

JINGZHI Avenue — AI Innovation Spine of Zhongguancun Avenue (Concept • A0 Board 1/2)

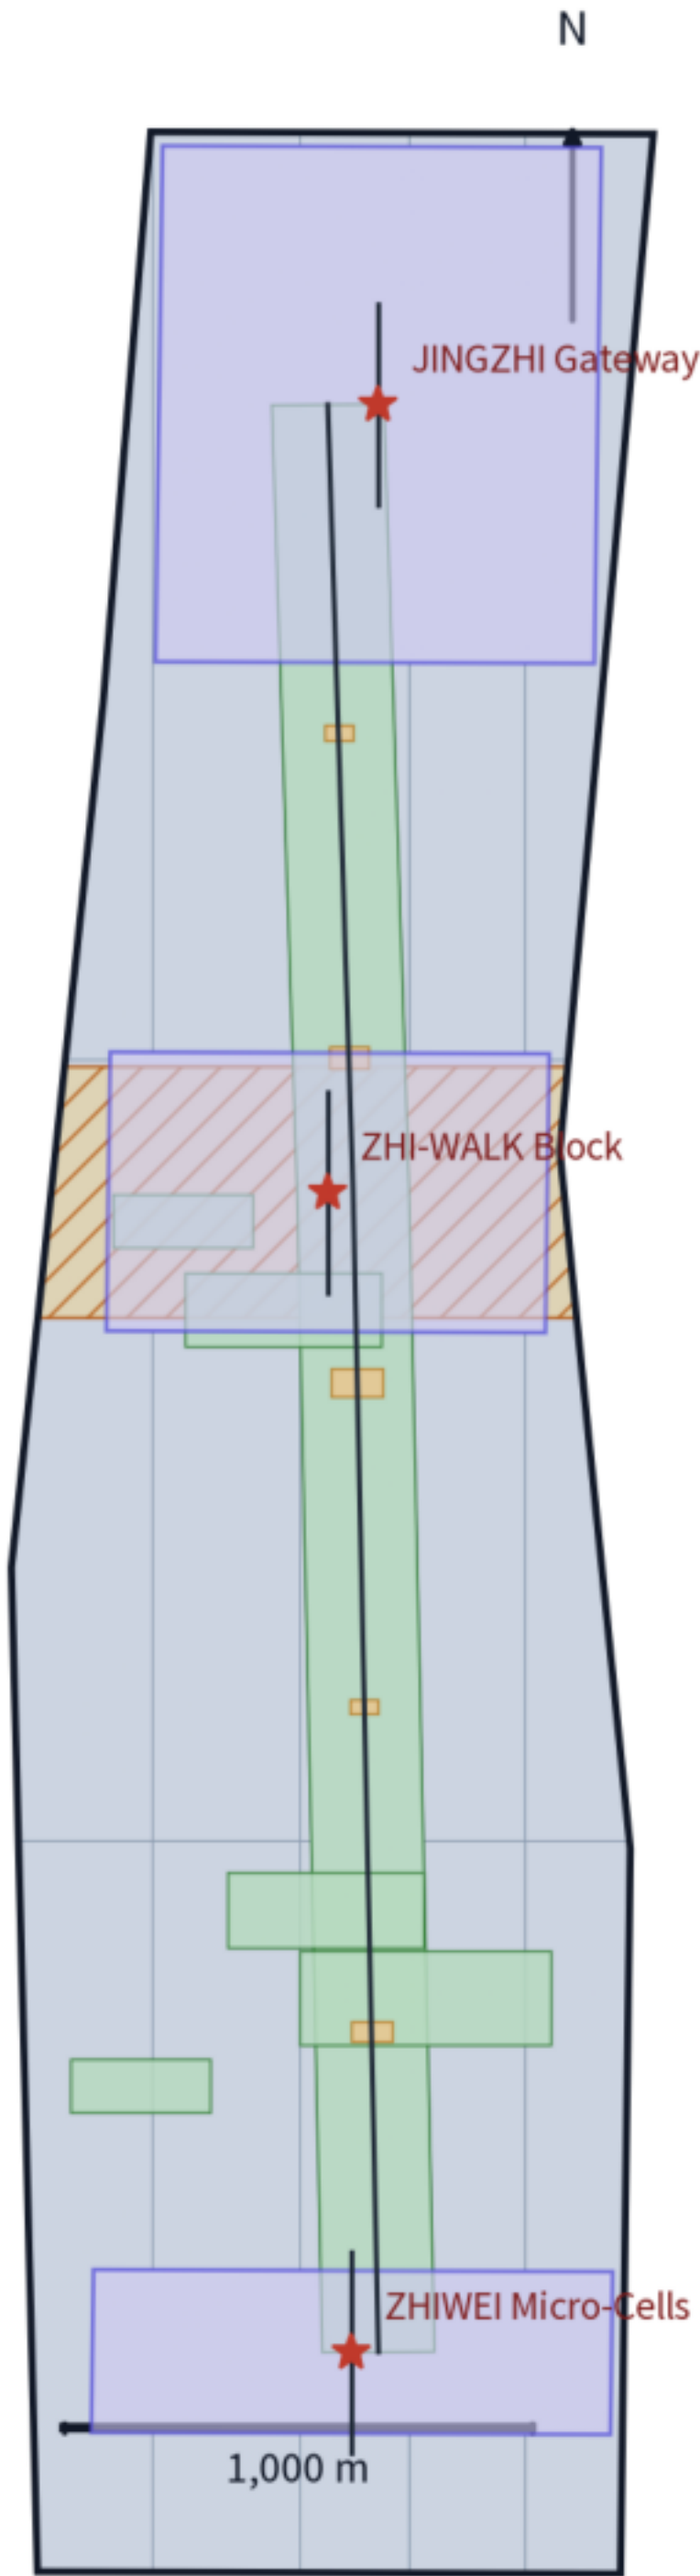

One axis, three nodes, five AI+ scenarios; anonymized aggregation and human review only; three-tier scopes per official text ($\approx 43.6\text{ km}^2$ / $\approx 11.4\text{ km}^2$ / $\approx 368.4\text{ ha}$)

PROVISIONAL boundary • not an official redline • recalculate after official data

Overall design overview (provisional)

Overall Design Overview — JINGZHI Avenue, AI Spine of Zhongguancun Avenue (provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

Three-tier scopes (official text values)

Coordinated study $\approx 43.6\text{ km}^2$
Overall design $\approx 11.4\text{ km}^2$
Key areas $\approx 368.4\text{ ha}$ total

This package sits within the overall design scope; the three areas are official text ranges to be recomputed after official polygons are published.

