

LAST JZ Loop: Jing-Zhang AI Innovation Belt, Last-Mile Delivery (C

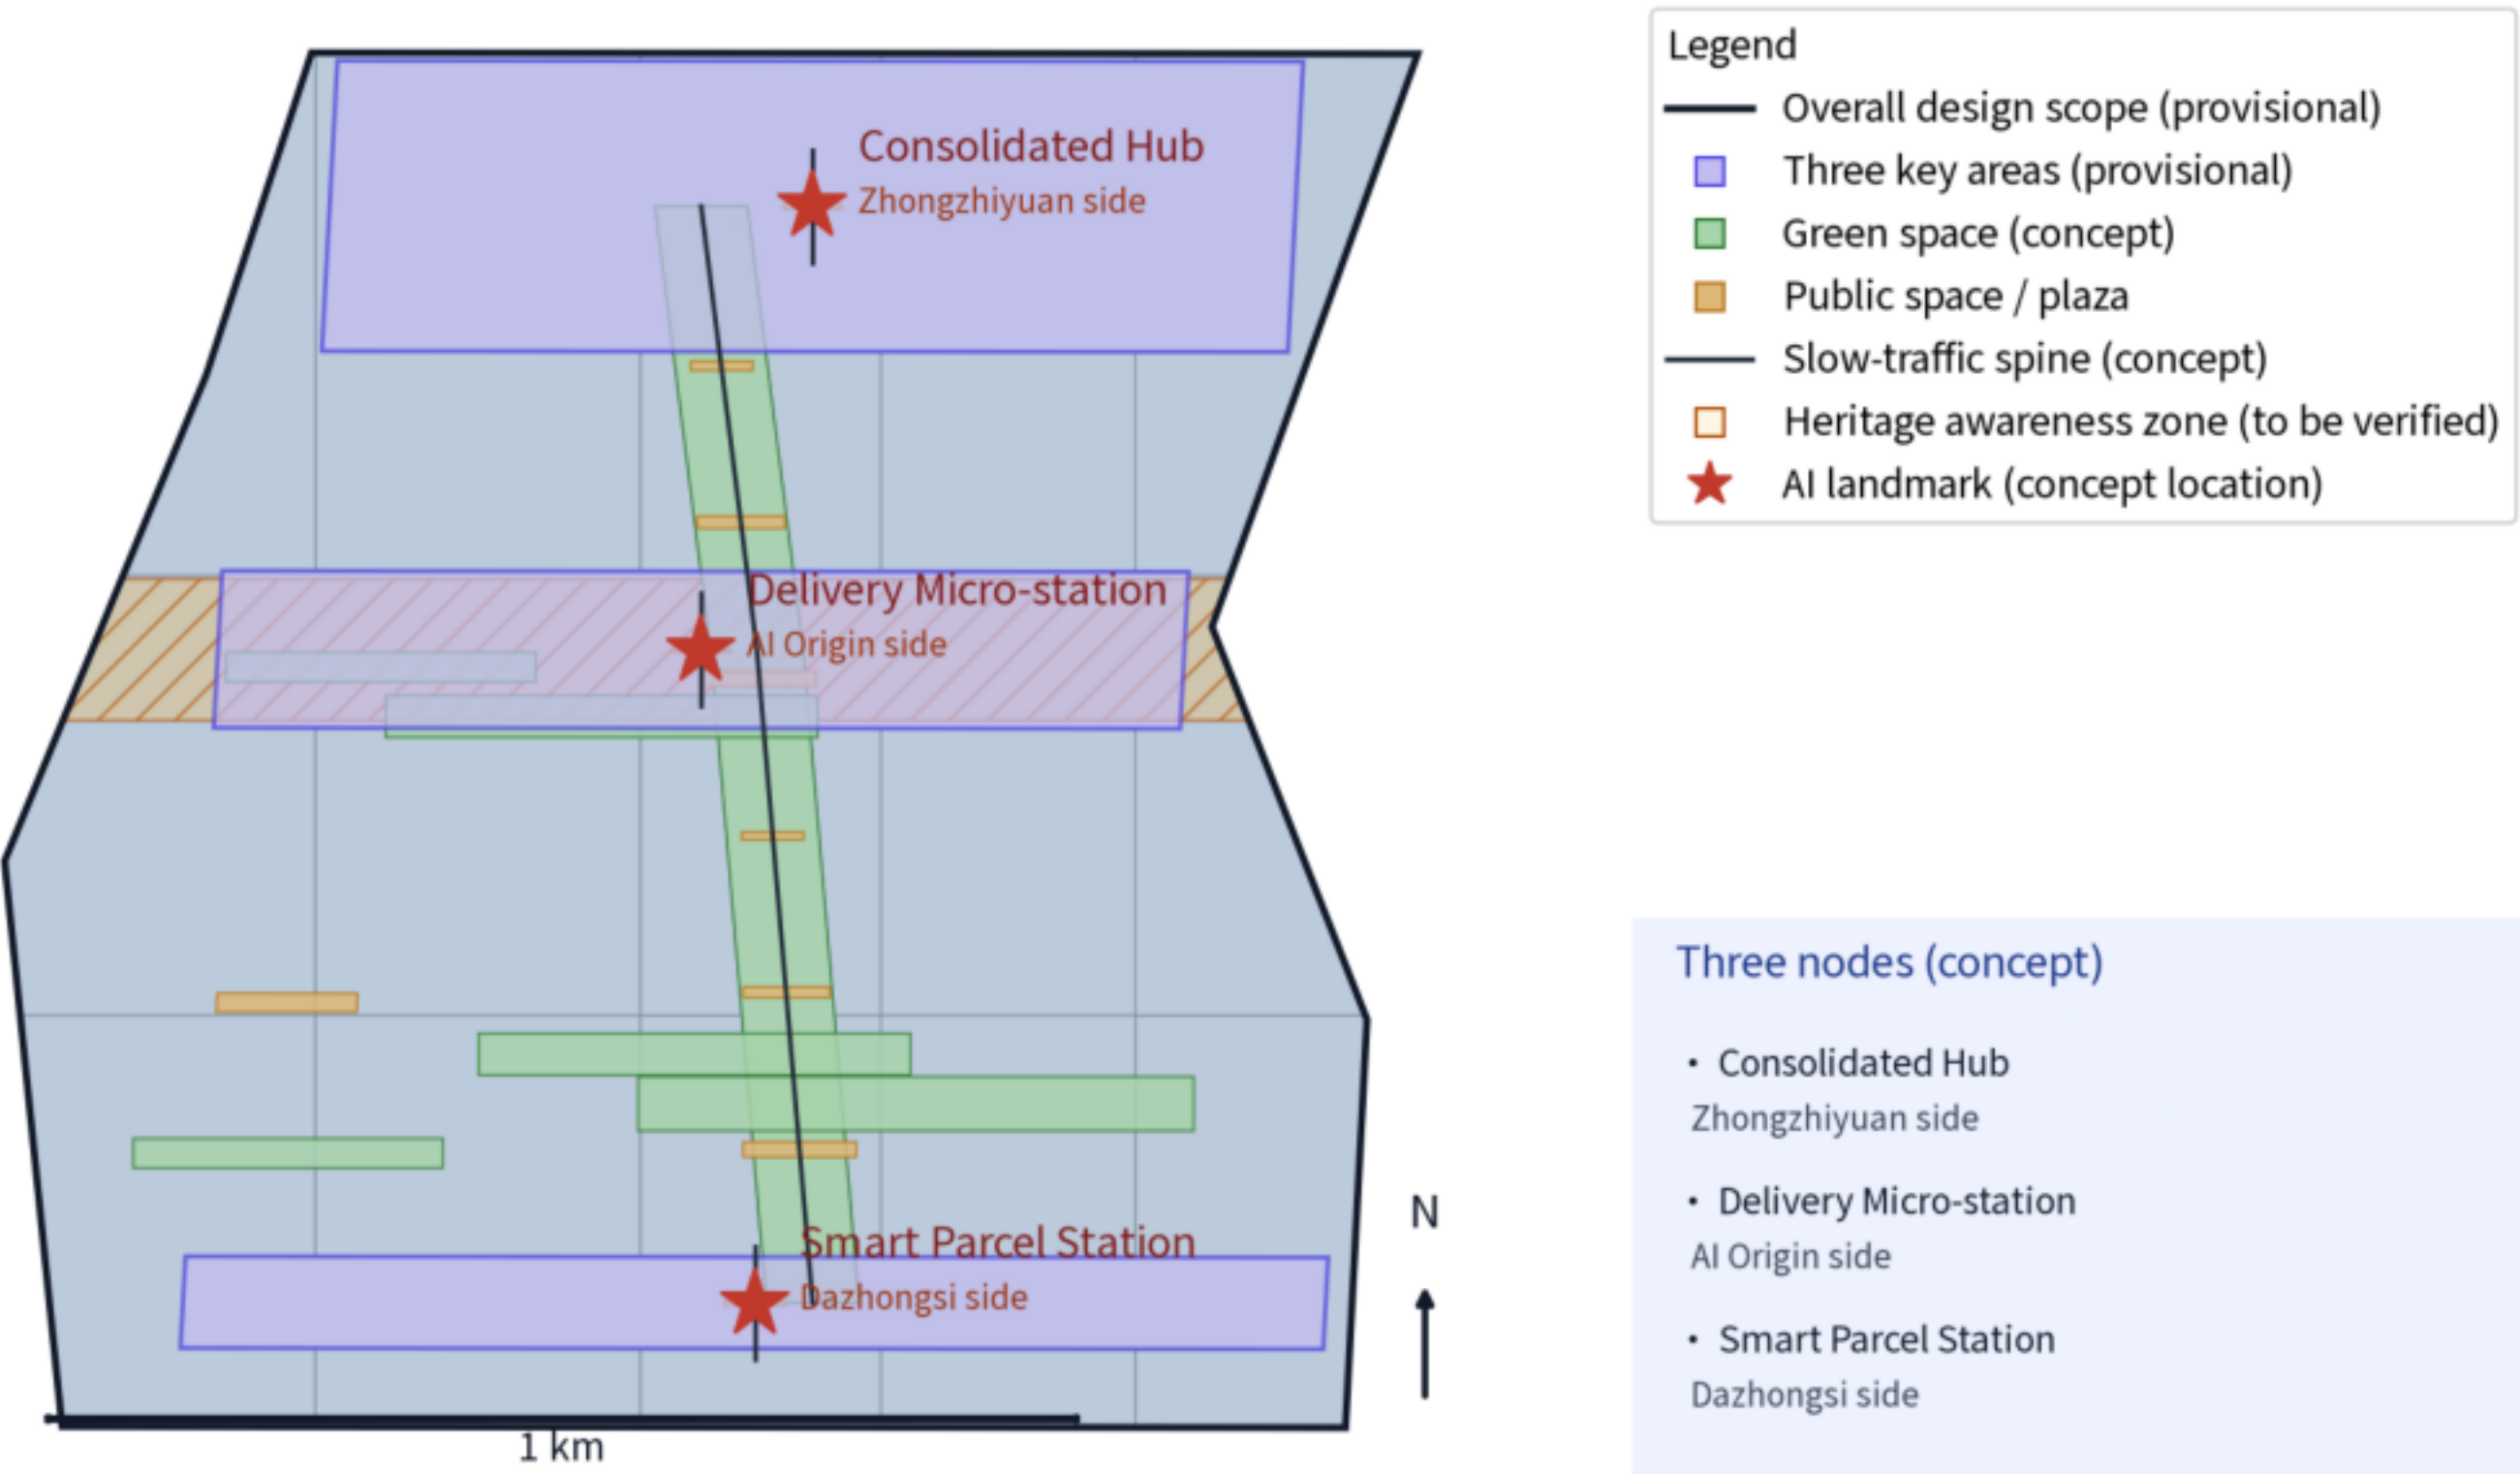

PROVISIONAL boundary • not an official redline • recalculate after official data

Site overview - three nodes - land-use structure (concept, provisional)

Overall Design Overview: LAST JZ Loop (Concept, Provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

