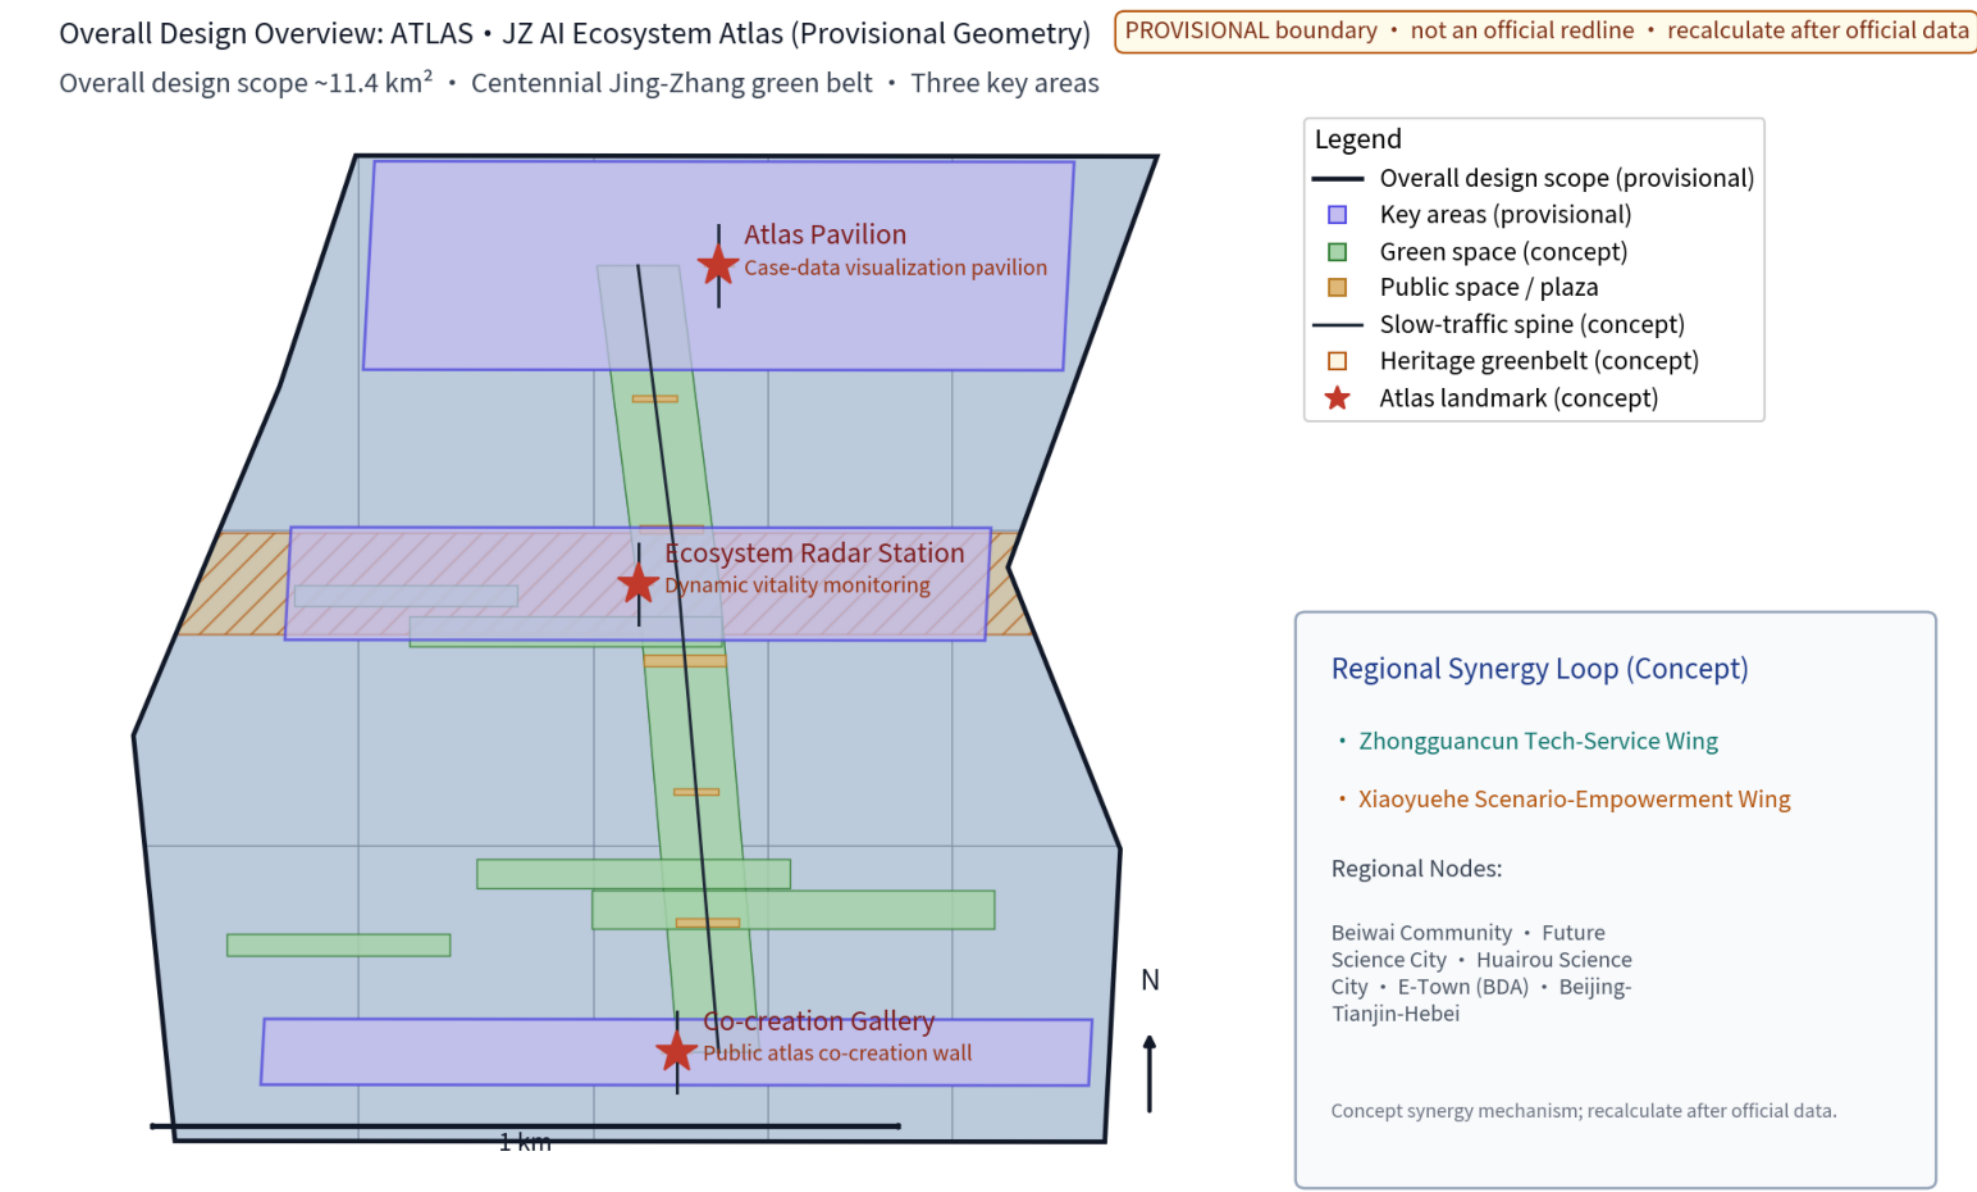

AI+ Scenarios: 10 scenario cards, 3 test scenarios, 8 benchmark cases

AI Governance: Anonymized aggregation only, human review, no over-surveillance

Phasing: Near term (1-3 yr) pilot / Mid term (3-5 yr) connection / Long term (5-10 yr) network

