

Jing-Zhang Memory • AI Archive Gallery

Overall Design Overview — Jing-Zhang Memory • AI Archive Gallery (provisional)

Overall Design Overview — Jing-Zhang Memory • AI Archive Gallery (provisional)

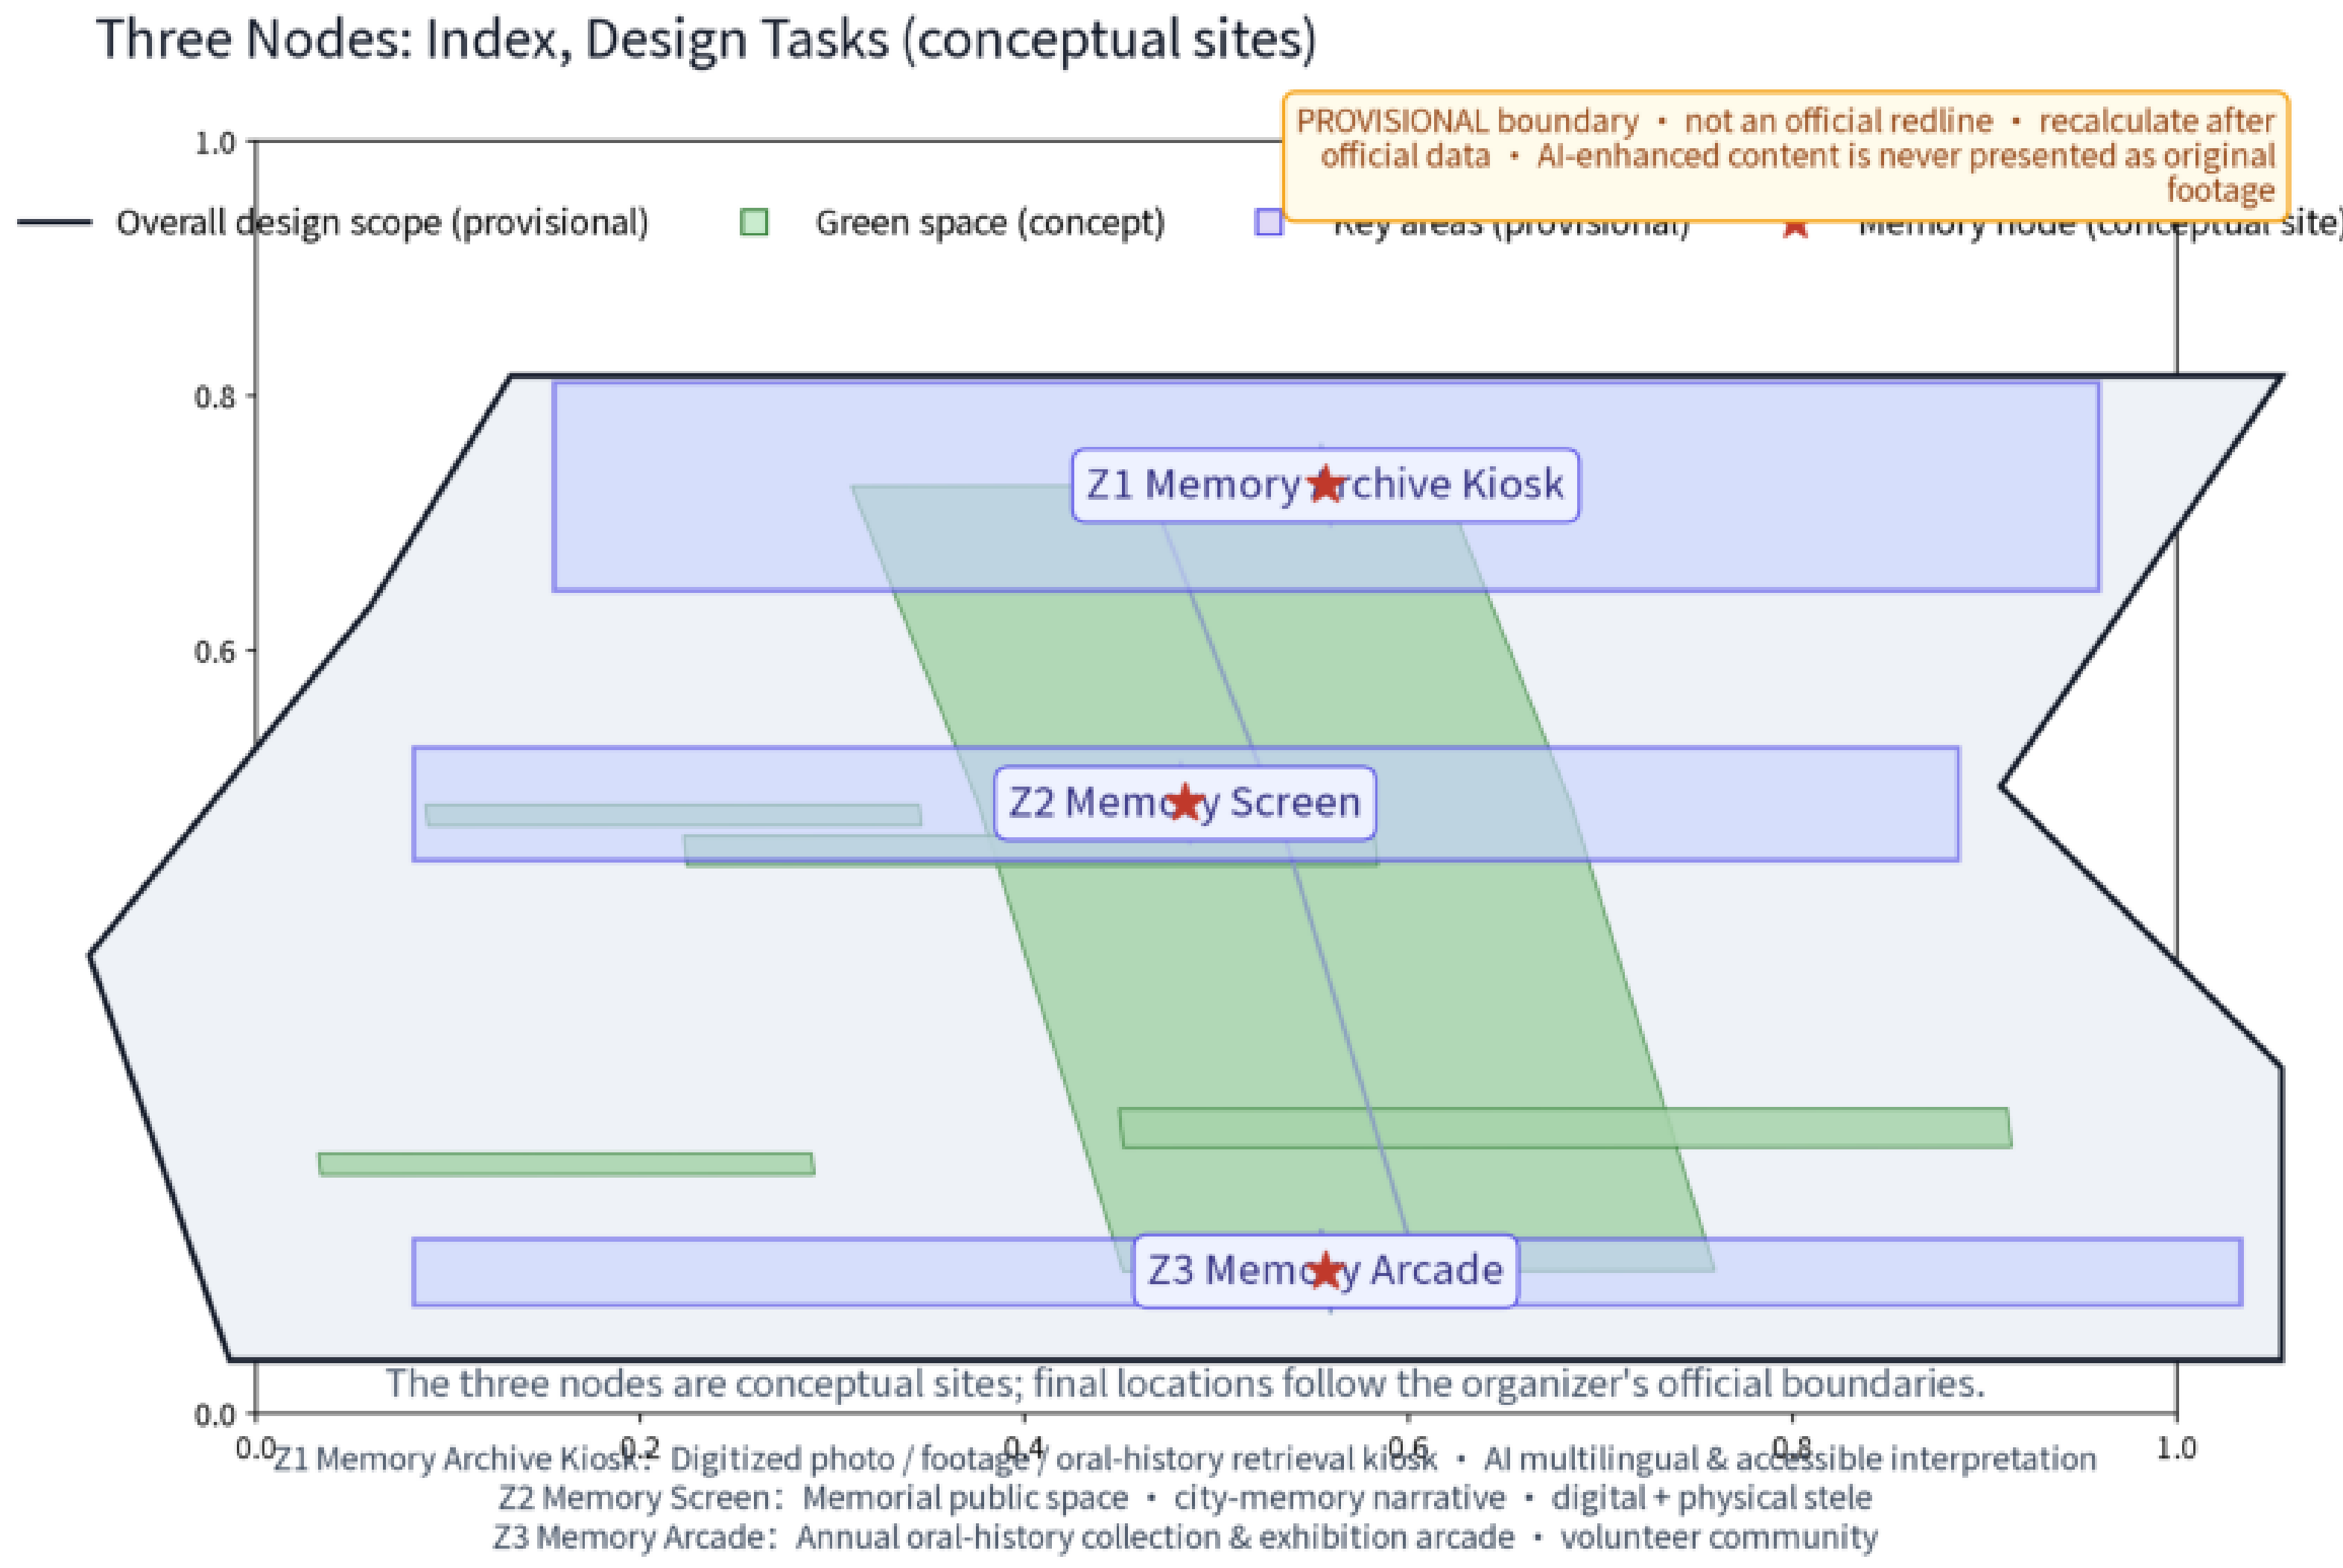

PROVISIONAL boundary • not an official redline • recalculate after official data • AI-enhanced content is never presented as original footage

- Overall design scope (provisional)
- Key areas (provisional)
- Green space (concept)
- Public space / plaza
- Conceptual memory spine (slow traff
- Memory node (conceptual site)
- Heritage zone (concept)