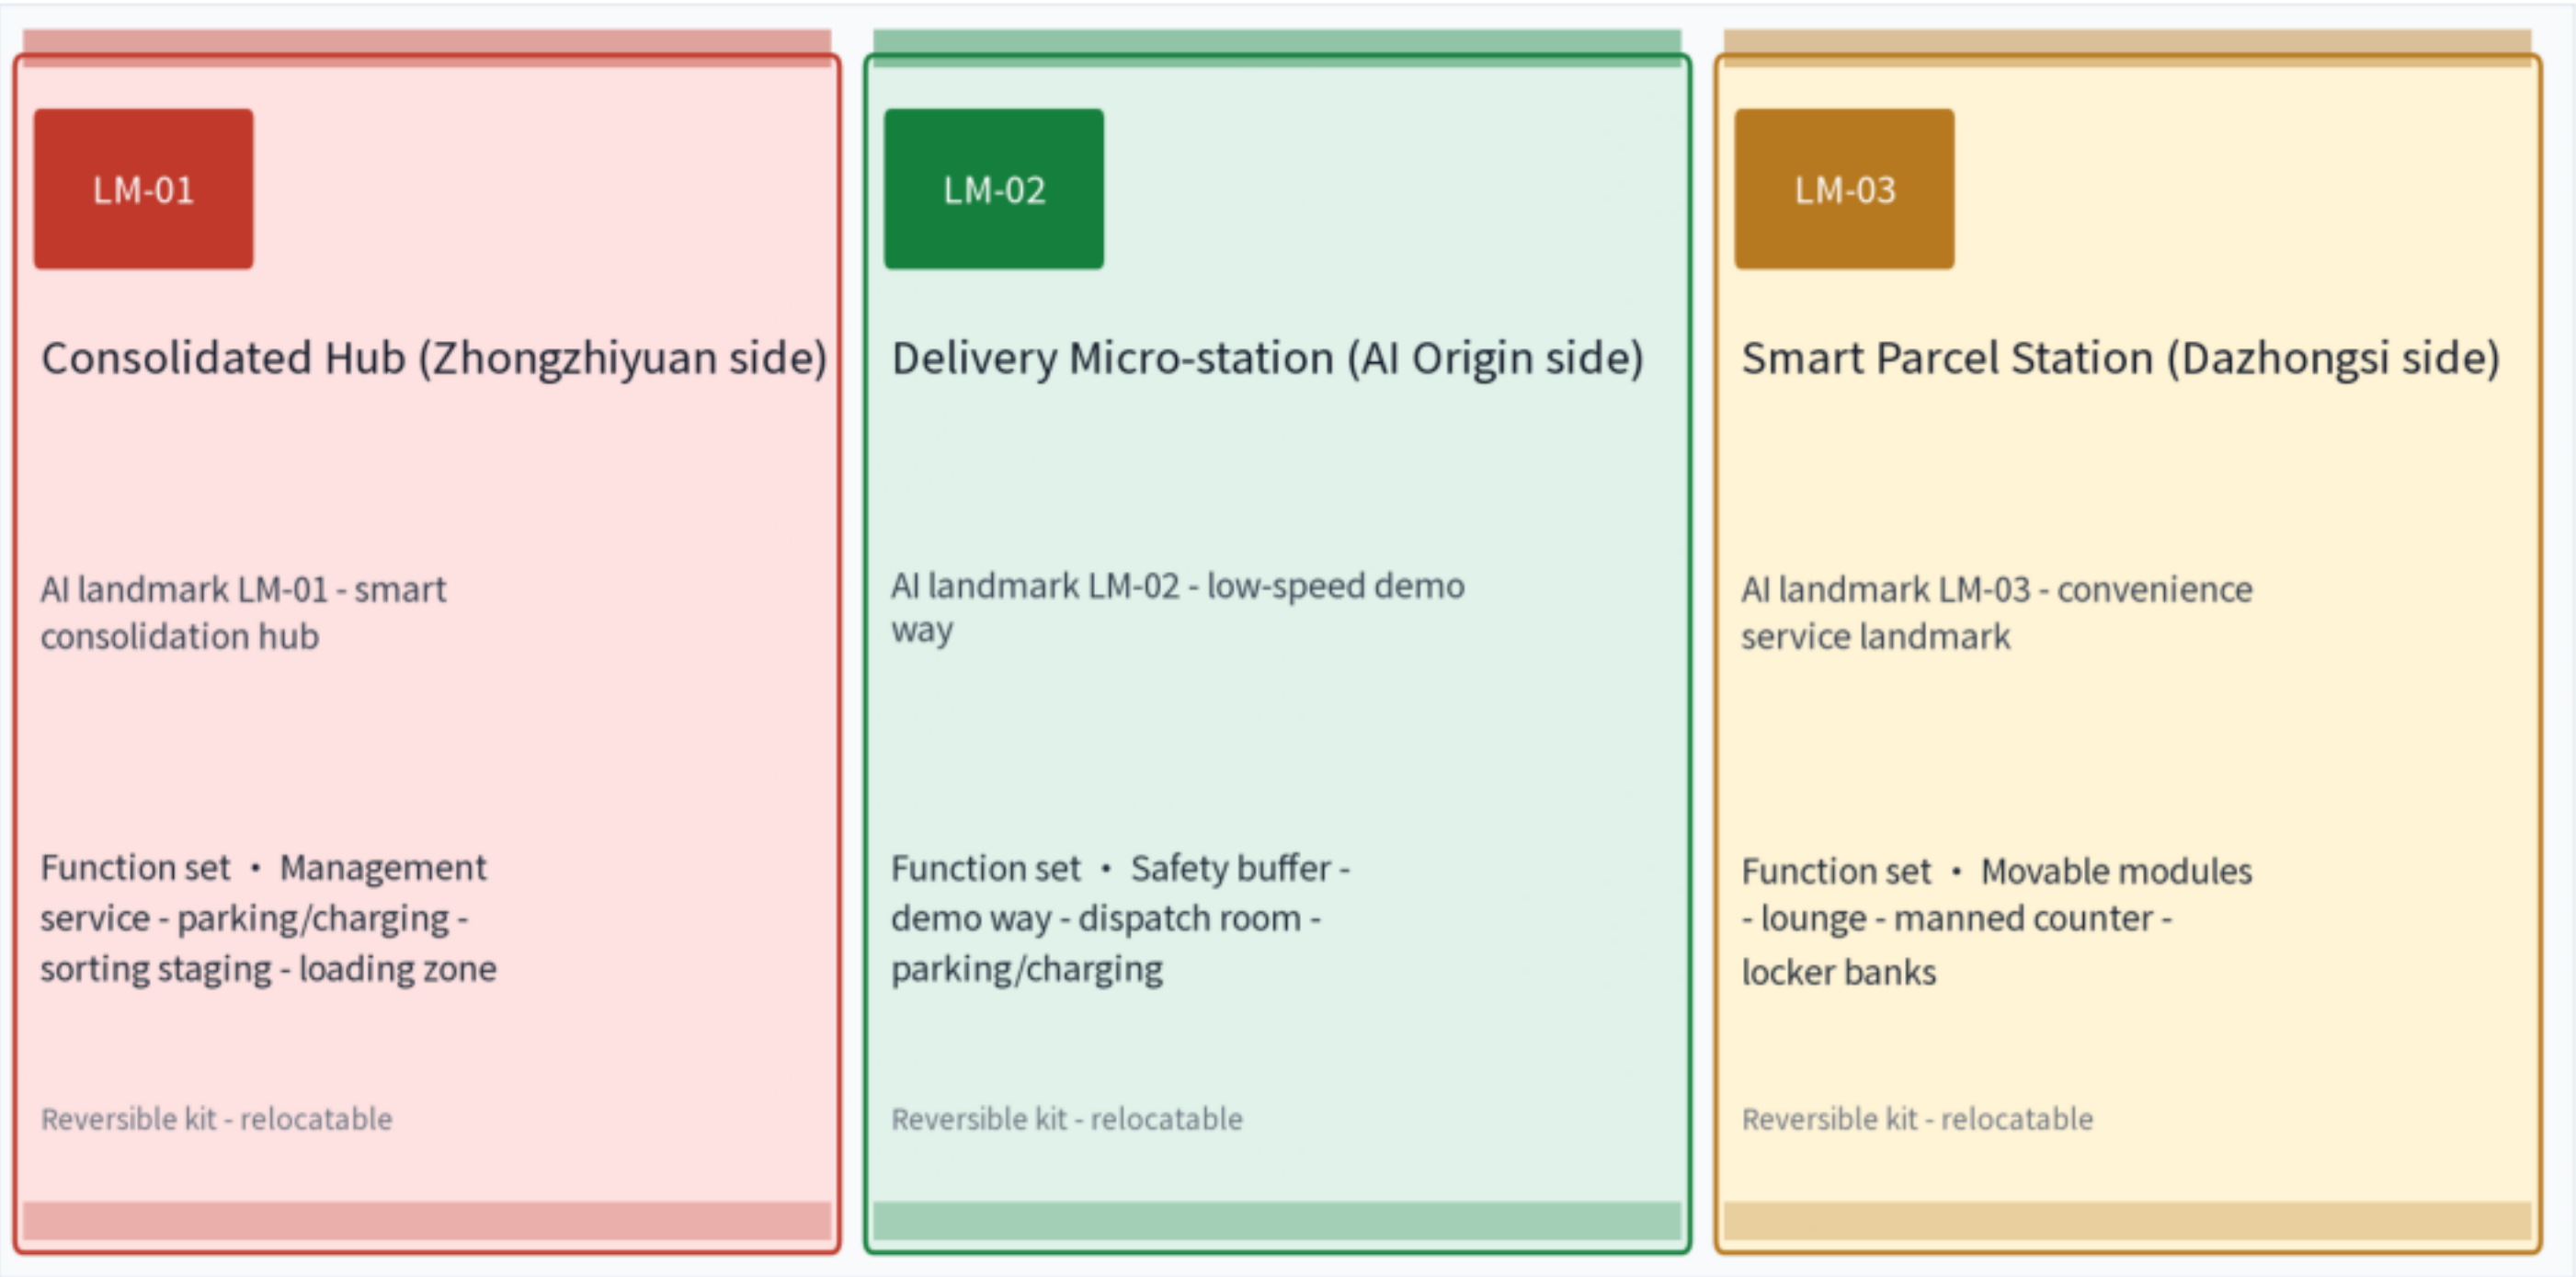

Package overall scope ~11.4 km^2 - one hub two stations one point - provisional (not an official redline).

Three Key Areas Detailed Design Tasks (Concept, Provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