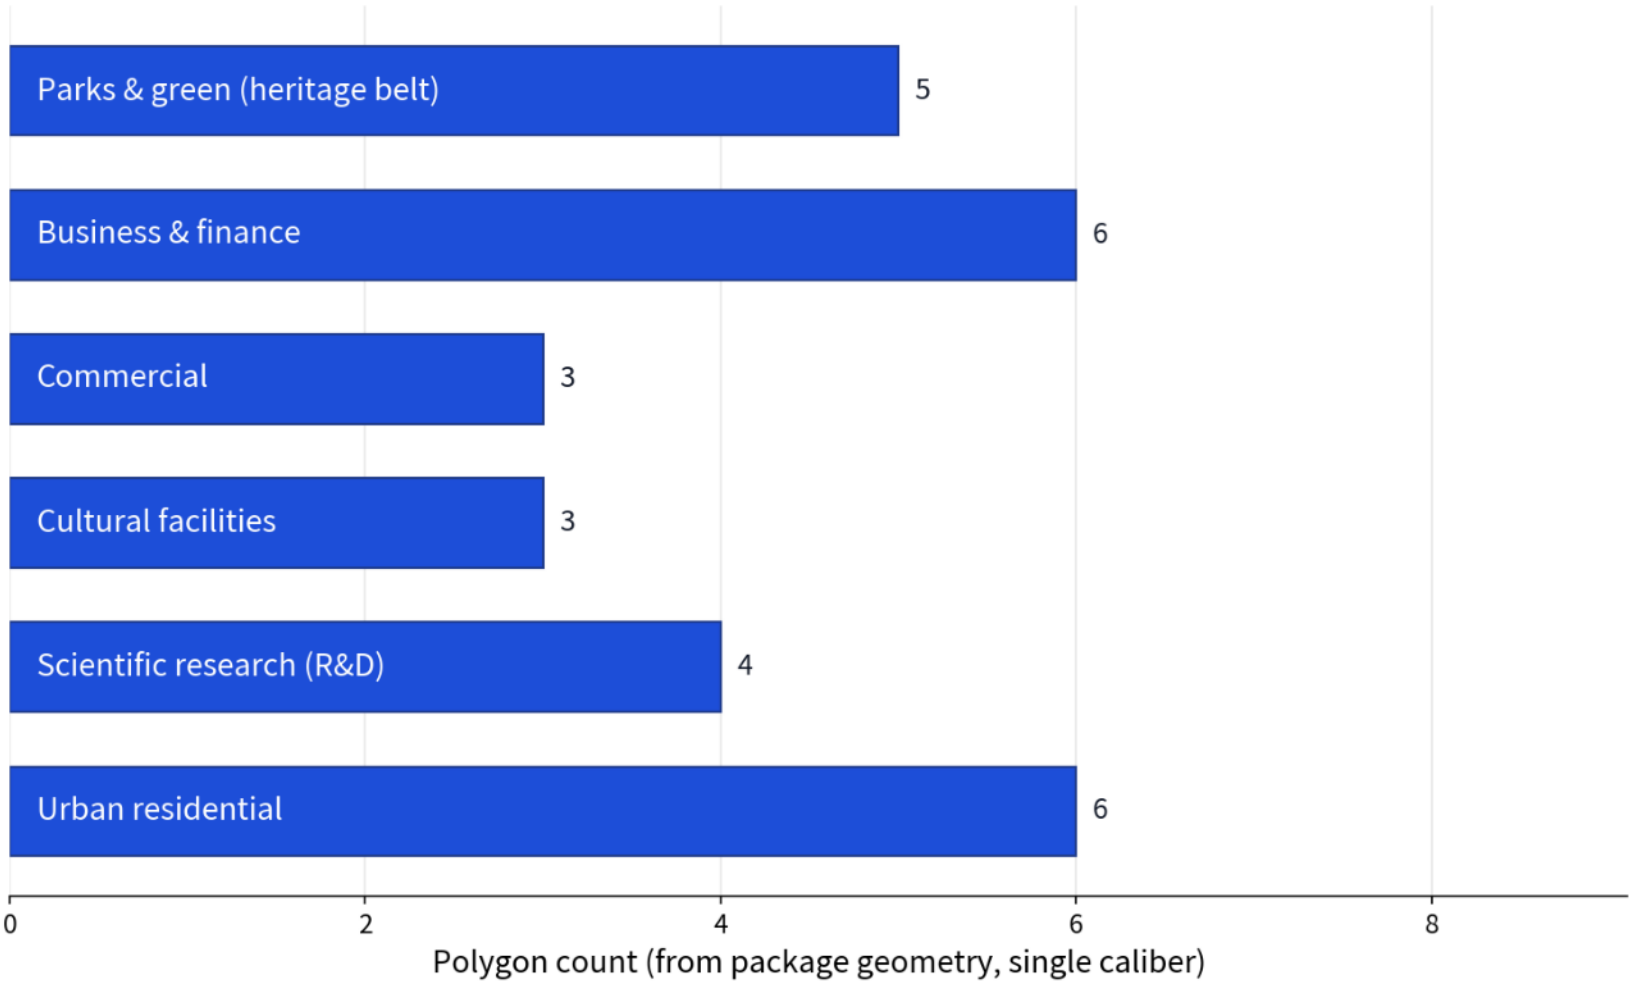

PROVISIONAL concept boundary • not an official redline • recalculate after official data

All contents are conceptual based on provisional boundaries; recalculate after official data release.

Conceptual Land-Use Structure (Single Caliber)