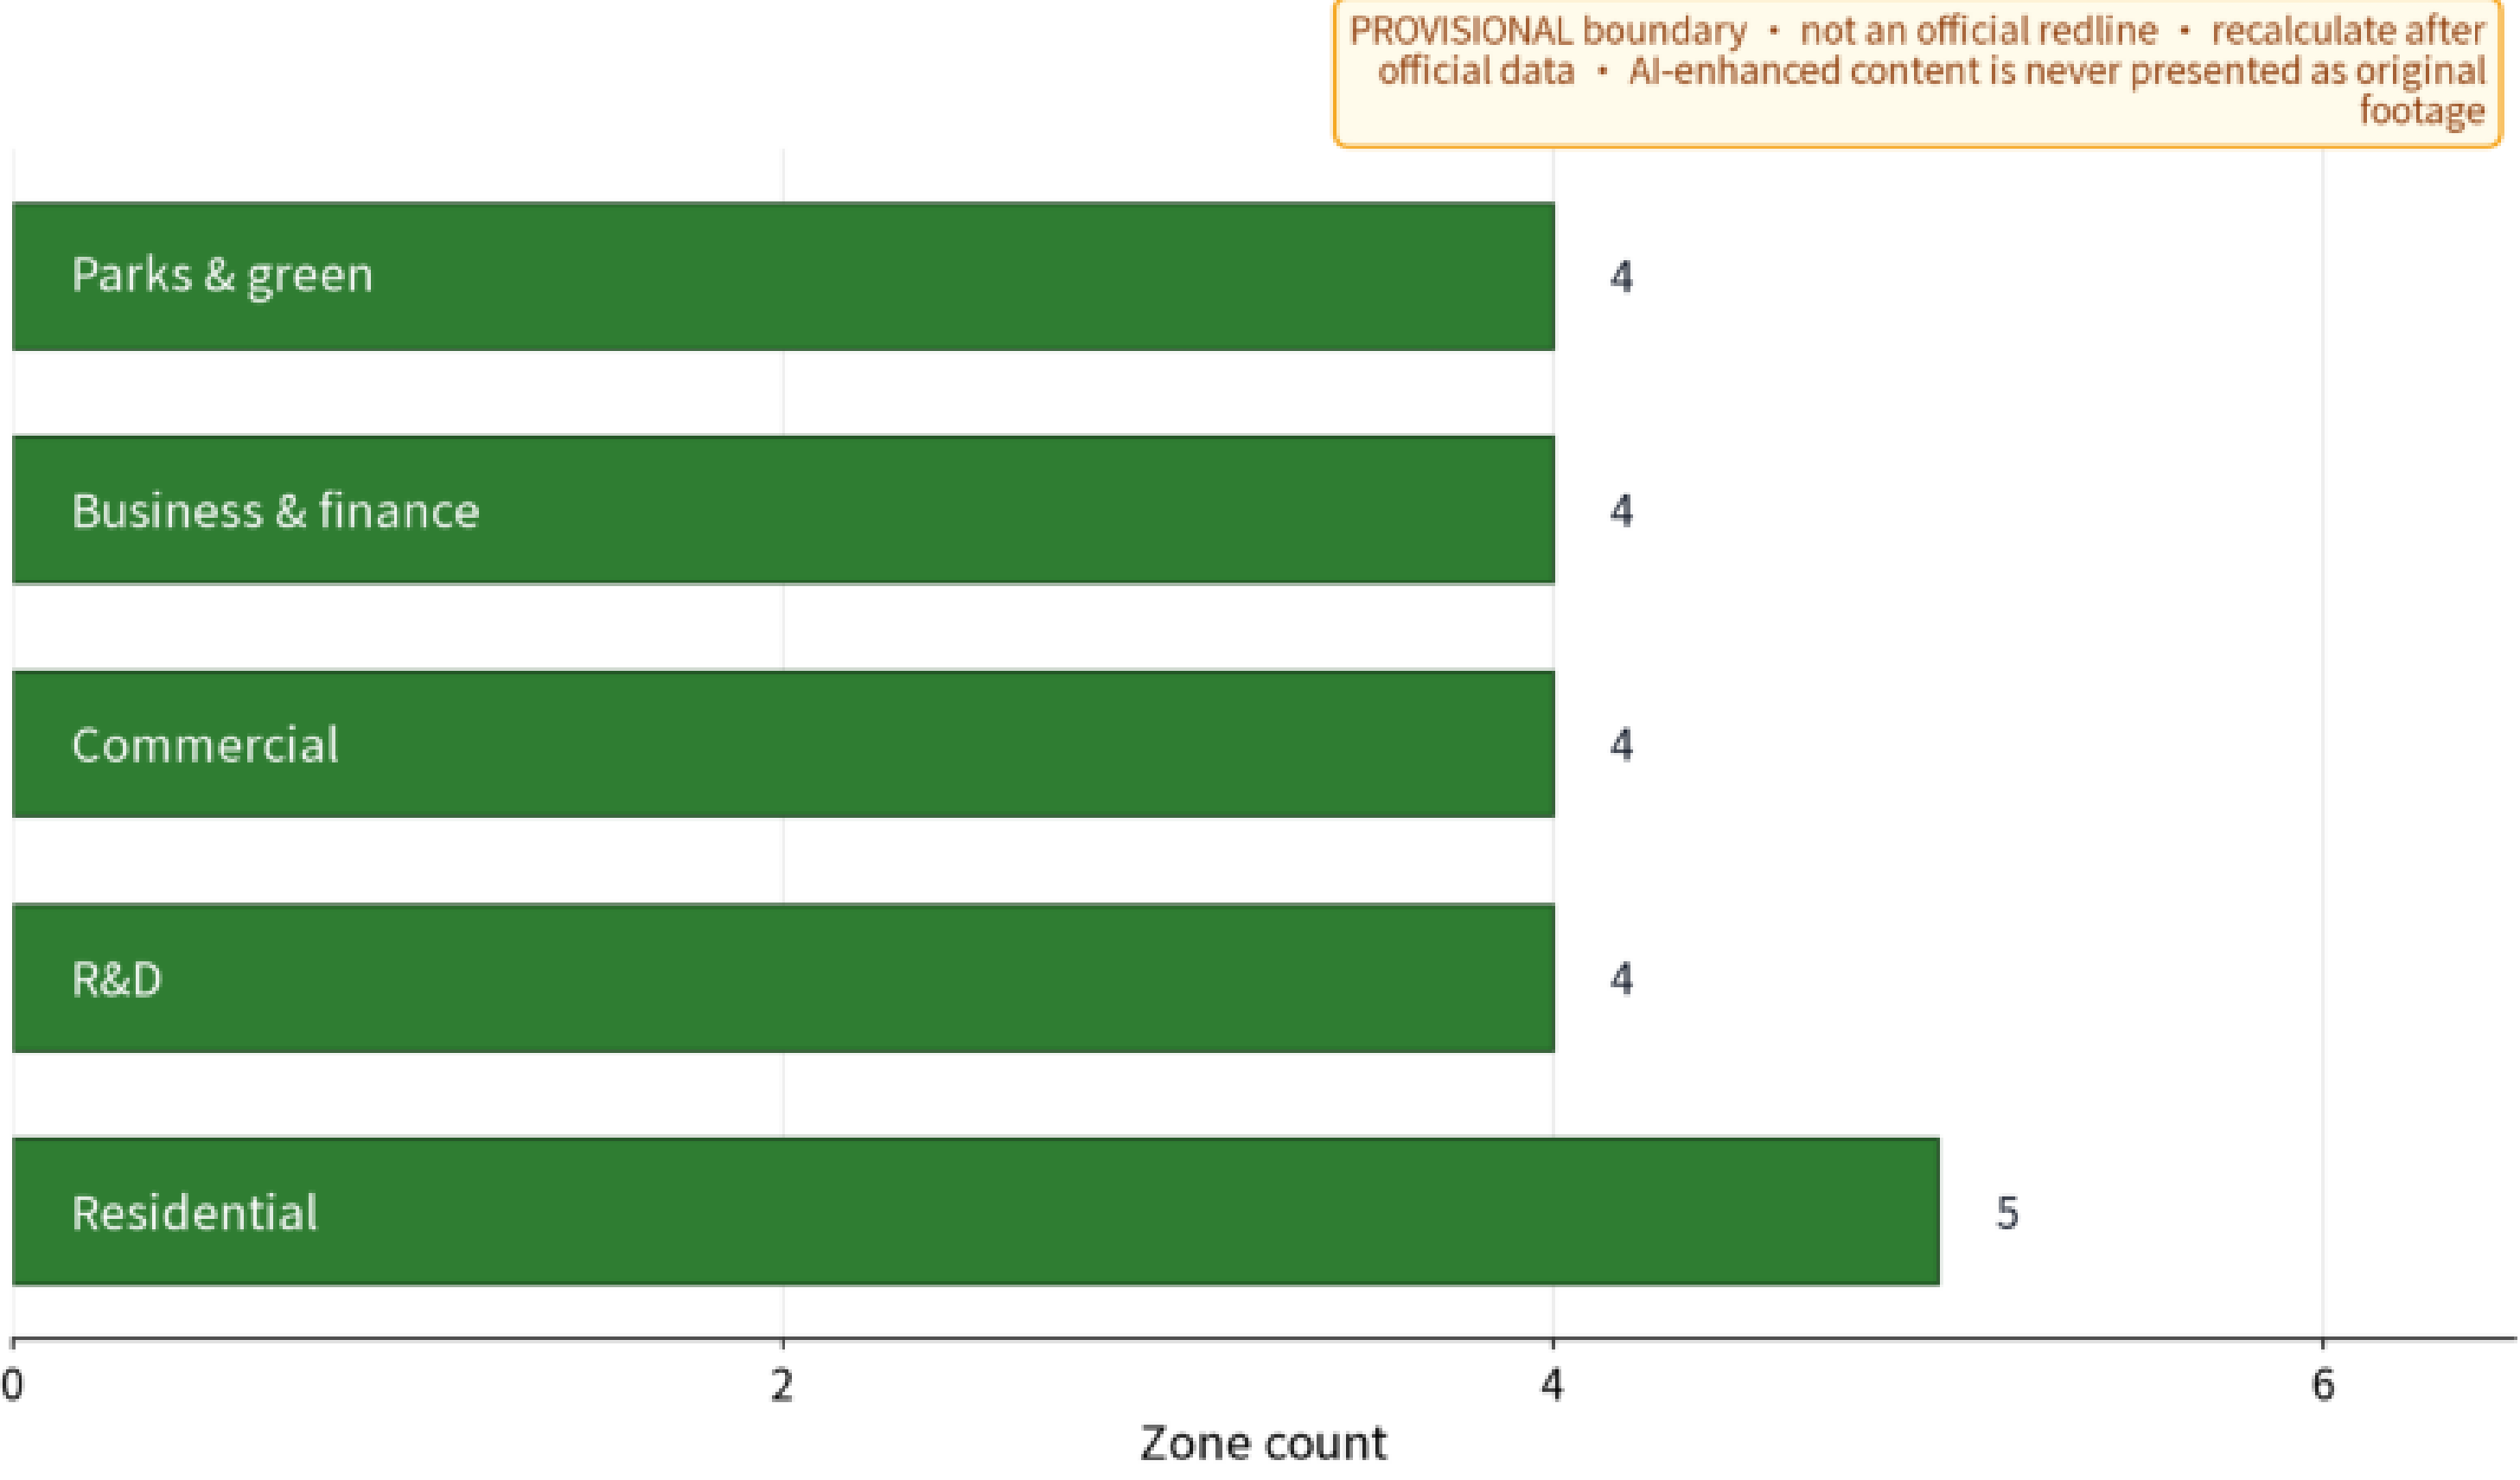

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data. Historical images/footage are directional only.