- Overall design scope (provisional)

Green space (concept)

Conceptual spine / stitch links

AI landmark (concept point)
- Key areas (provisional)

Public space / AI nodes

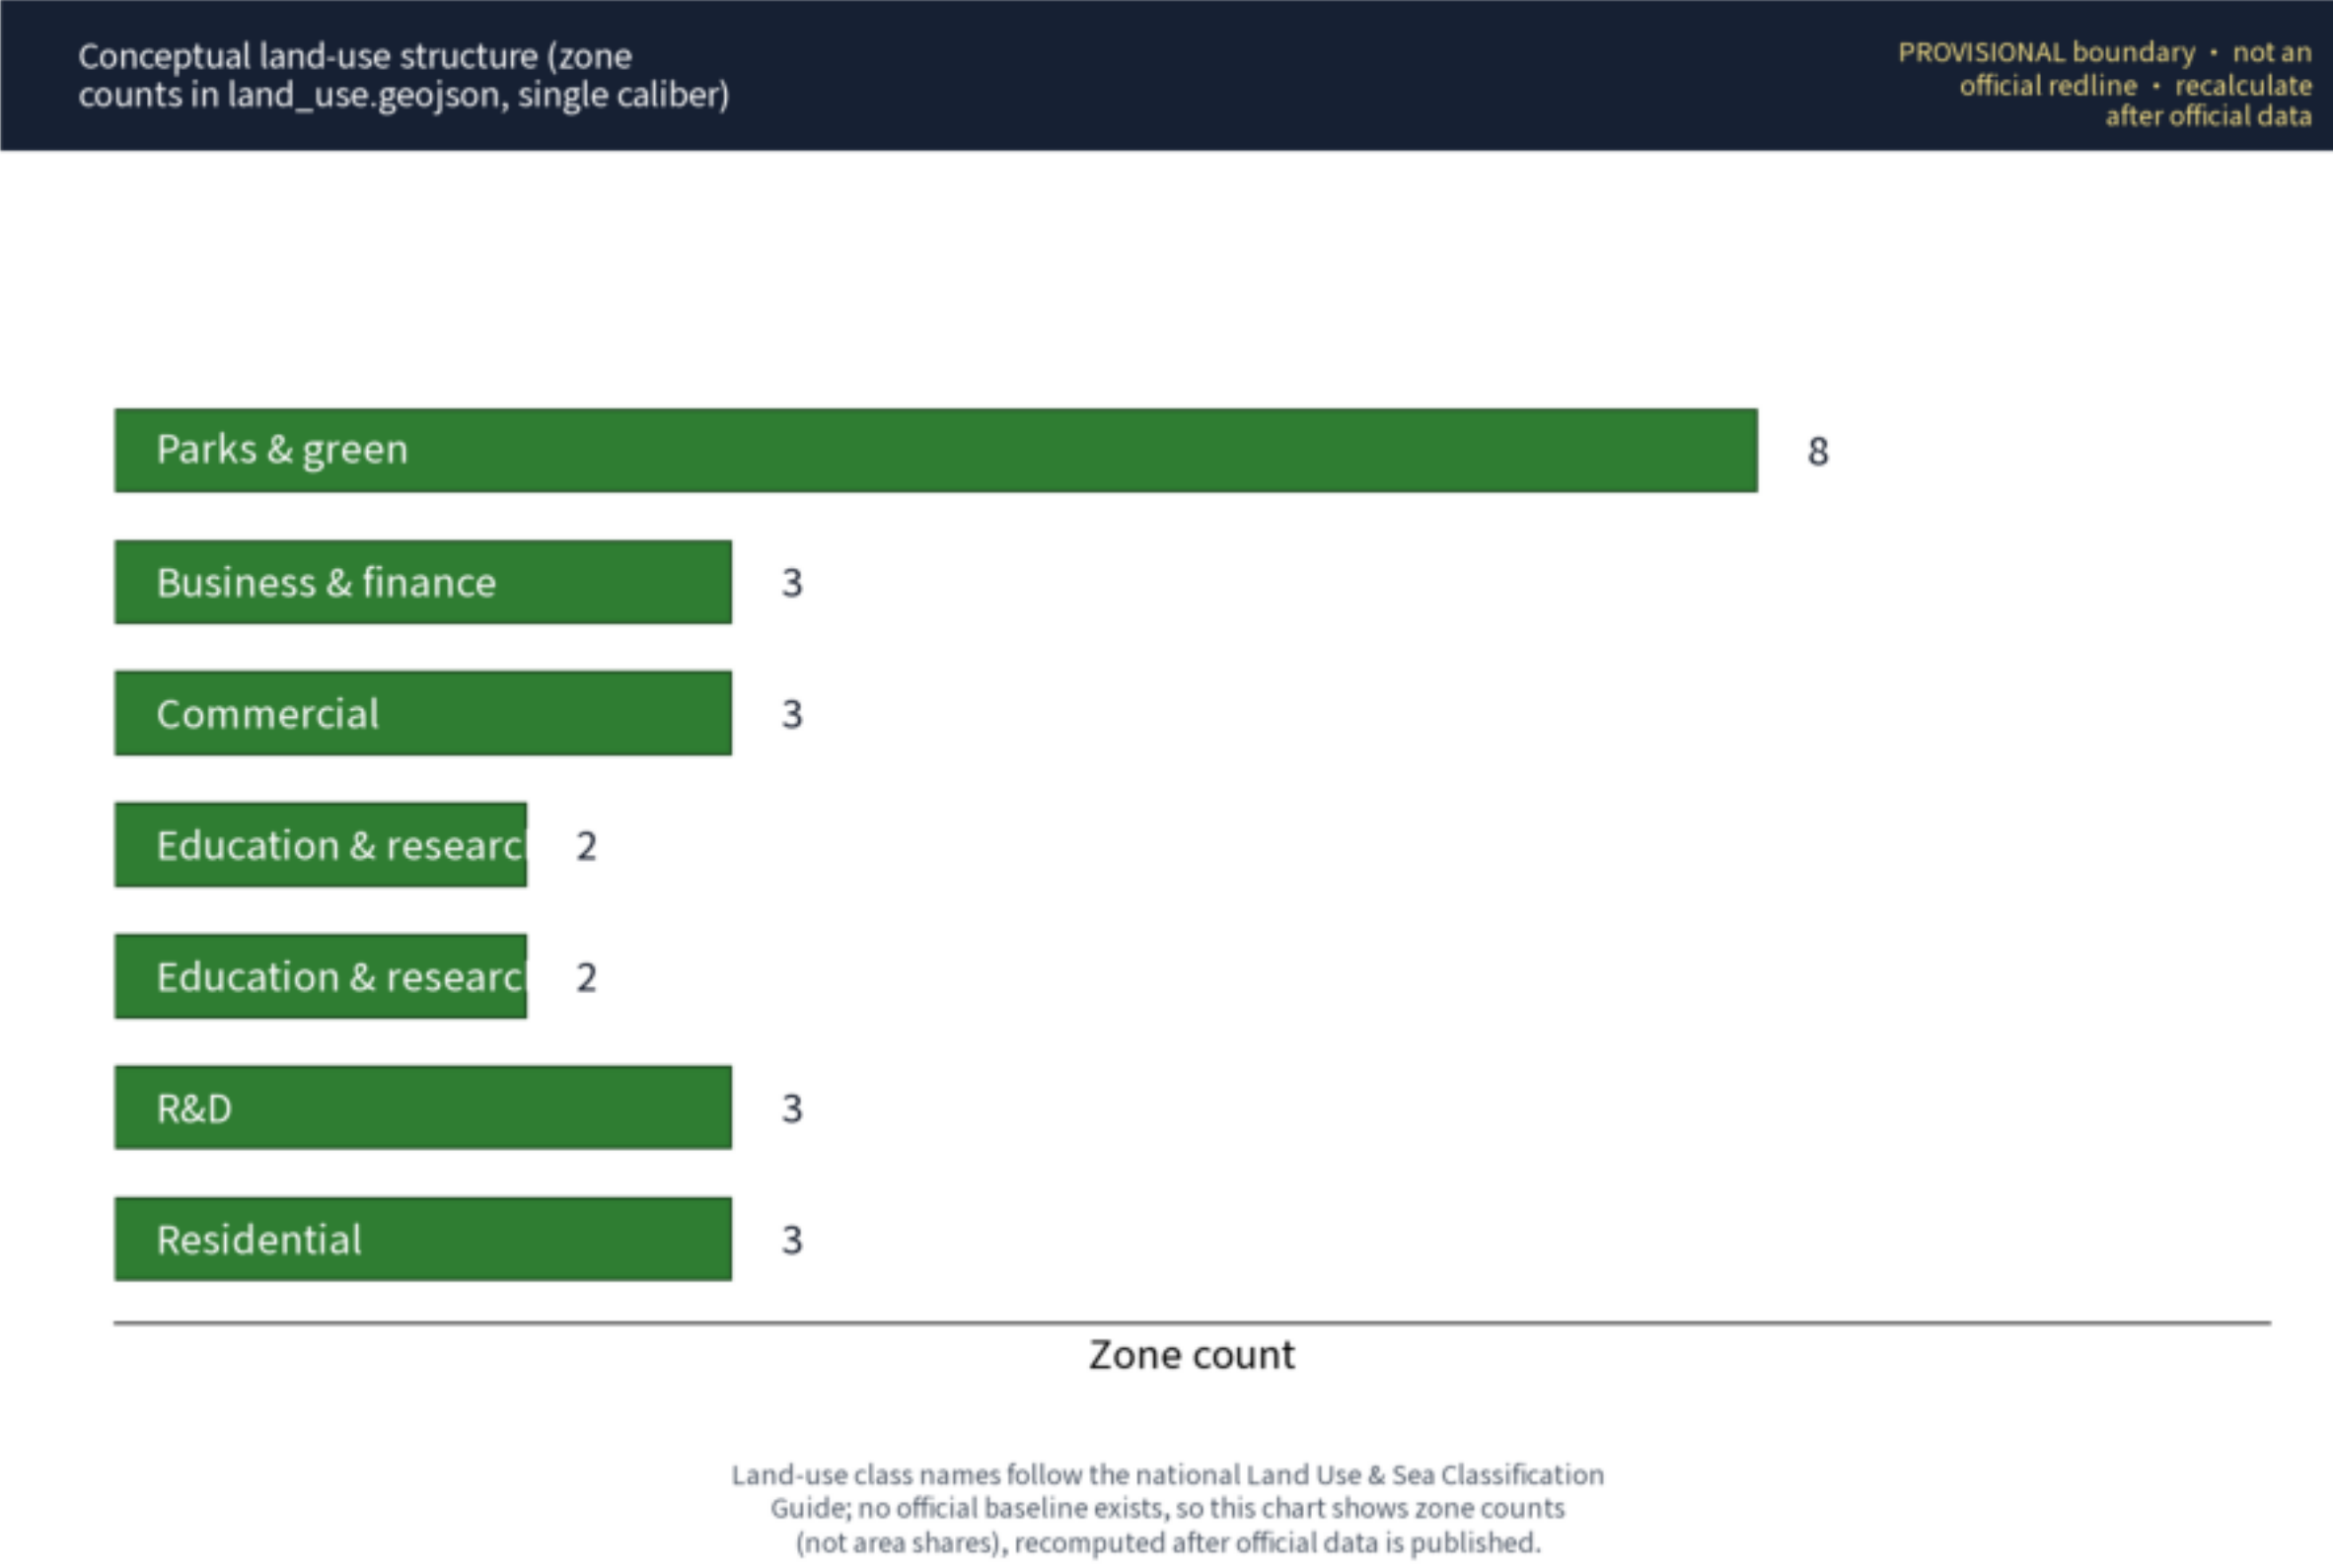

Heritage zone (concept)