PROVISIONAL boundary • not an official redline • recalculate after official data

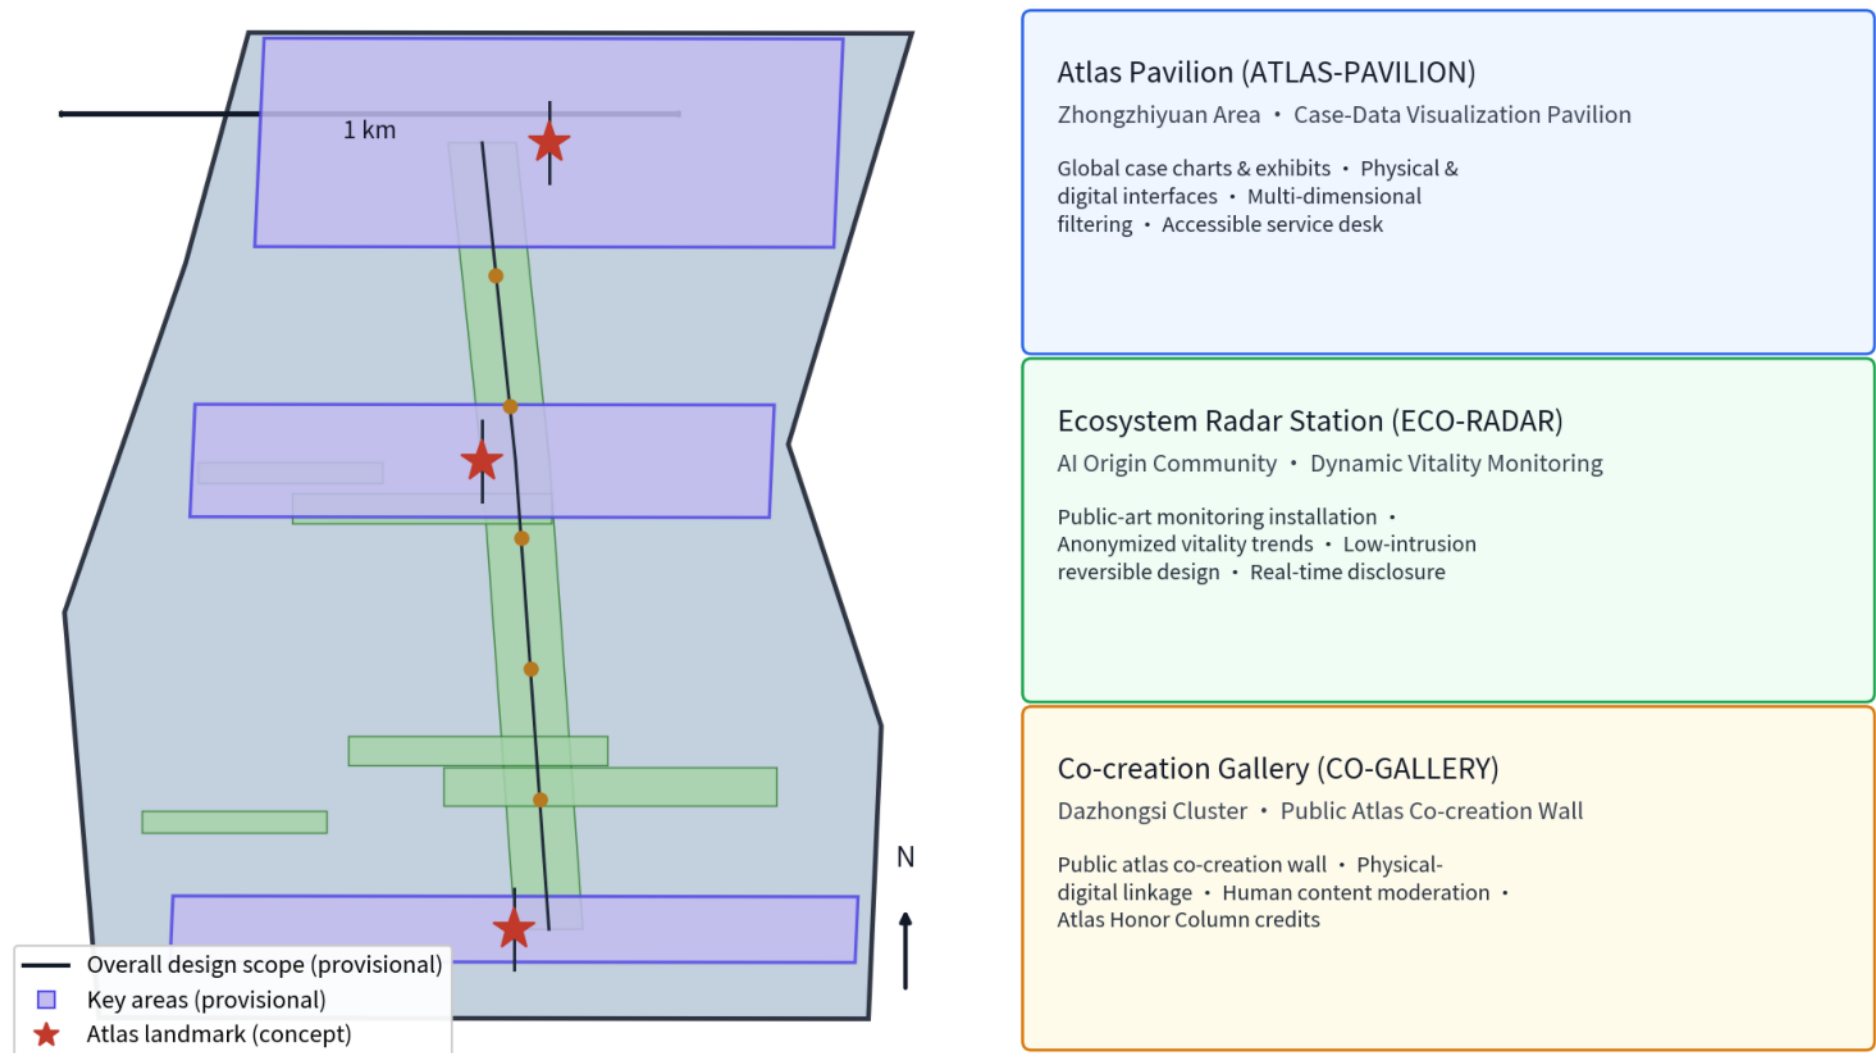

Class names follow national guidelines; single-caliber recompute after official data release.