Three Nodes: Index, Design Tasks (conceptual sites)

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

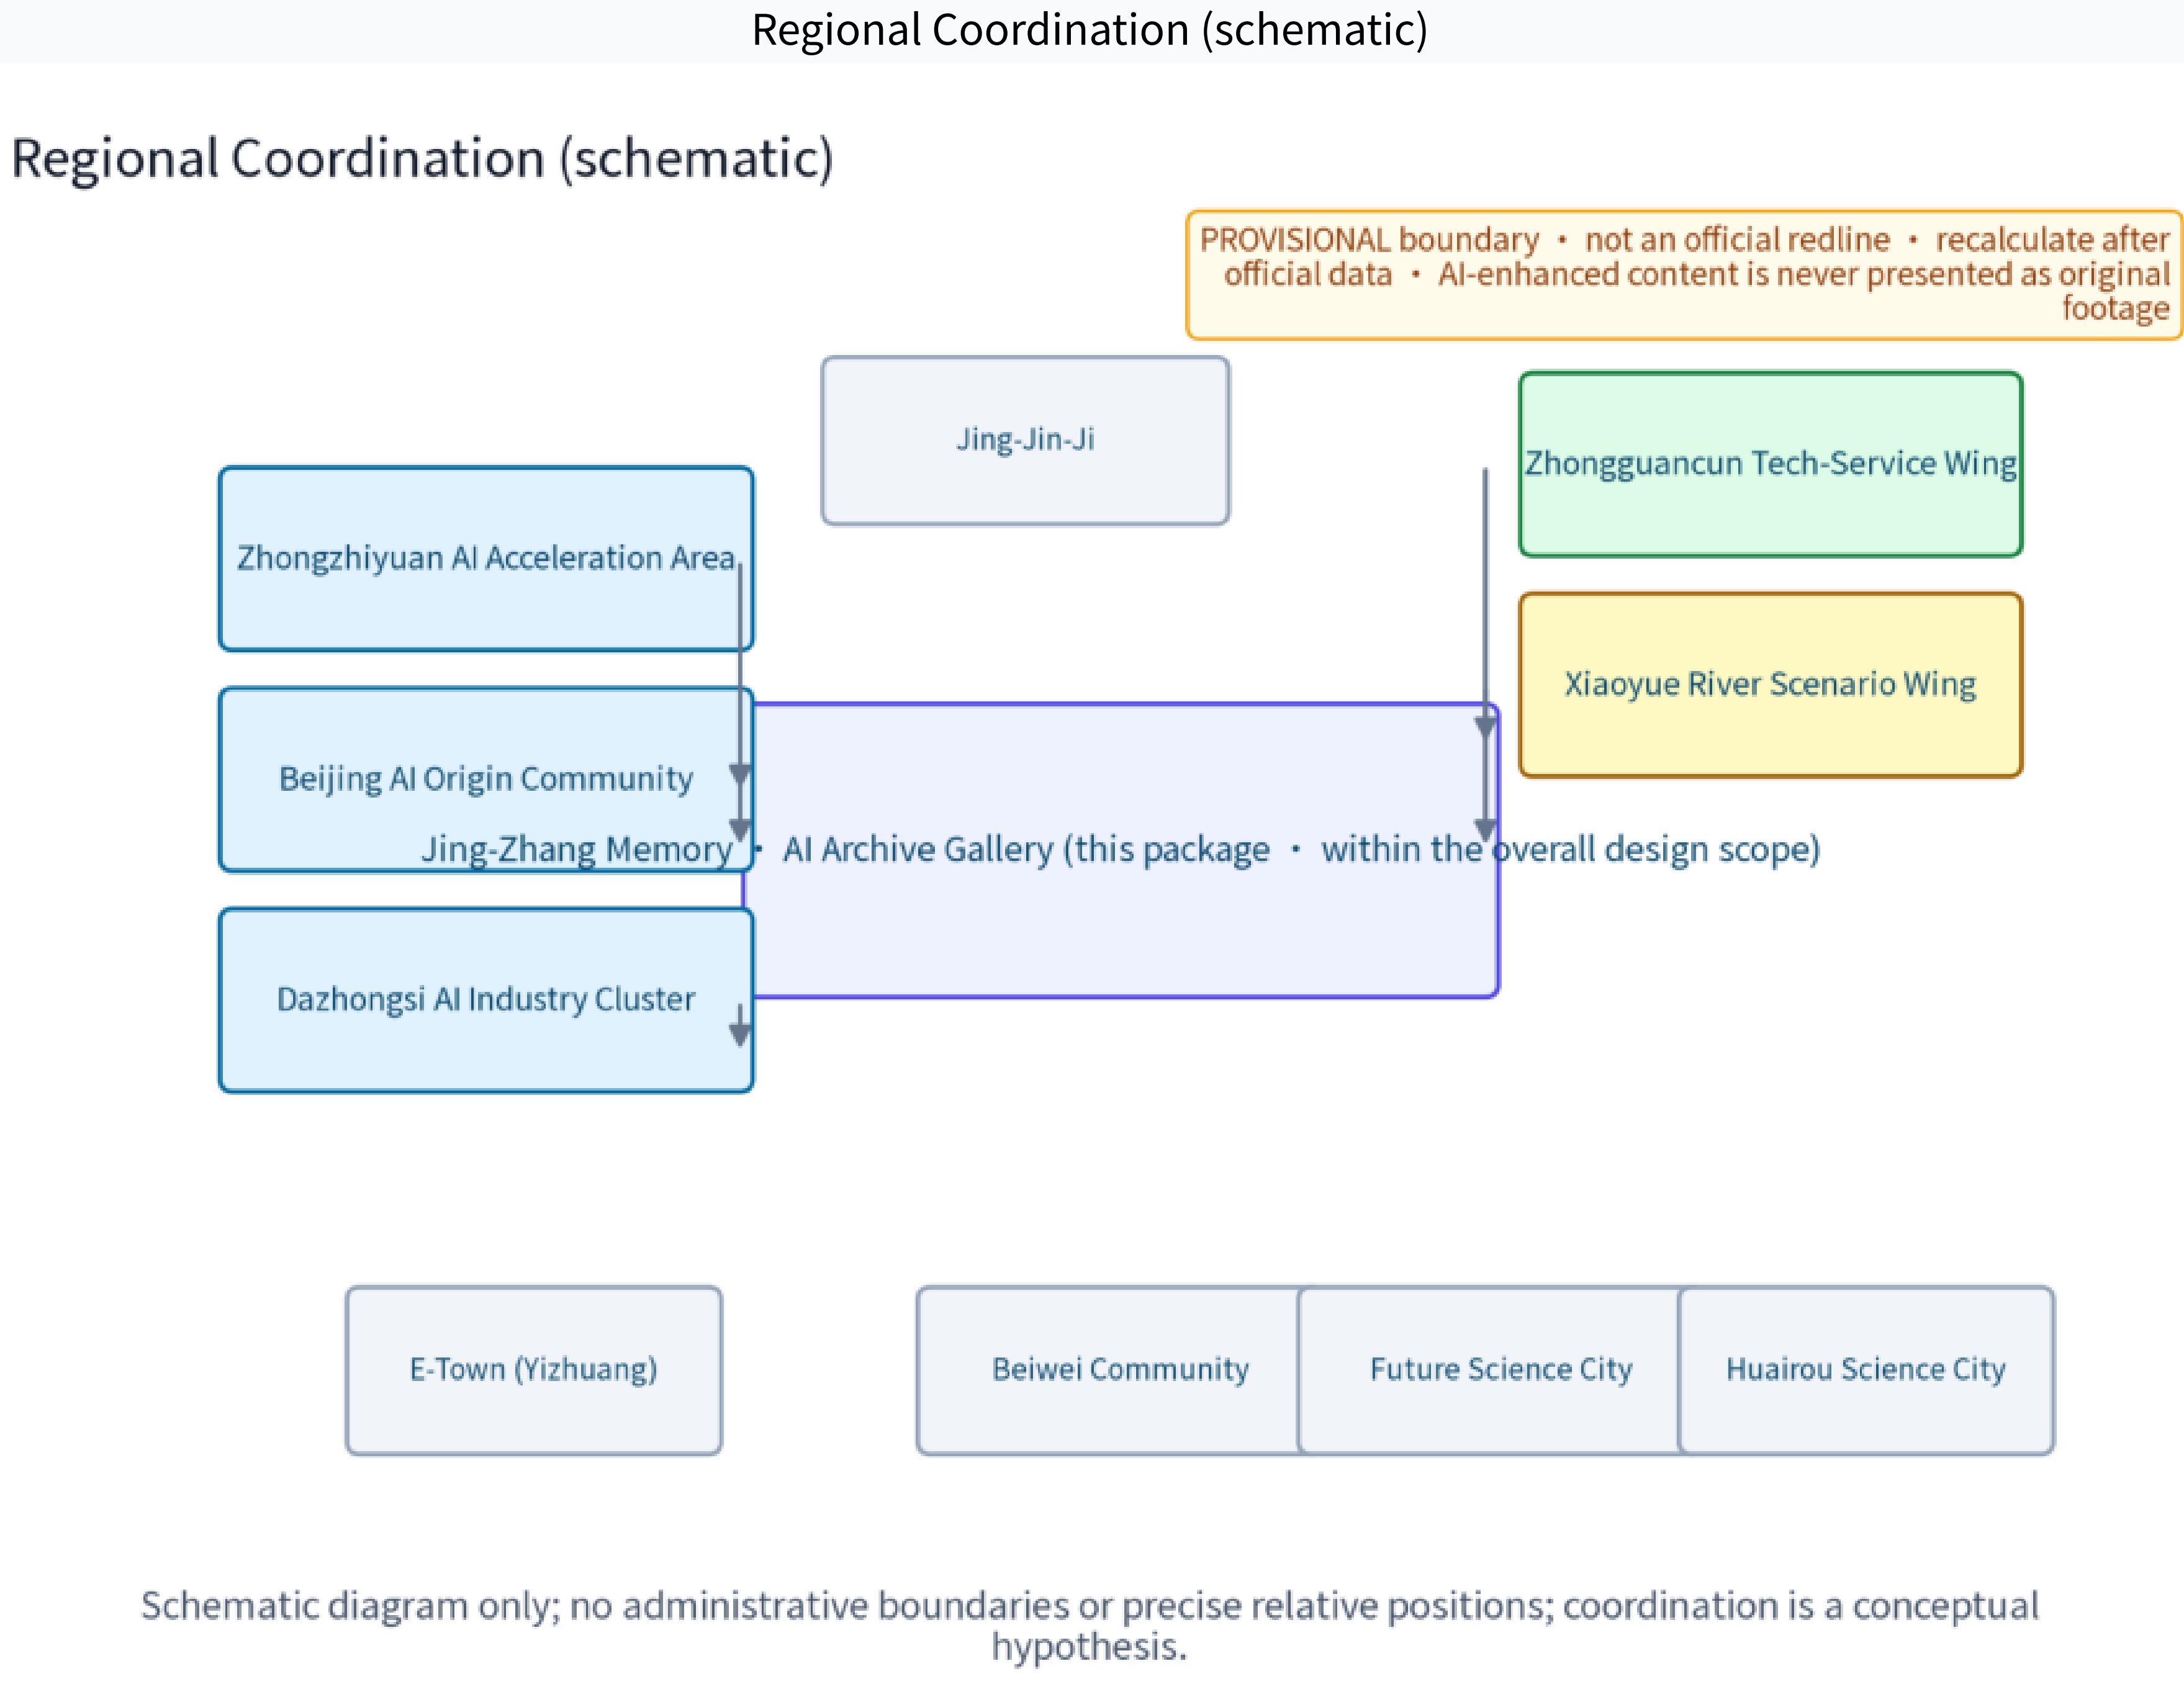

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