Avenue experience sequence (concept)

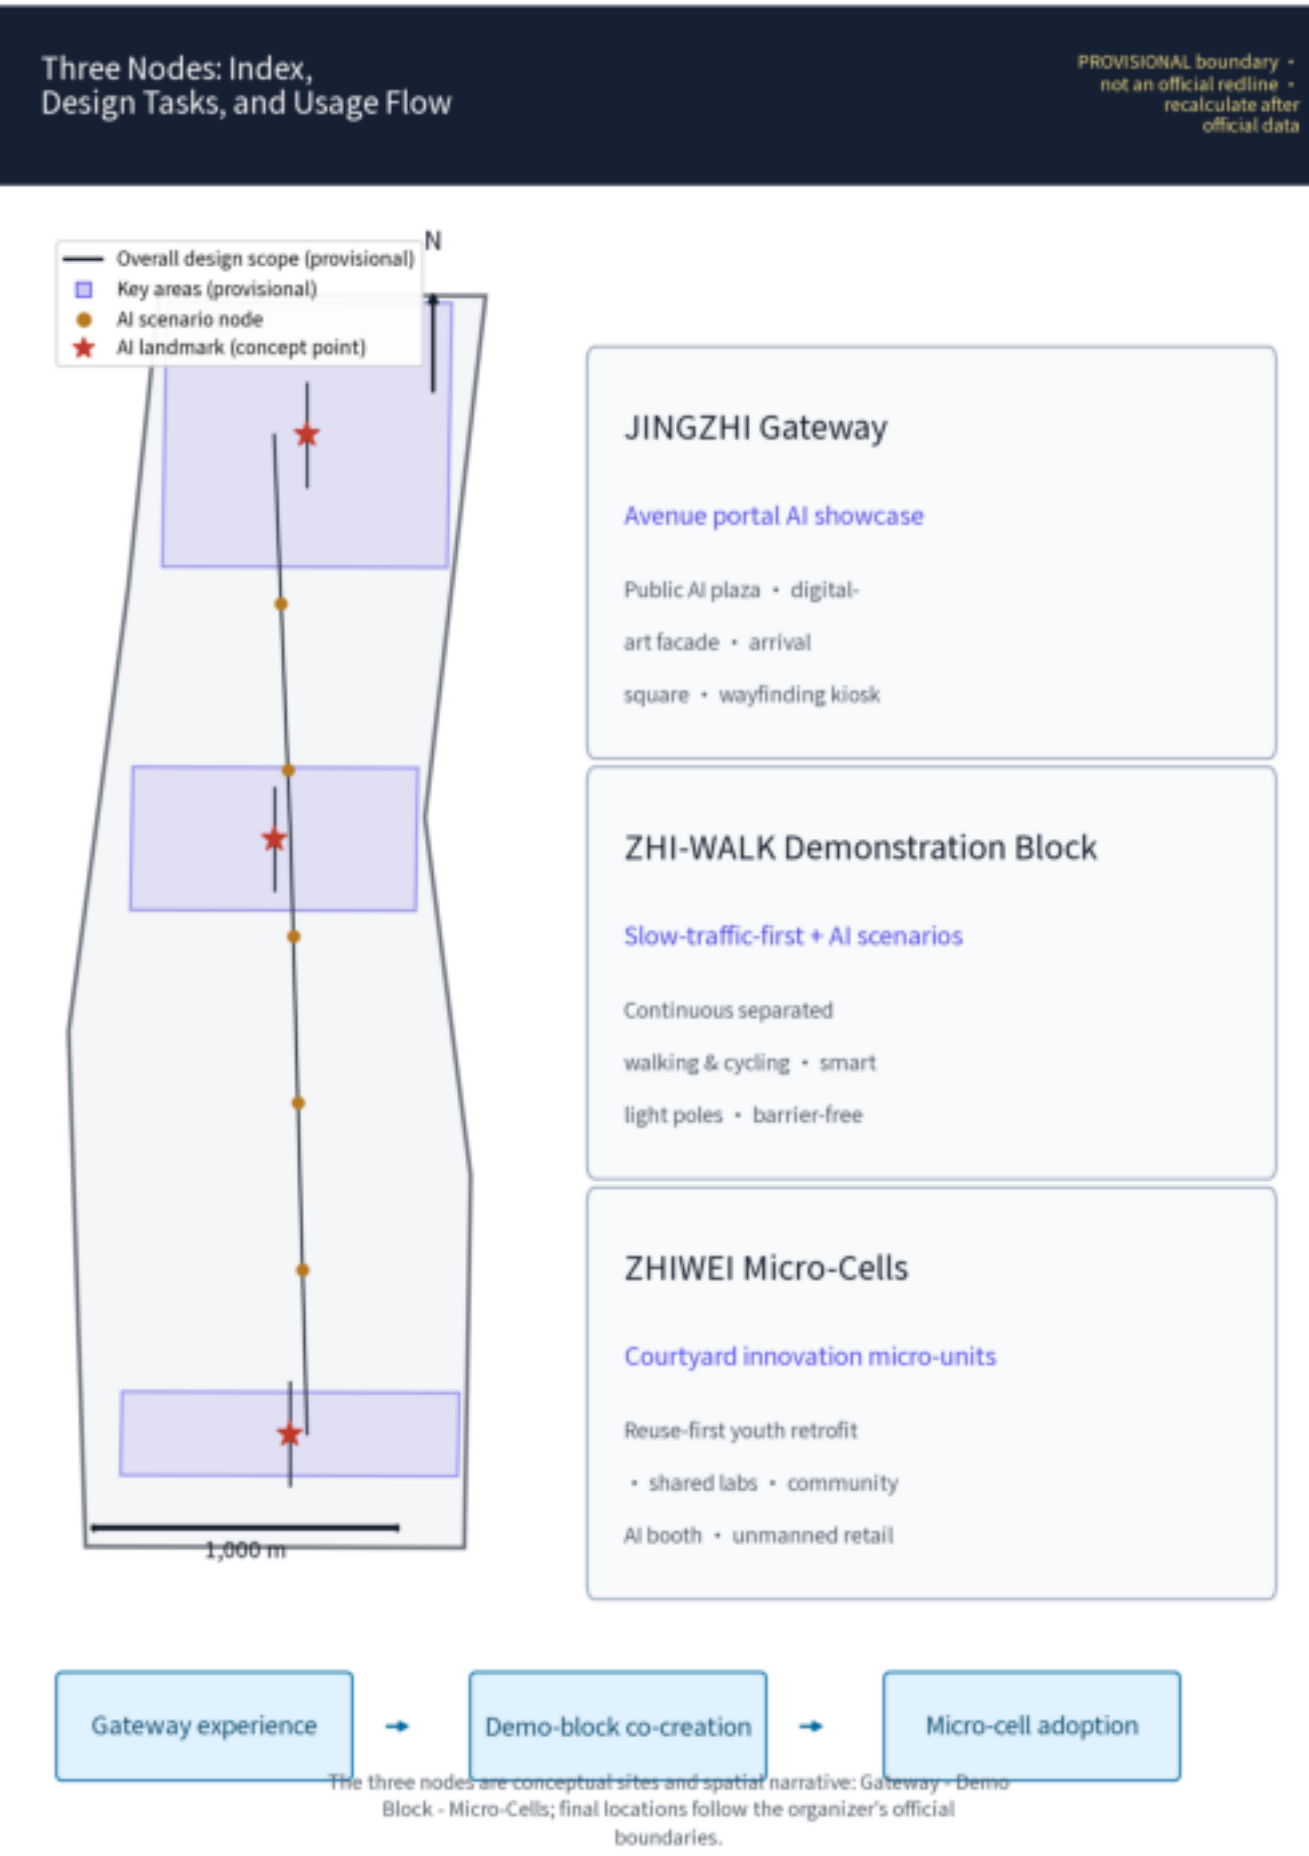

JINGZHI Gateway Avenue portal AI showcase • digital-art facade
ZHI-WALK Demonstration Block Slow-traffic-first section • AI scenarios
ZHIWEI Micro-Cells Courtyard innovation micro-units • community AI booth

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data (recompute trigger).