Three Nodes Index & Design Tasks (Concept Locations)

Atlas Pavilion • Radar Station • Co-creation Gallery • Long-term operation loop

PROVISIONAL boundary • not an official redline • recalculate after official data

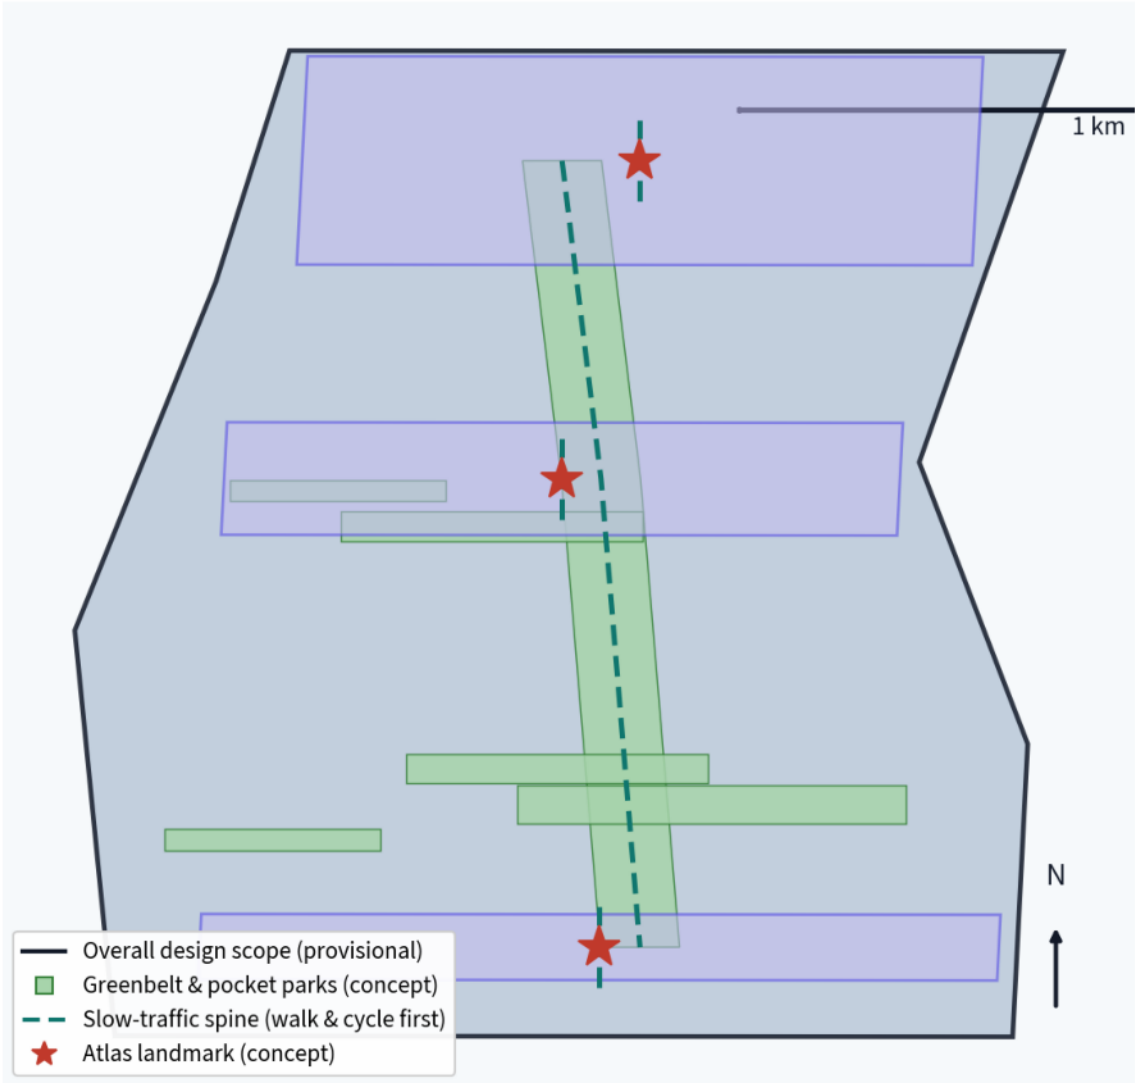

Concept sites; final locations follow official boundaries and field survey.