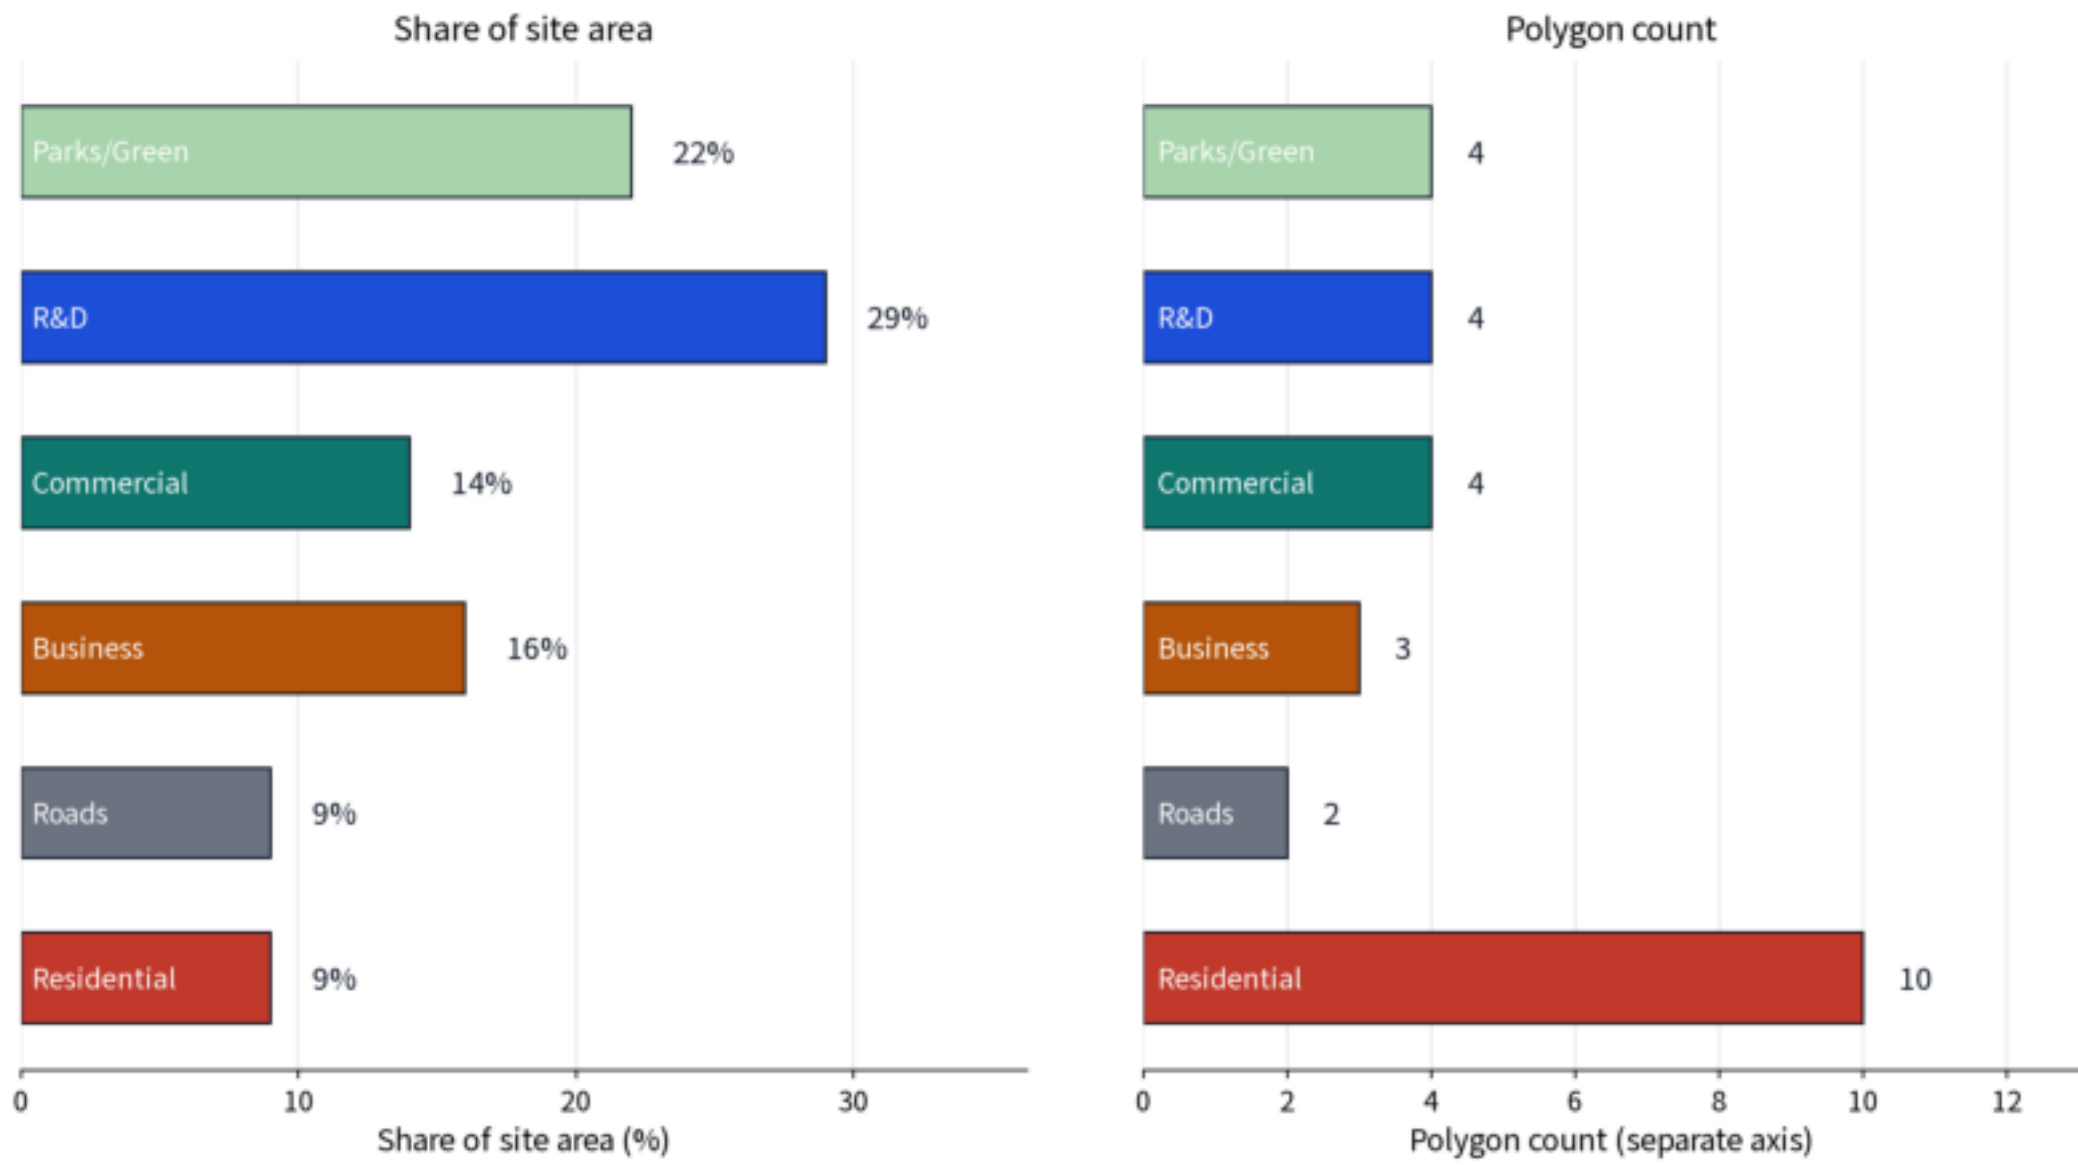

Consolidated Hub / Delivery Micro-station / Smart Parcel Station (LM-01 / LM-02 / LM-03)

Concept sites; final locations follow the organizer's official boundaries and field survey; facilities reversible, fully relocatable.

Conceptual Land-Use Structure (Single Caliber, Provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

Recomputed from package land_use.geojson in EPSG:4548; six class shares sum to ~99%; same formula as figures, HTML, PDF; recalculate after official data.