Conceptual land-use structure

Three nodes: index & flow

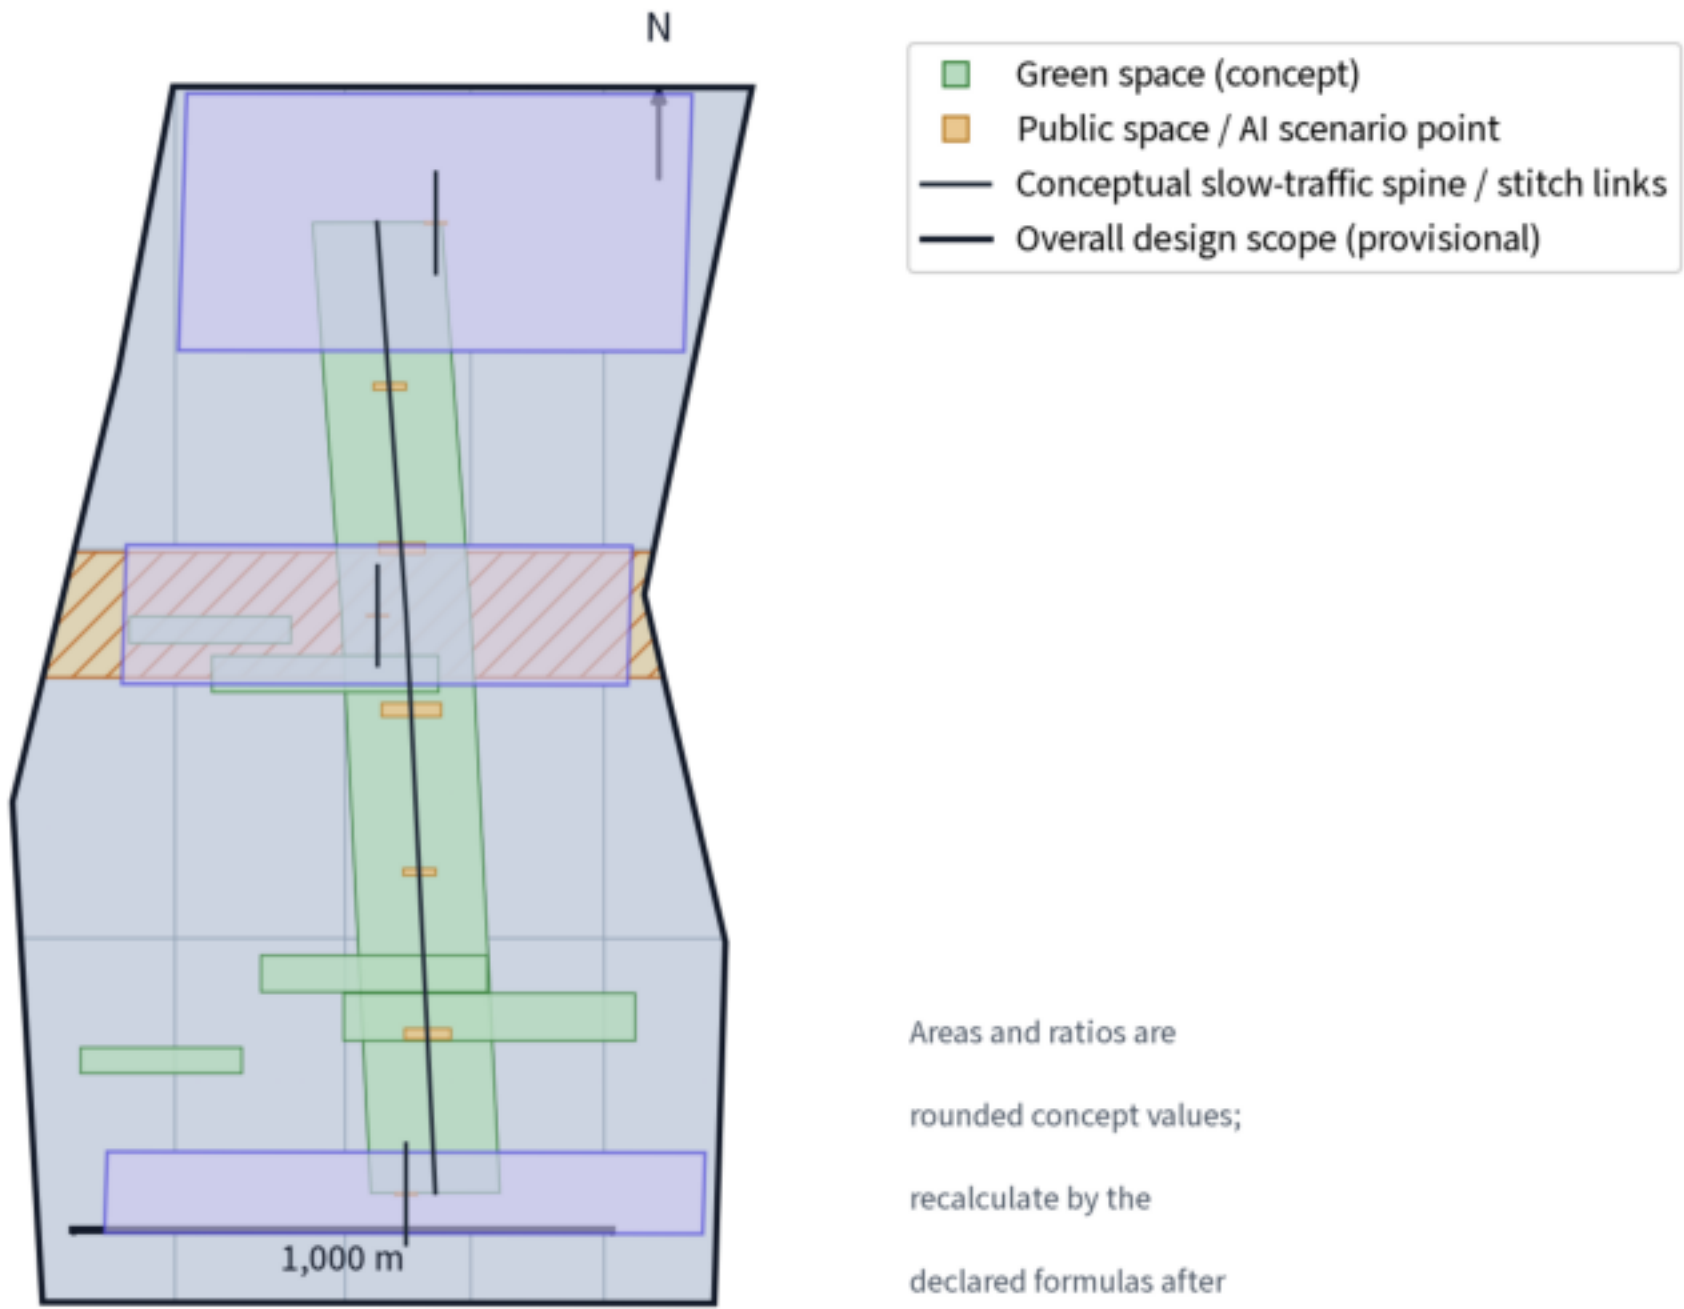

PROVISIONAL boundary • not an official redline • recalculate after official data

Mobility & blue-green (with section)