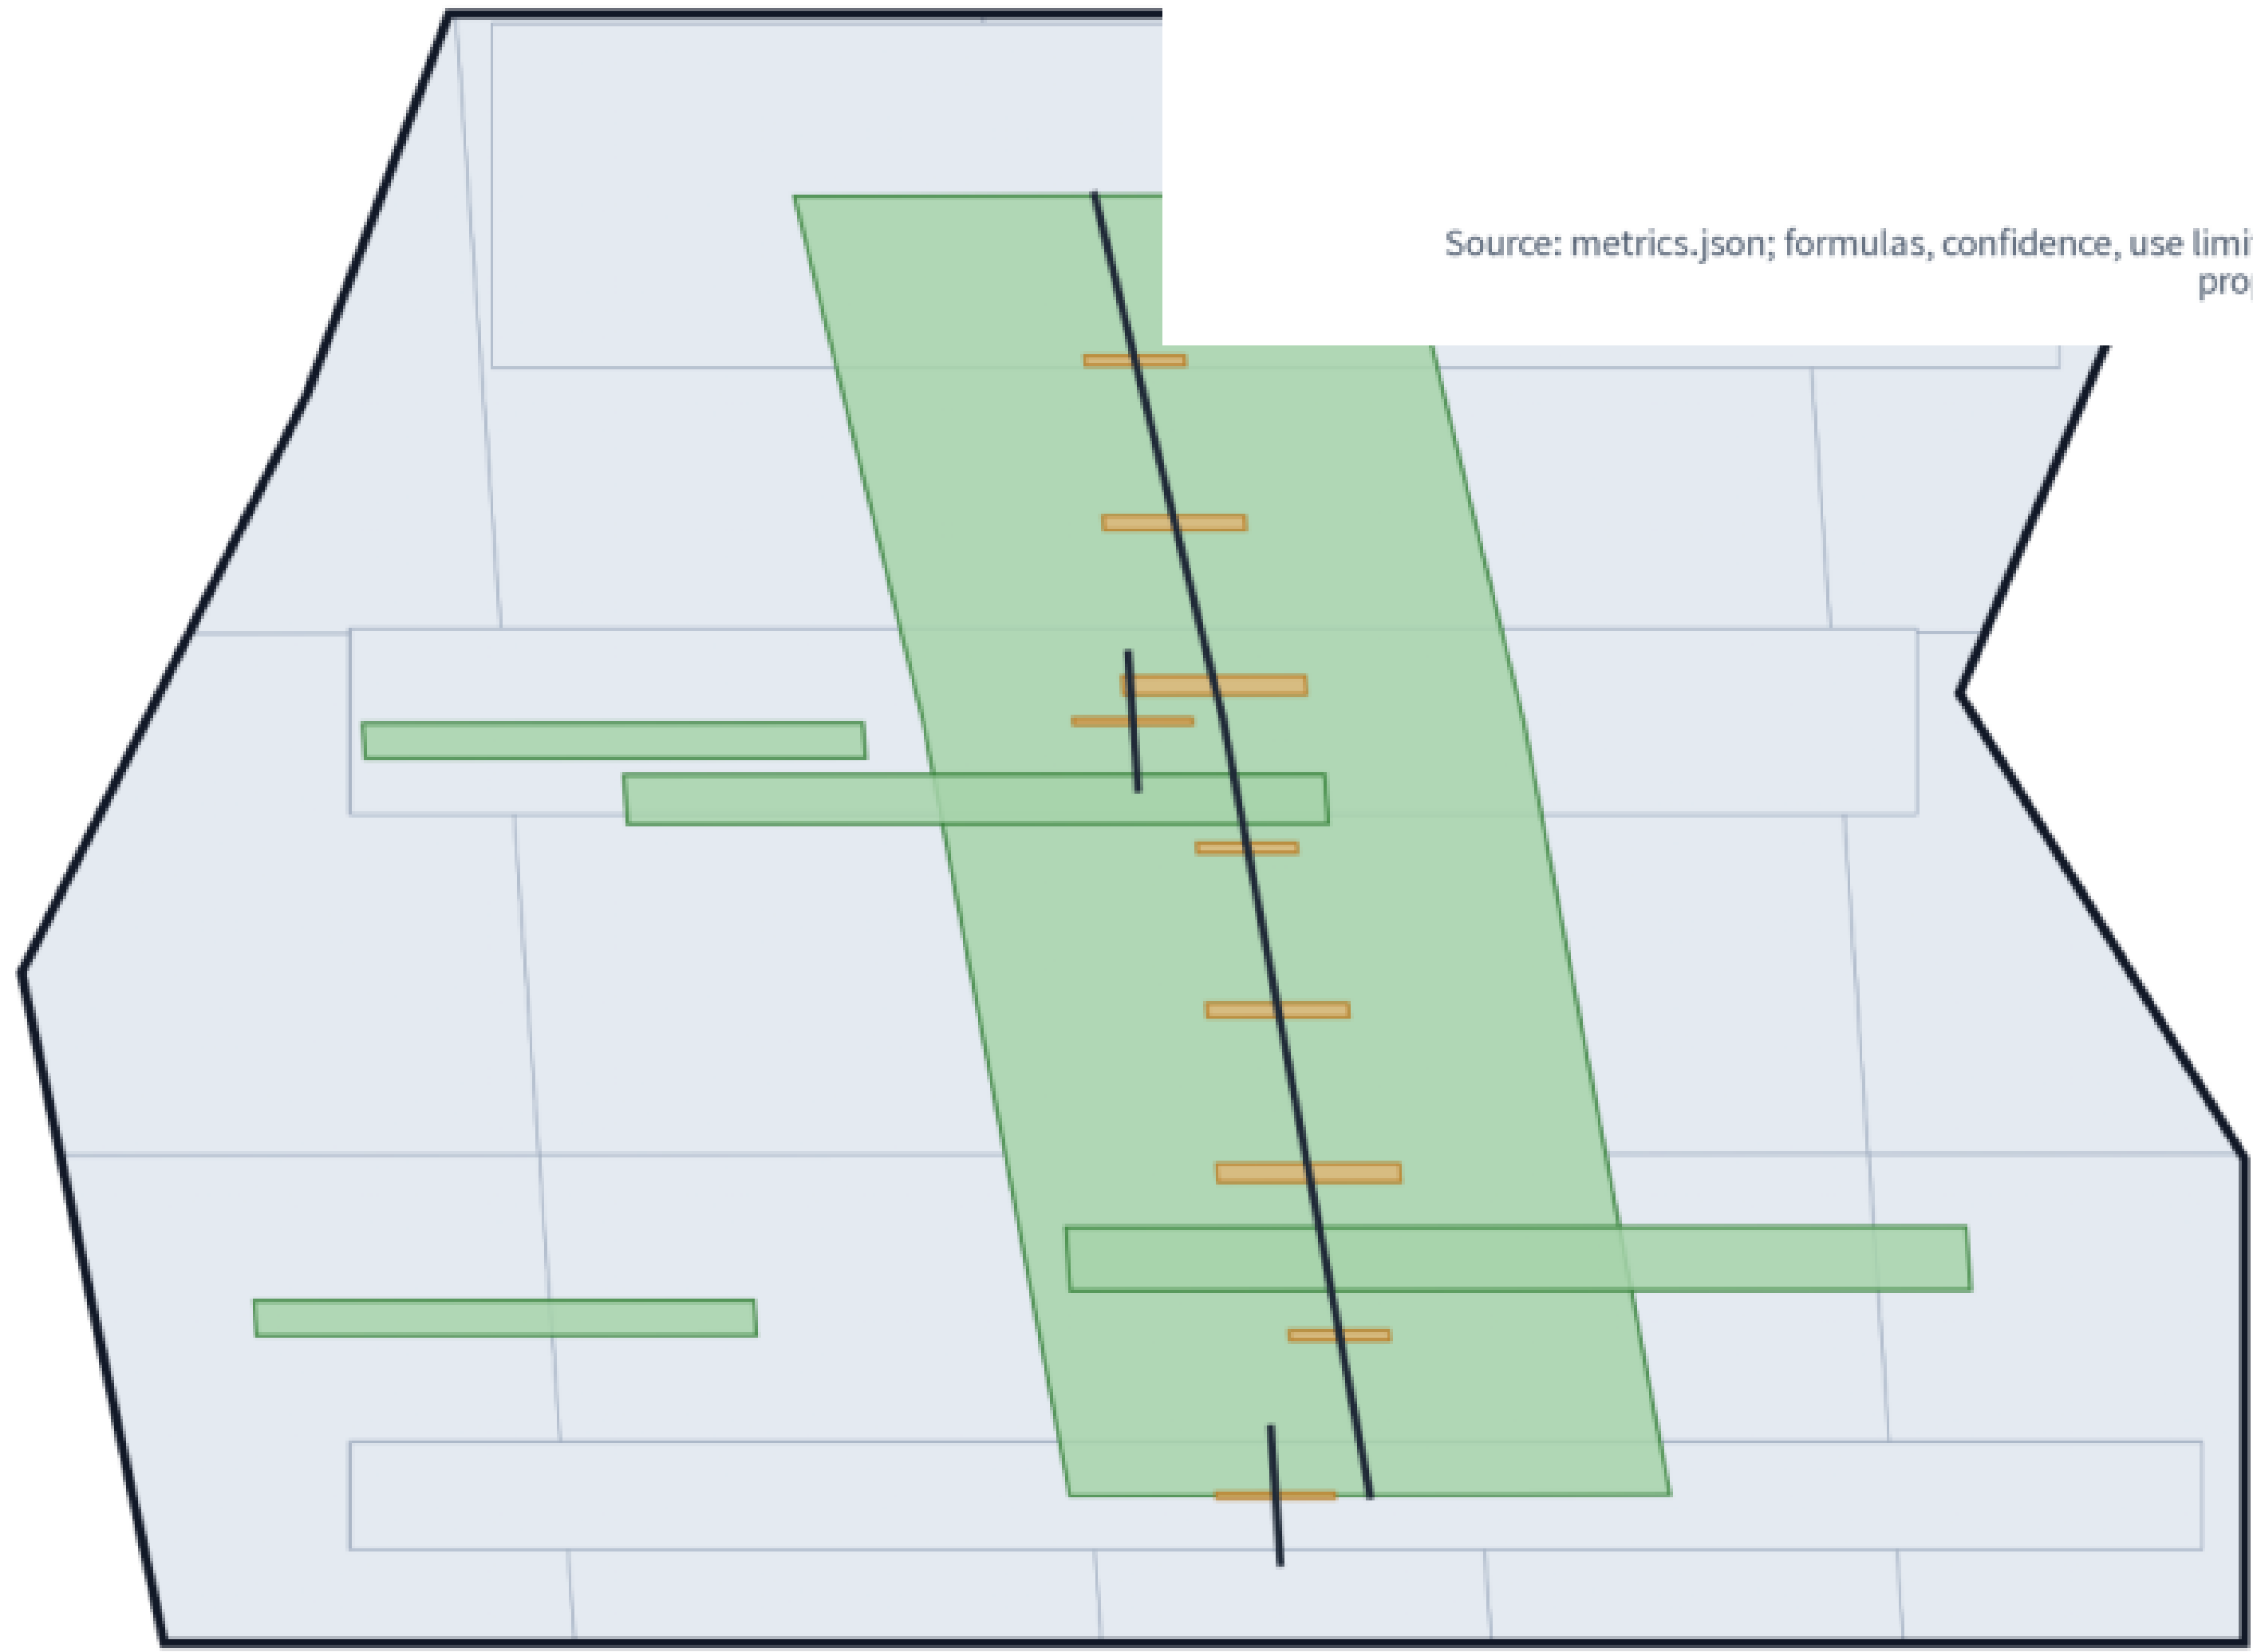

Land-use class names follow the national Land Use & Sea Classification Guide; no official baseline exists yet, shares are conceptual scenarios and will be recomputed by the same aggregation caliber after official data is published.

Jing-Zhang Memory • AI Archive Gallery

Regional Coordination (schematic)