LAST JZ Loop: Jing-Zhang AI Innovation Belt, Last-Mile Delivery (C

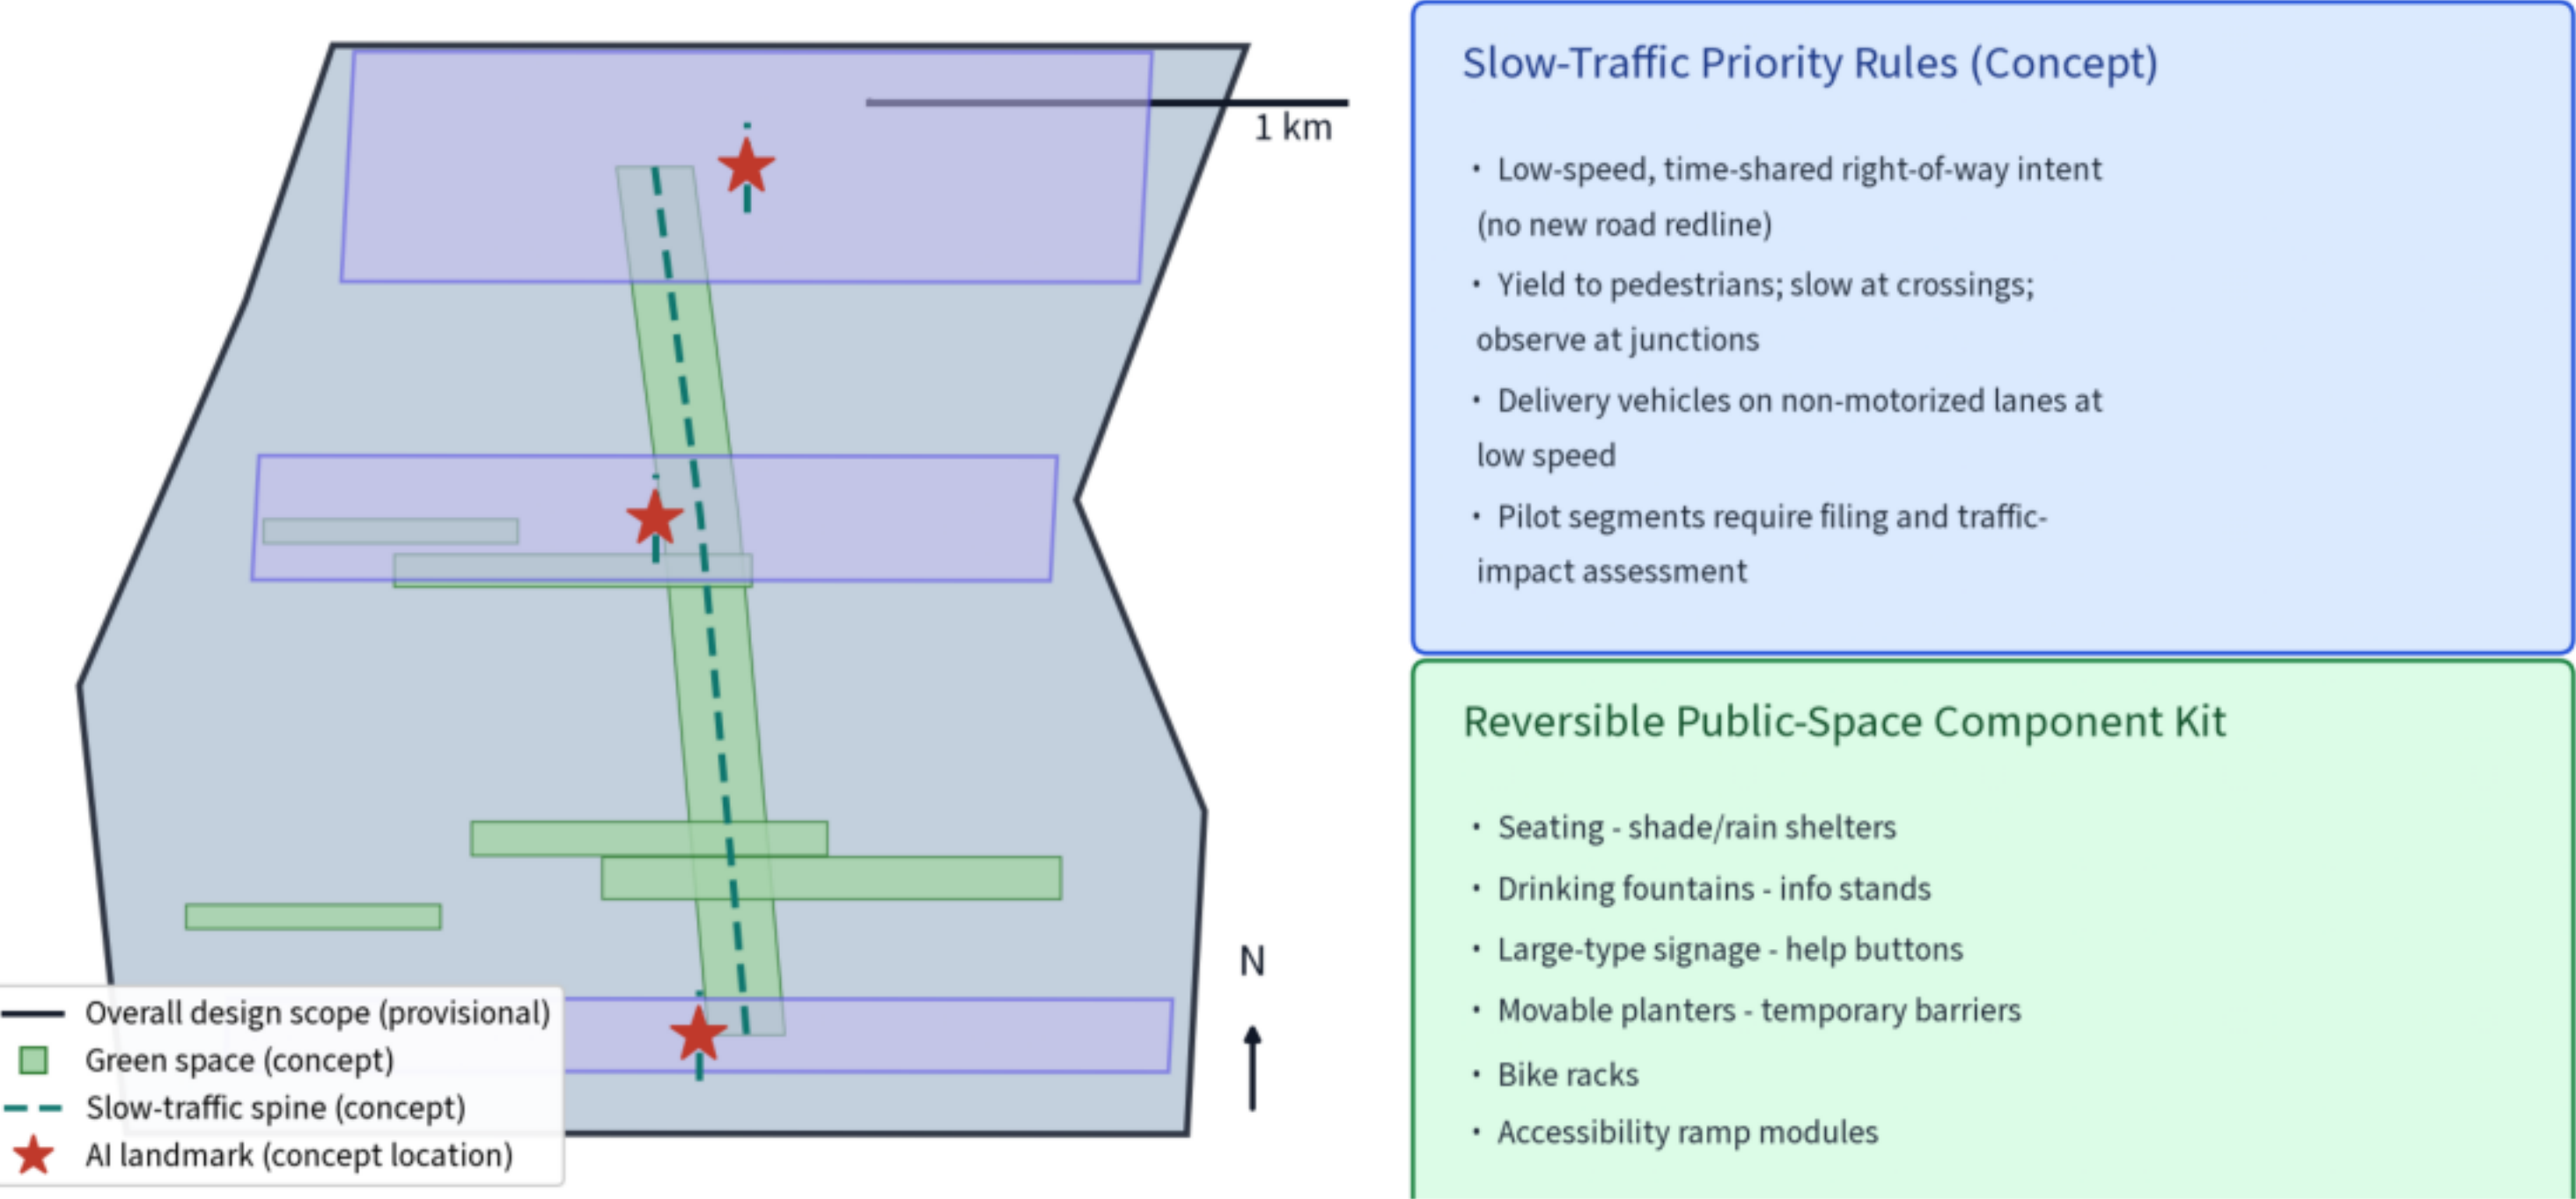

PROVISIONAL boundary • not an official redline • recalculate after official data

Mobility - metrics (concept, provisional)

Slow-Traffic and Blue-Green Network: Low-Speed Delivery x Greenbelt x Publi...

PROVISIONAL boundary • not an official redline • recalculate after official data

Last-mile route and slow-traffic system integrated; all three nodes at greenbelt/slow-traffic intersections.