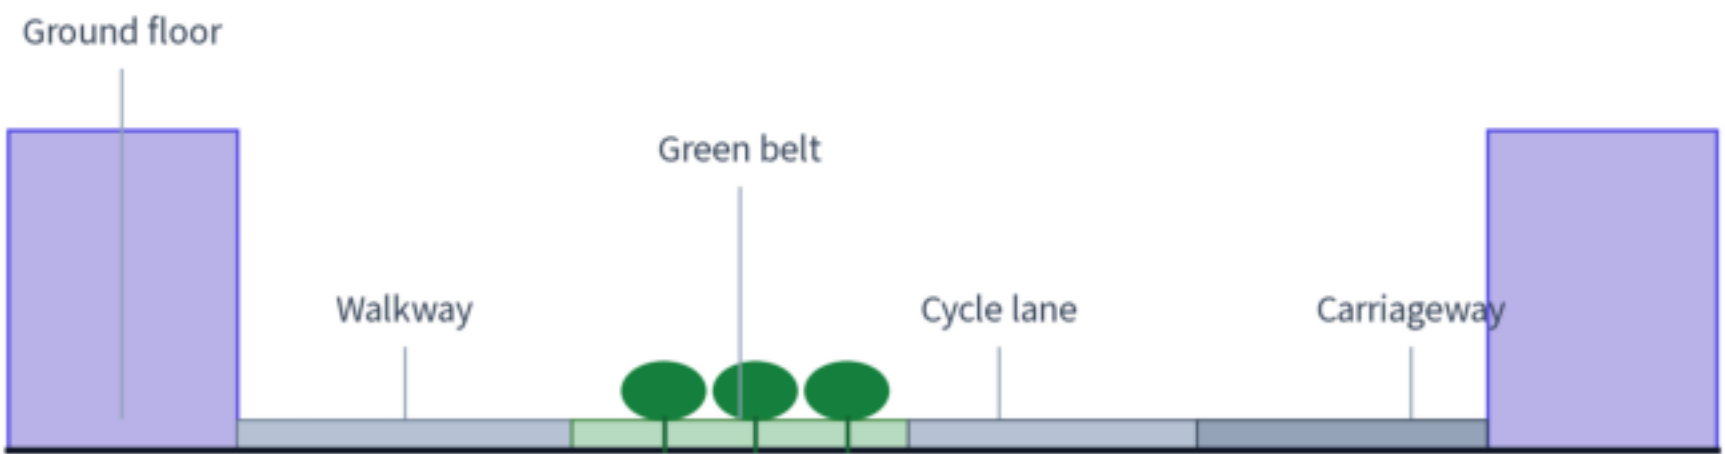

Mobility & Blue-Green Network
(north-south spine, east-west stitch, with street section)

PROVISIONAL boundary • not an official redline • recalculate after official data

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and

Street section (conceptual, not engineering)