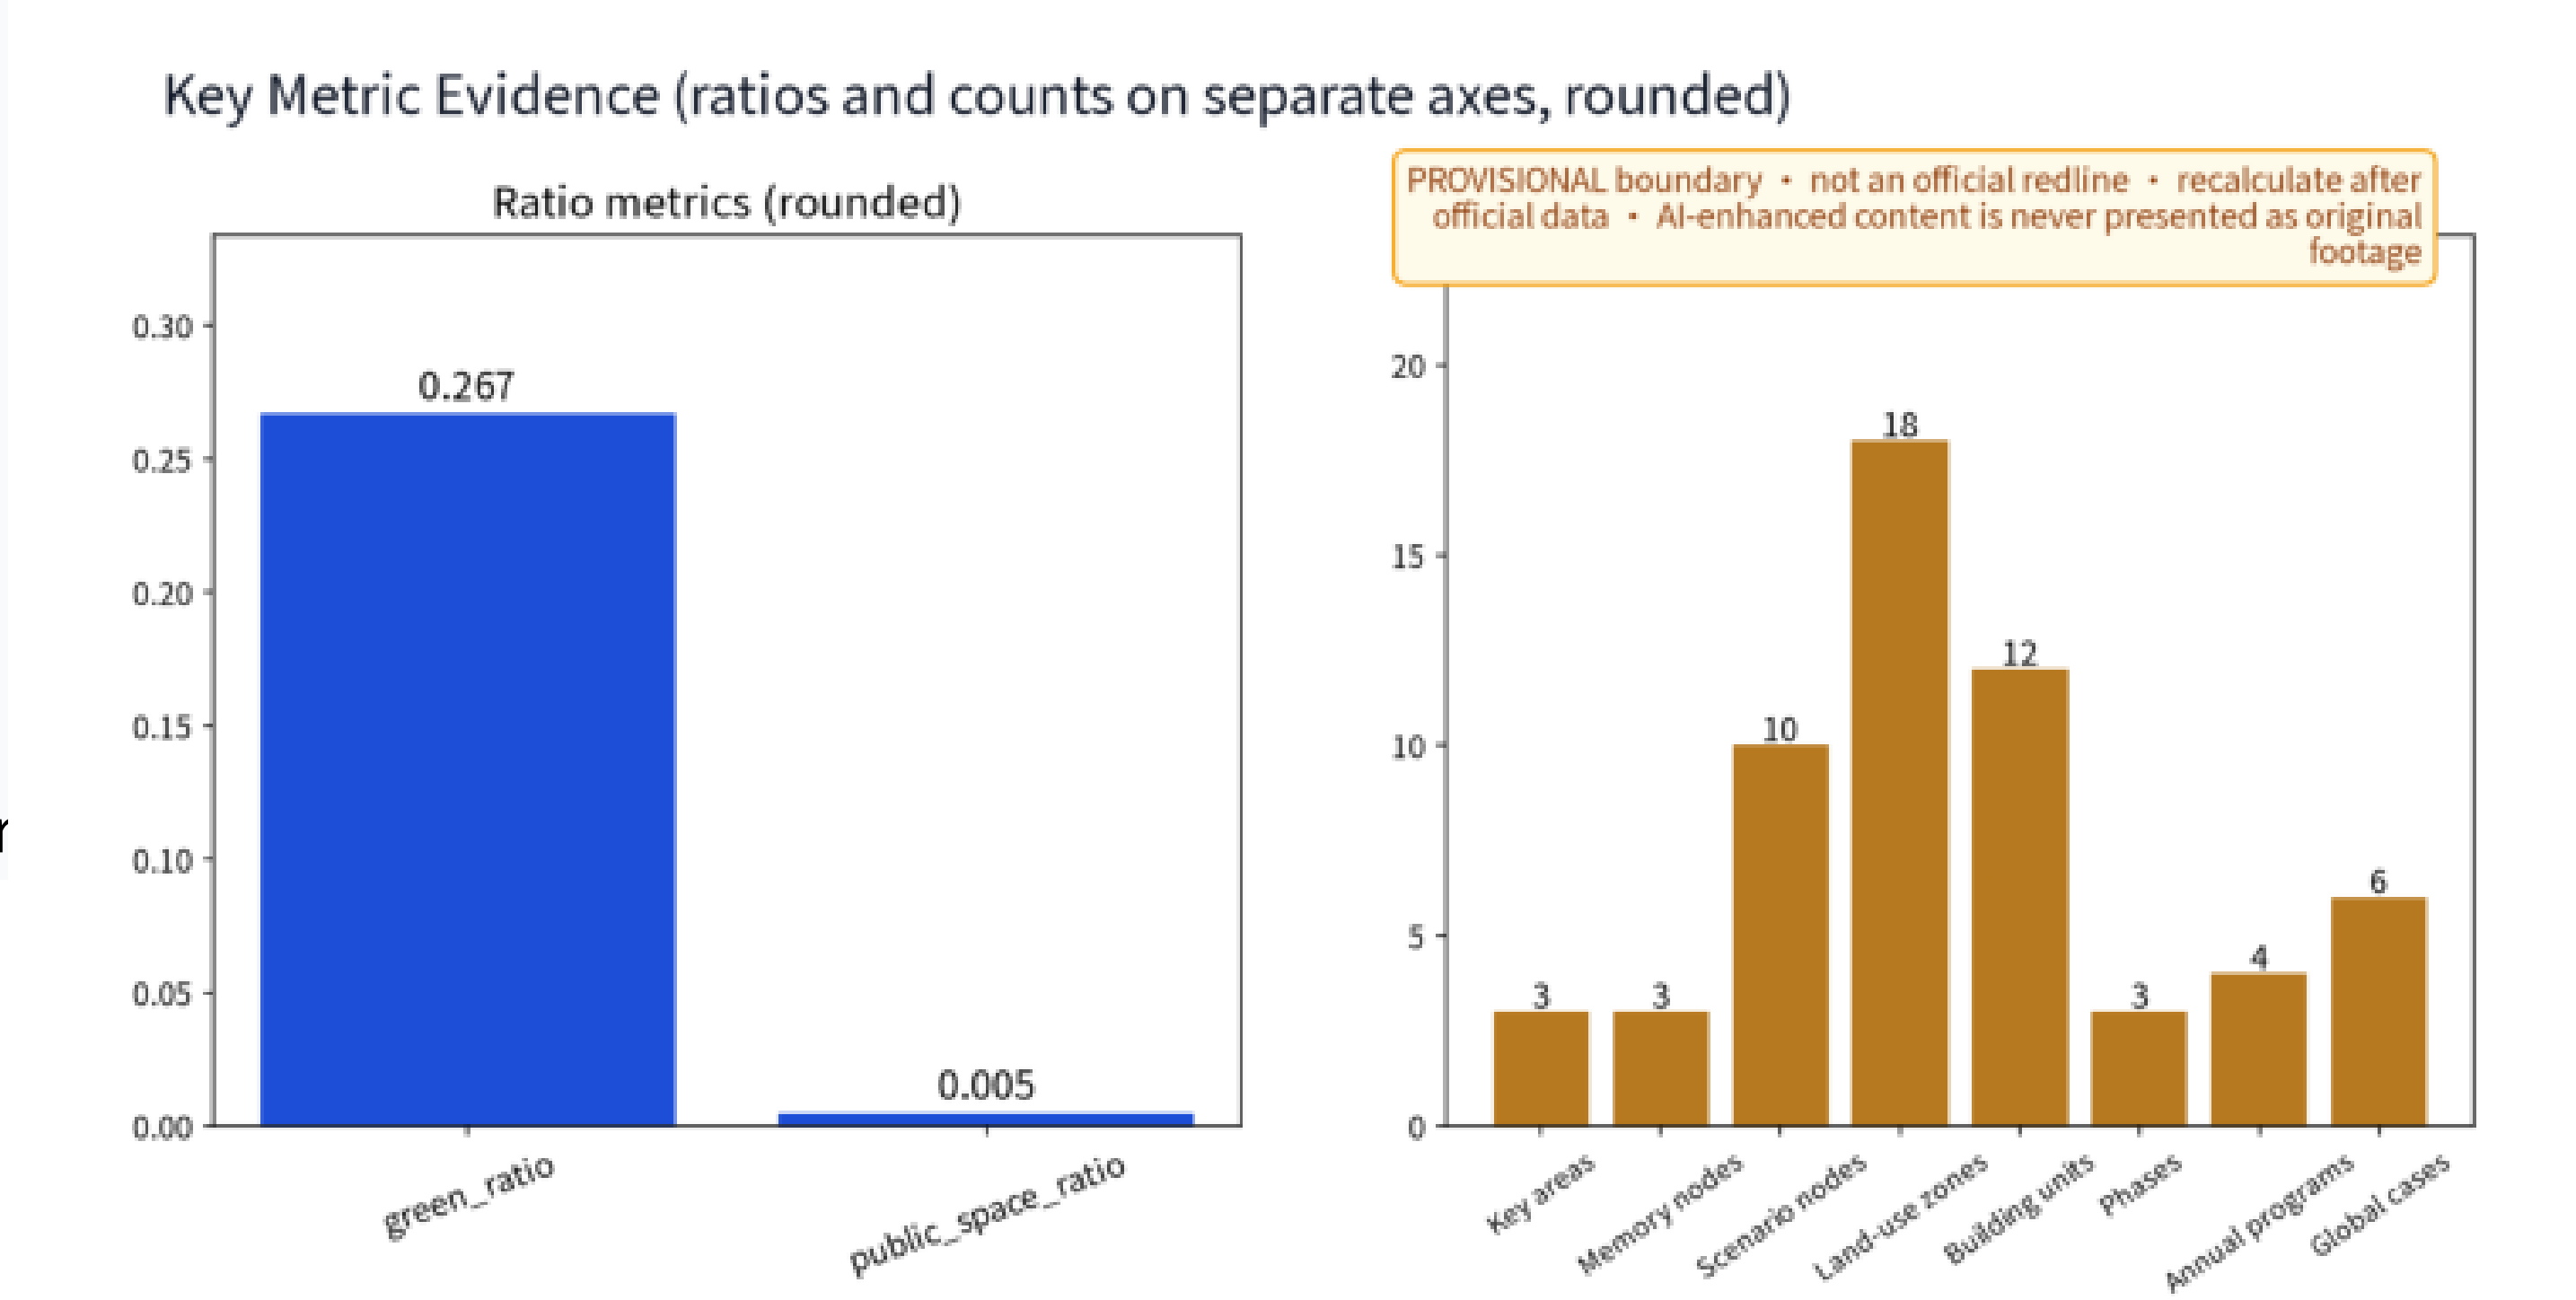

Memory Routes & Blue-Green

- Conceptual green space
- Public space / plaza
- Conceptual memory spine
- Overall design scope (provisional)

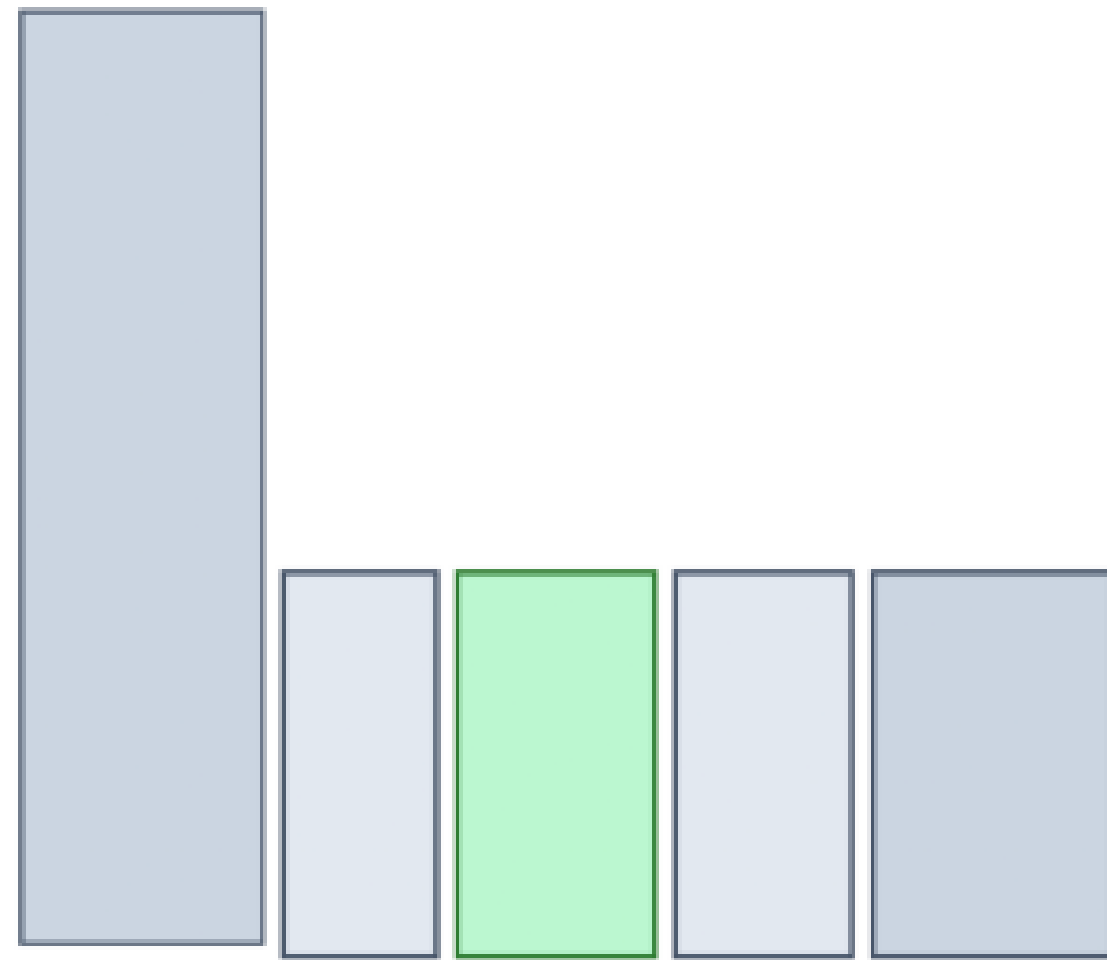

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data. Historical images/footage are directional only.

Key Metric Evidence (ratios and counts on separate axes, rounded)

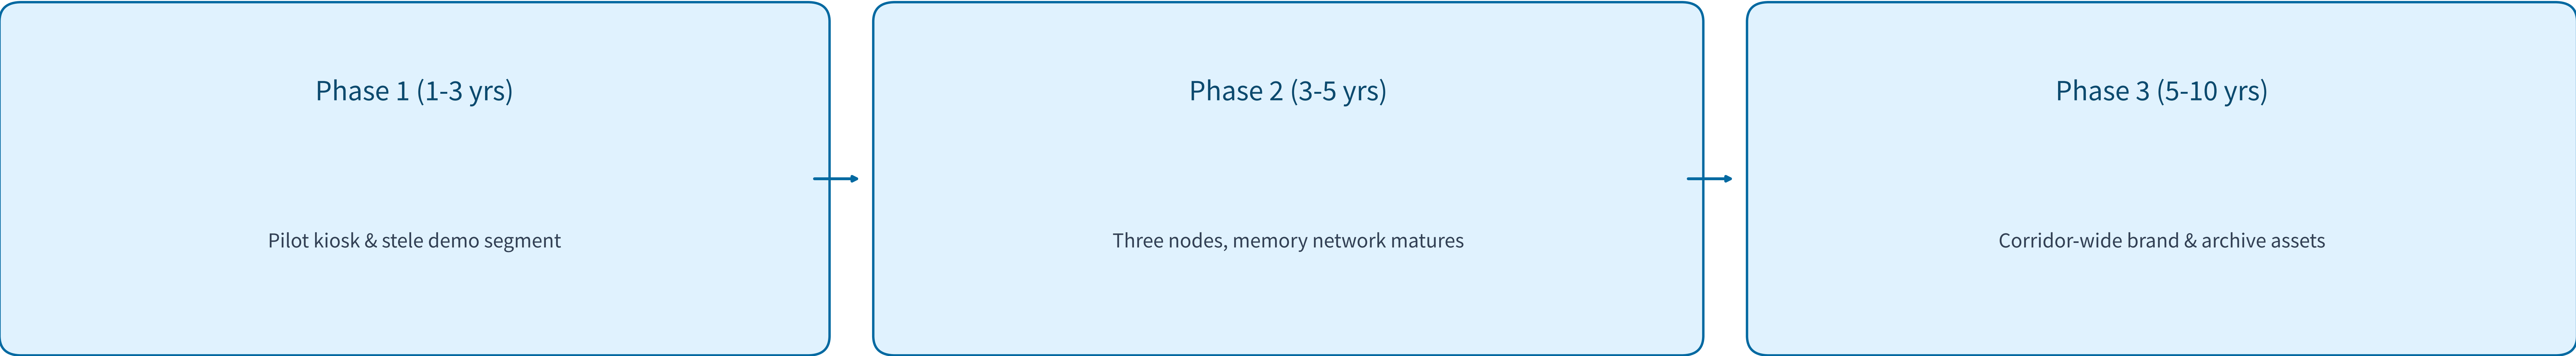

Source: metrics.json; formulas, confidence, use limits and recompute triggers are listed in the metrics table of proposal.md.

Street section (conceptual)

The section is a conceptual sketch, not an engineering cross-section.

Phased Implementation & Operation (concept)

Mechanisms: lean RACI (government coordinates / archives-museums collaborate / operators run / communities-volunteers oversee) • phase gates • rights-ledger audits • stop & exit conditions • annual memory disclosure and resident feedback channels