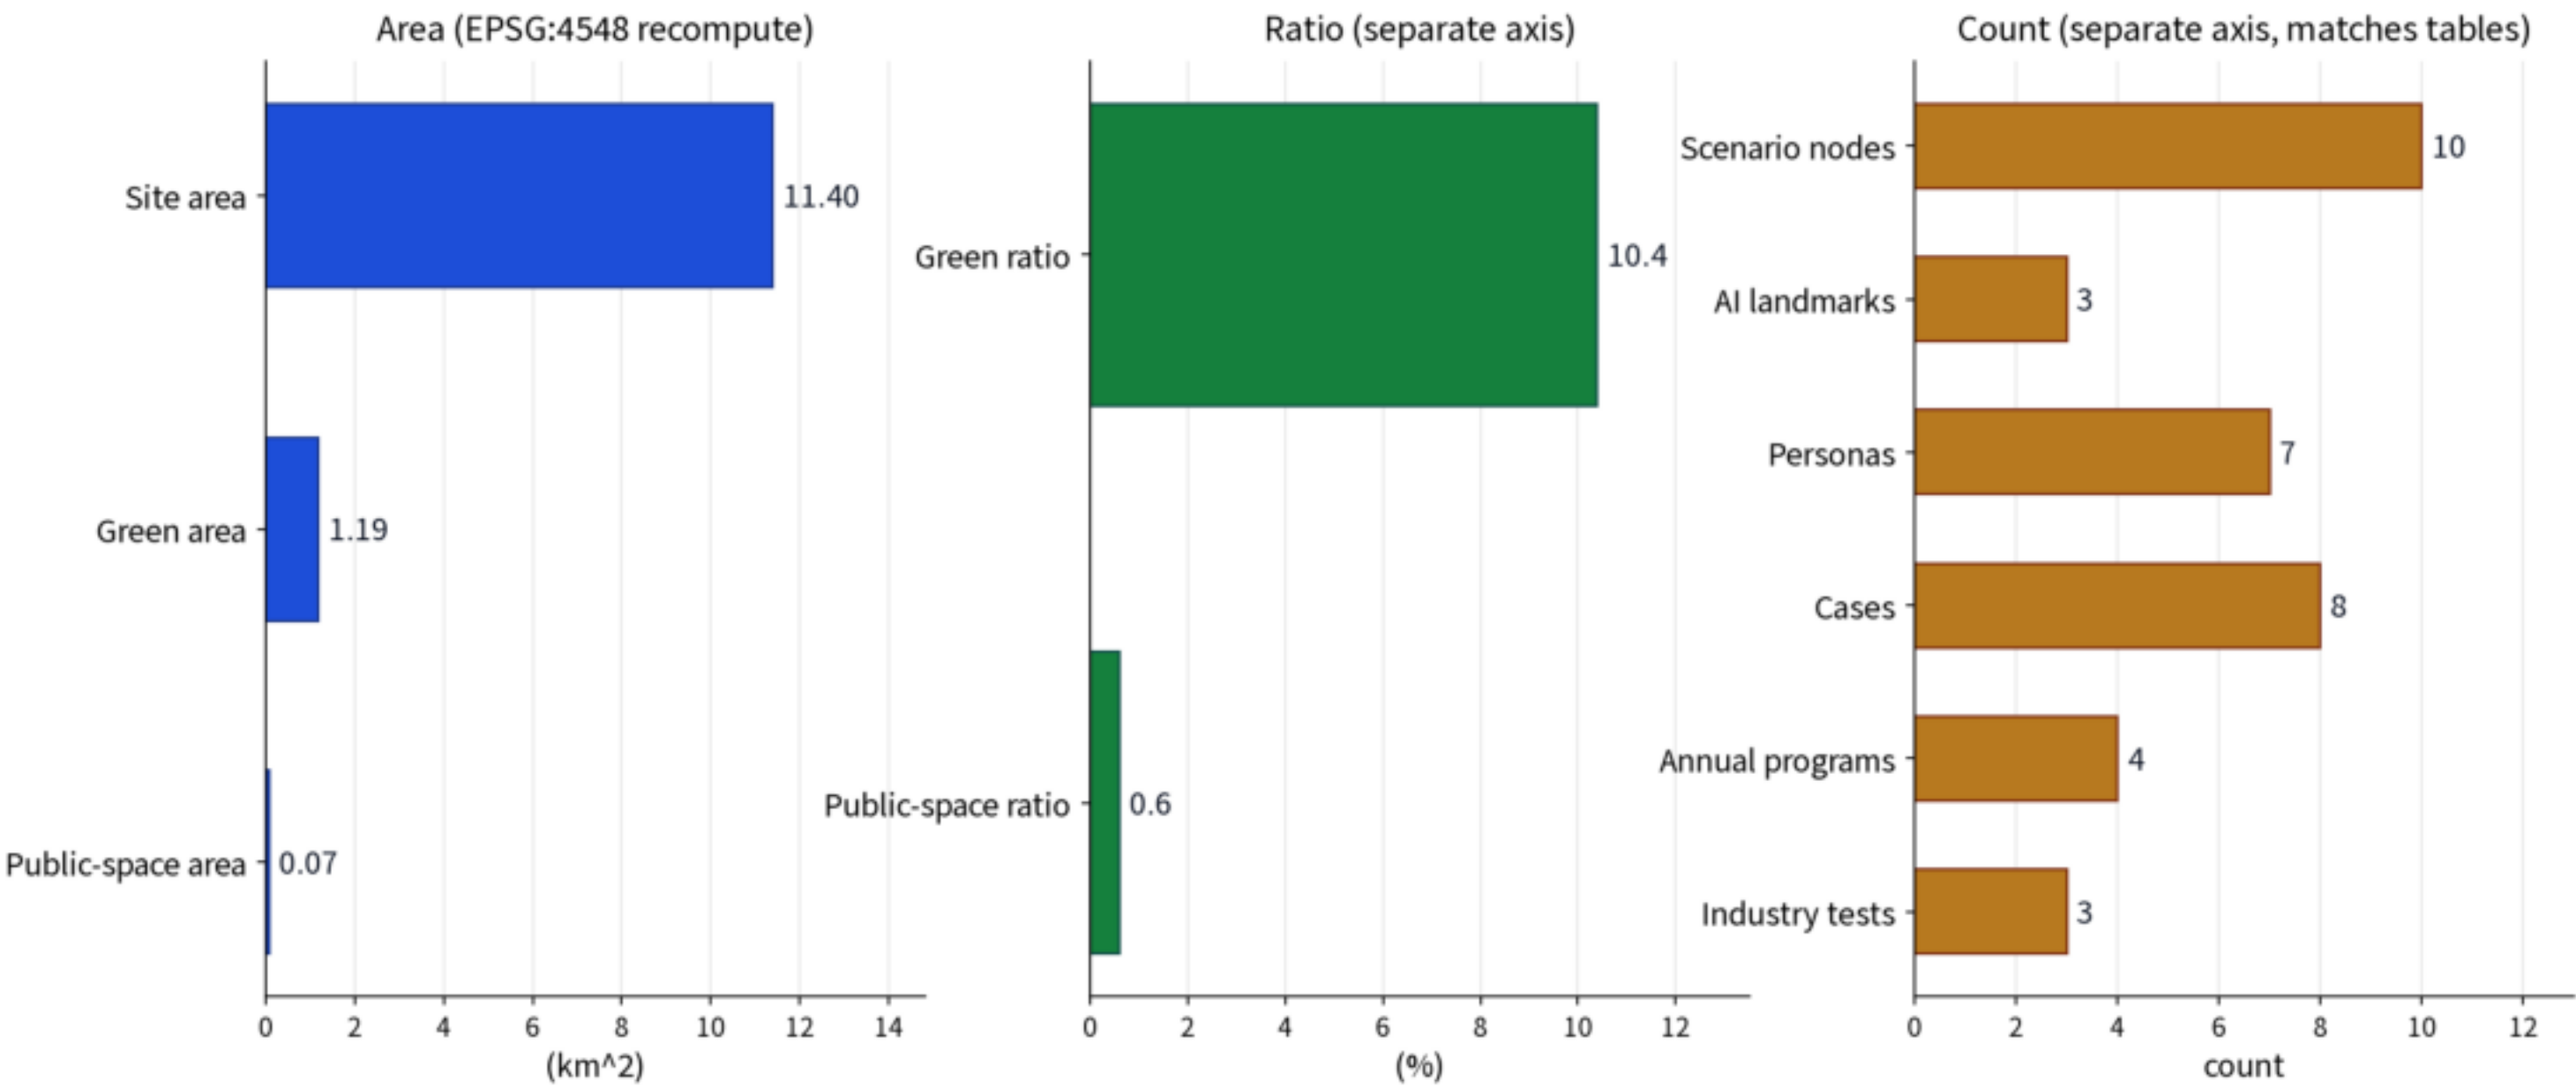

Blue-green network with the JZ Railway Heritage Park greenbelt as the spine; relation to green/blue/heritage control lines depends on official control-line survey.

Core Metric Evidence (Area / Ratio / Count on separate charts)

Recomputed from package geometry; provisional concept values; recalculate after official data.

PROVISIONAL boundary • not an official redline • recalculate after official data

All displayed values are reduced-precision concept figures (participant temporary model data, not authoritative); ratios and counts on separate axes; not a numerical comparison.