Slow-Traffic & Blue-Green Space Analysis (Concept)

Continuous slow-traffic axis across three nodes • Greenbelt spine • Reversible low-impact facilities

PROVISIONAL boundary • not an official redline • recalculate after official data

Blue-Green Framework

- Greenbelt & pocket parks (concept)
- JZ Railway Heritage Park greenbelt
- Public plazas & open spaces

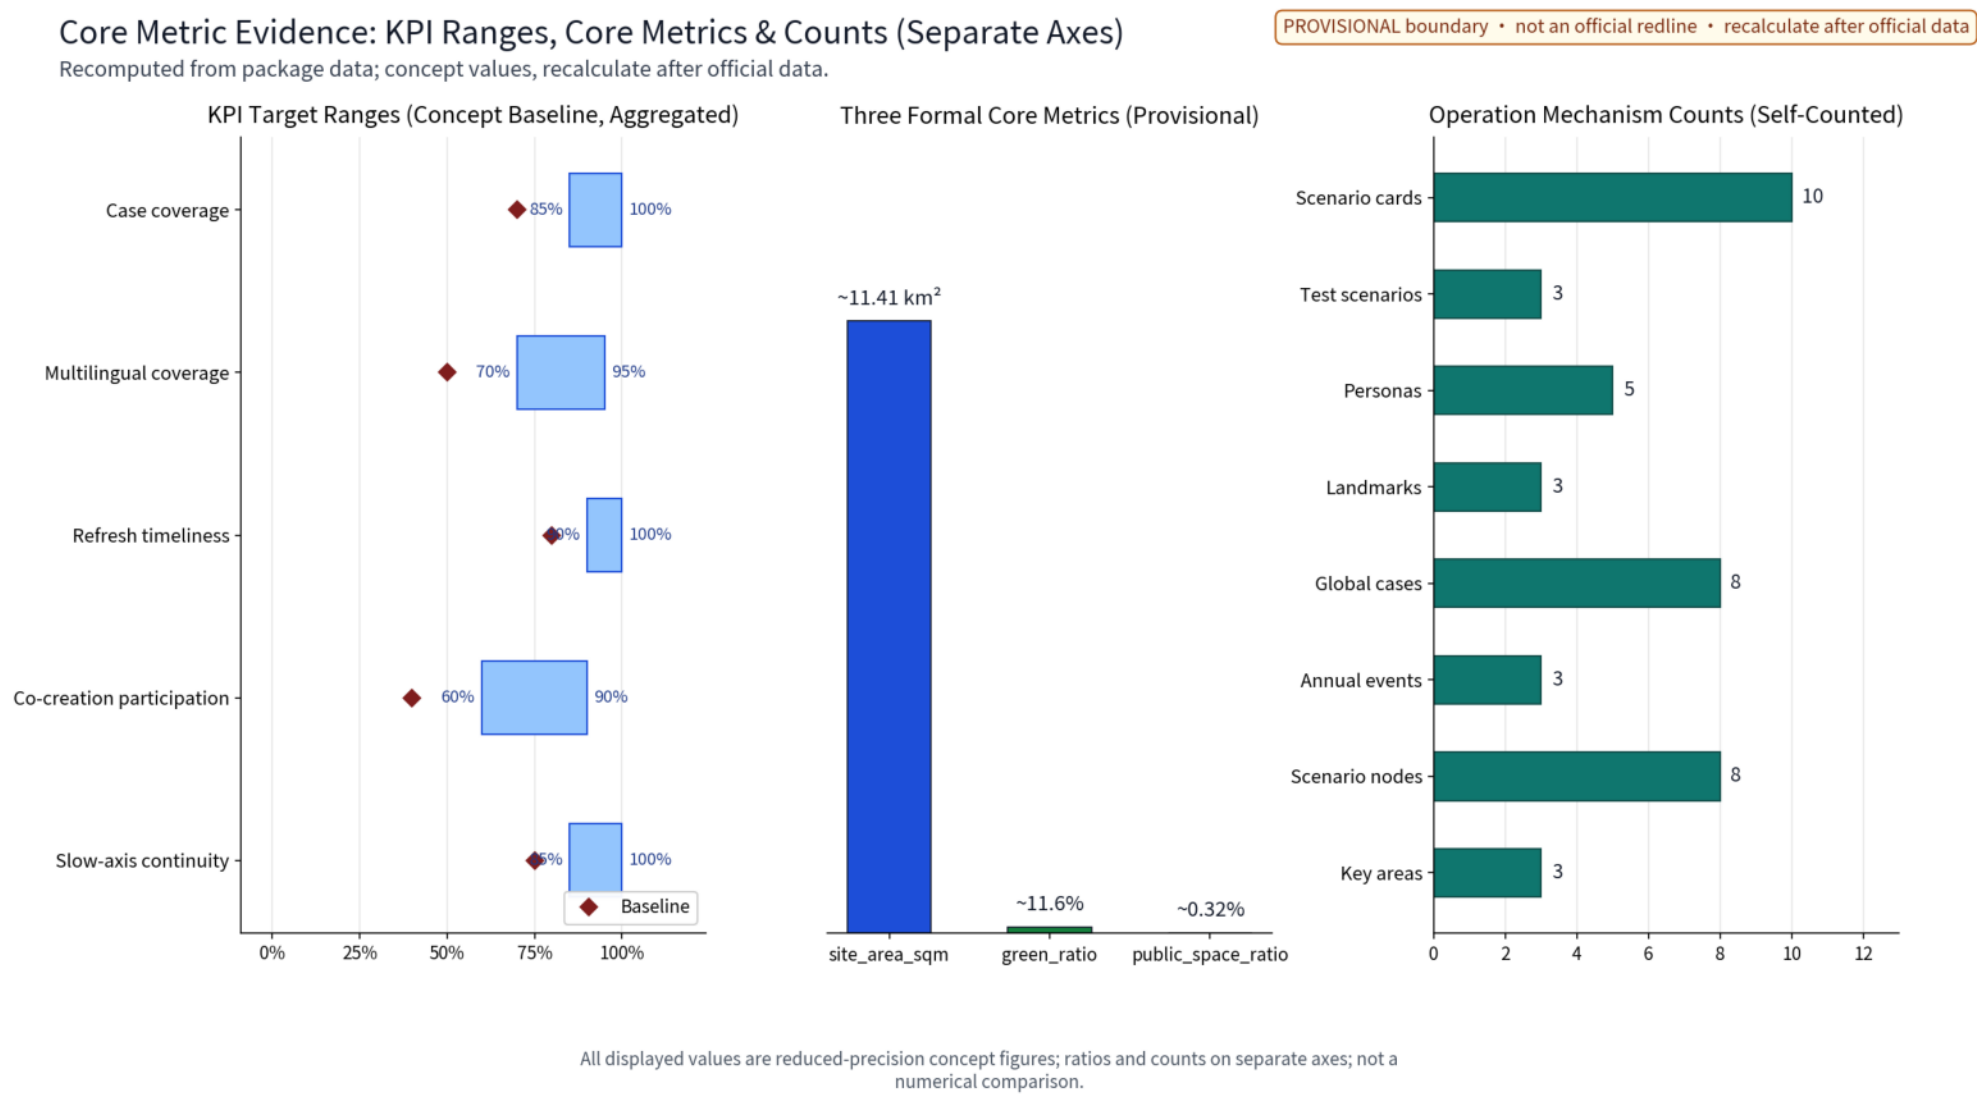

Slow-Traffic Network

- Continuous slow-traffic axis
- Pedestrian-priority crossings
- Shared-bike marshalling zones

Wayfinding & Accessibility

- Multilingual & icon-based signage
- Tactile paving & low-height signs
- Staffed assistance stations & fallback