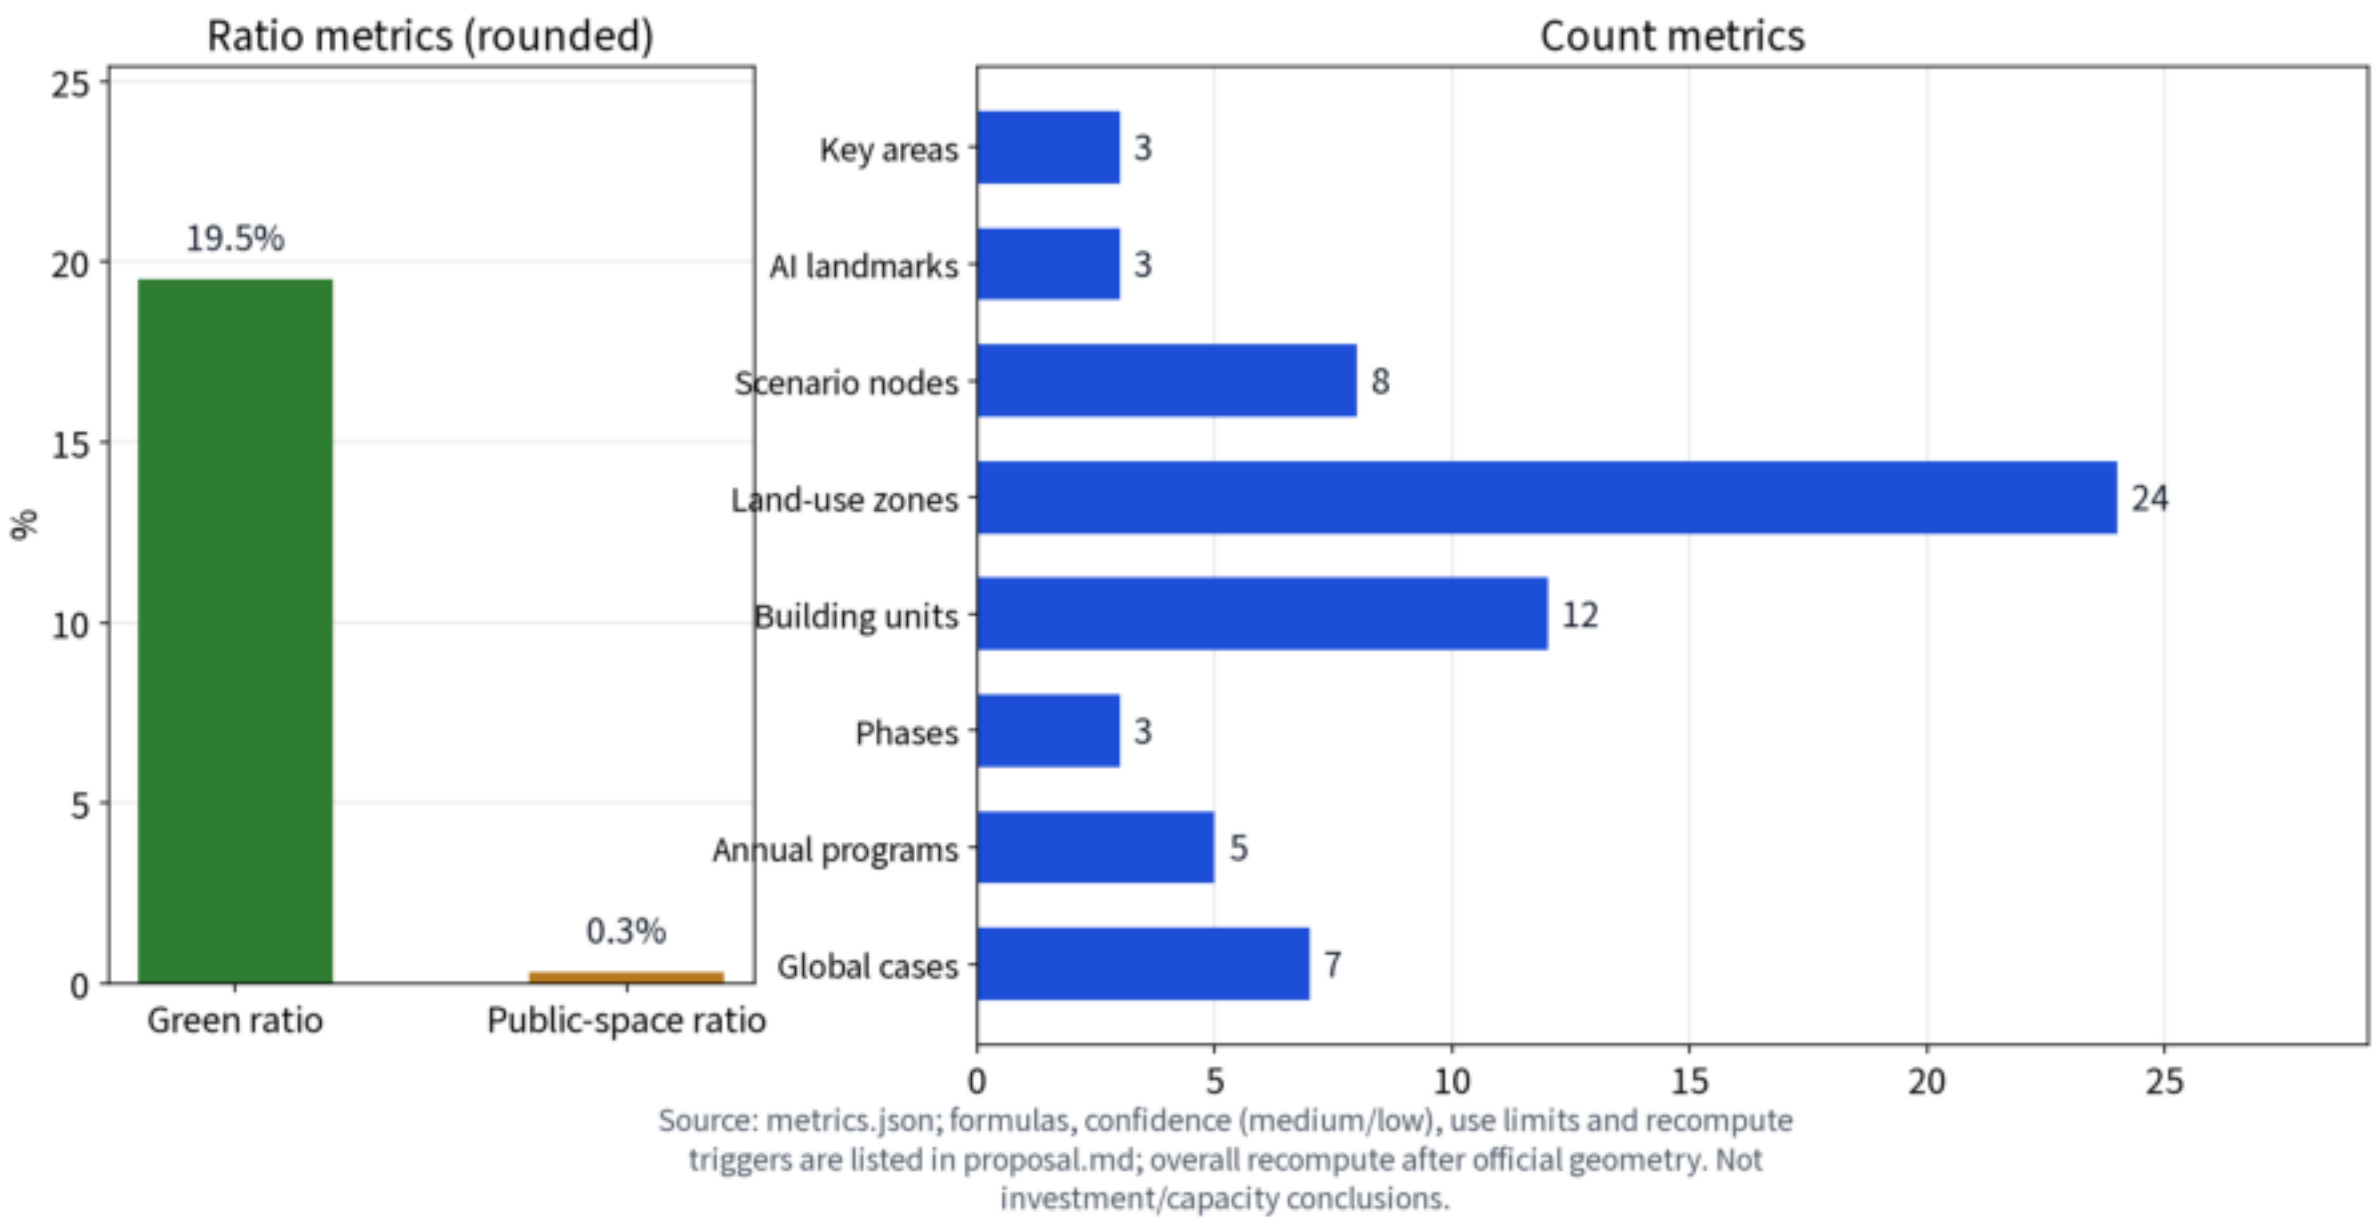

Conceptual sketch, not an engineering cross-section; dimensions await official data and professional deepening.

Key metric evidence (separate axes)

Key Metric Evidence (ratios and counts on separate axes, rounded; not investment/capacity conclusions)

PROVISIONAL boundary • not an official redline • recalculate after official data

Co-creation mechanisms & governance boundaries

Co-creation Mechanisms and Governance Boundaries (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

AI governance guardrails (concept red lines)

- Data is anonymized and aggregated only, never individual identification
- Every key AI decision goes through human review
- No excessive surveillance; no individual tracking

Mechanism toolbox (>=4 mechanism terms)

'Avenue Compact'	'Block Forum'
'Co-create Points'	'Annual Disclosure'
'Contribution Filing'	'Developer Alliance'
'Volunteer Companion'	'Space Booking'
'Node Rotation'	'Tiered Response'

Annual brand event system (5 programmes)

JINGZHI Avenue Season (autumn)
AI Open-Source Carnival (summer)
Street Pop-Up Lab (quarterly)
Public-space AI Art Exhibition (spring)
AI Barrier-free Companion Day (Dec 3)

Open operation & human backstop

- Scenario opening: list - apply - joint review - pilot ~6m - evaluate - scale/exit
- Resident feedback channel • annual disclosure • annual programmes
- Manual/paper/phone backstop; failing pilots exit and roll back to staffed counters
- Lean RACI: government • campus • enterprises • community • volunteers

All are conceptual suggestions, not commitments; names and marks are internal working codenames pending trademark clearance.