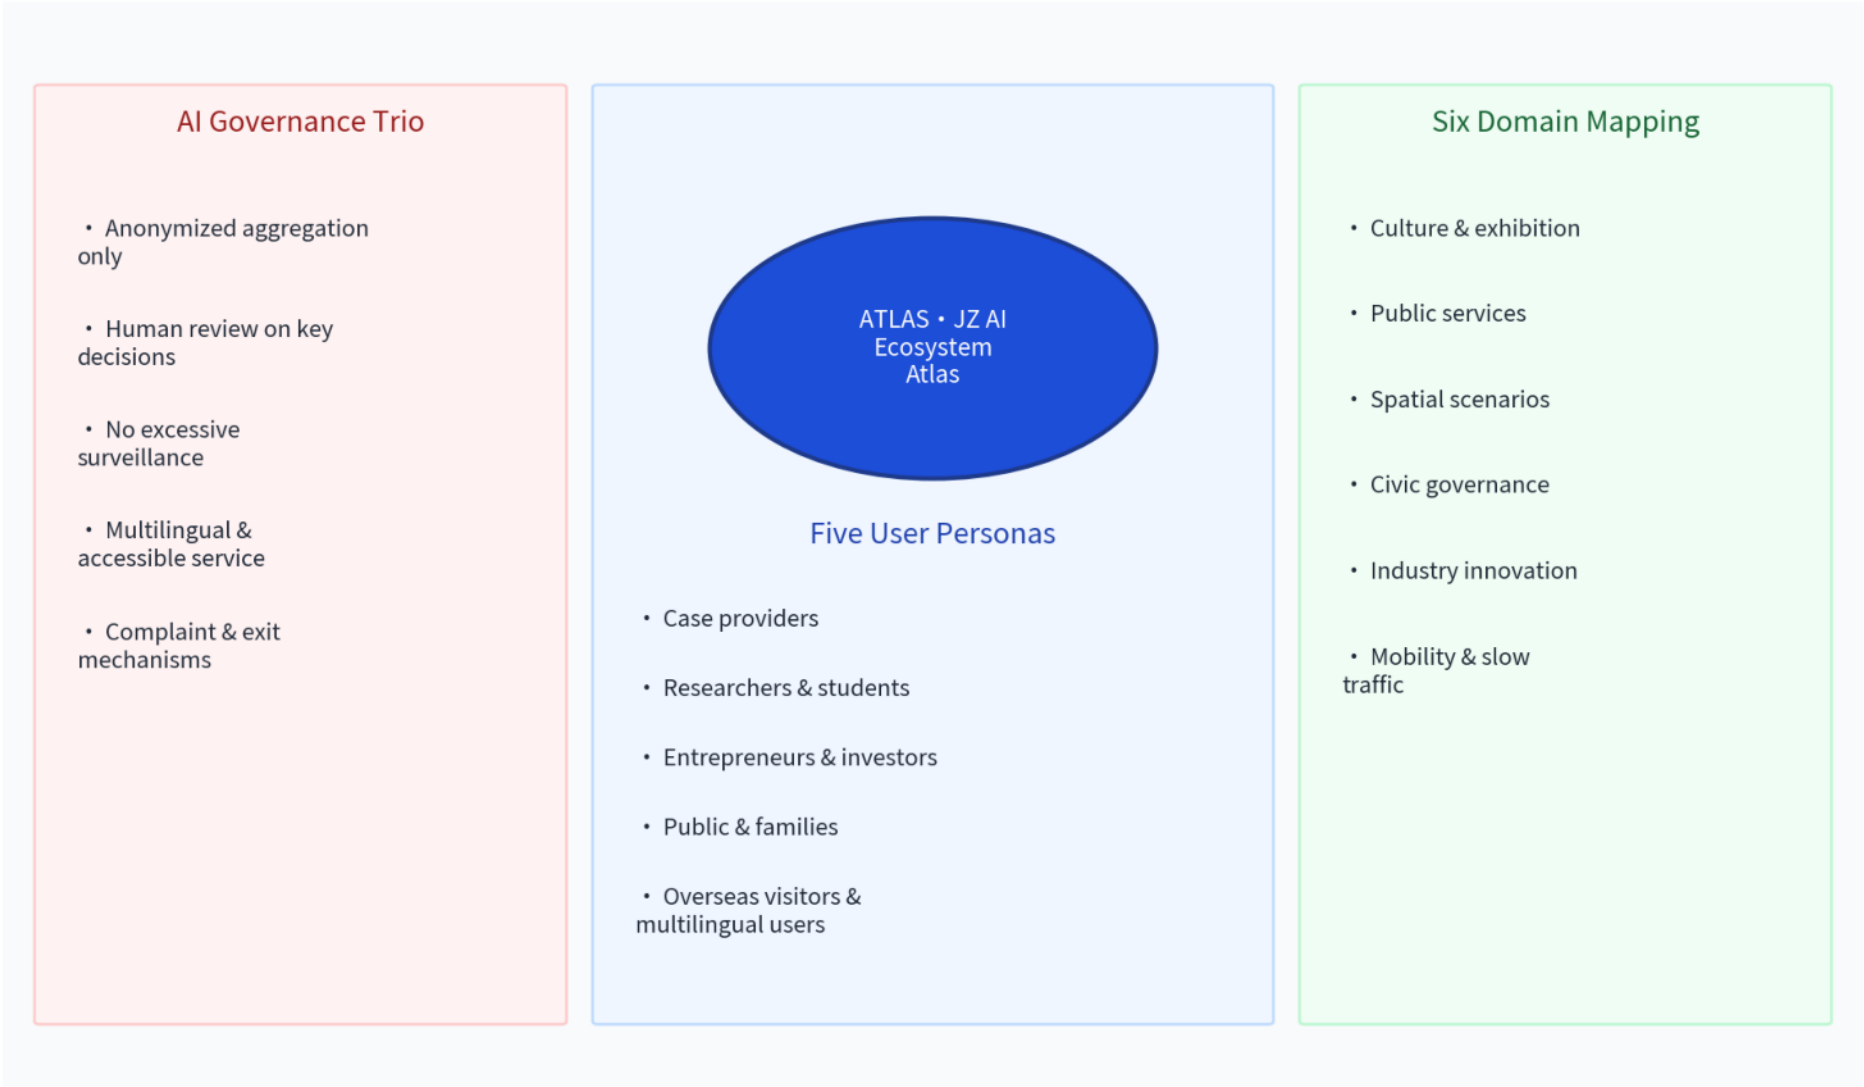

Slow-traffic axis connects the three concept nodes; blue-green pockets along the greenbelt; demountable & reusable.

AI Innovation Ecosystem Atlas (Elements, Flows, Open Interfaces)

Three zones & two wings x eight factor mechanisms x 8 benchmark cases (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

8 benchmark cases registered in sources.json; data handling strictly follows anonymized aggregation.
