

# COMMON TIME

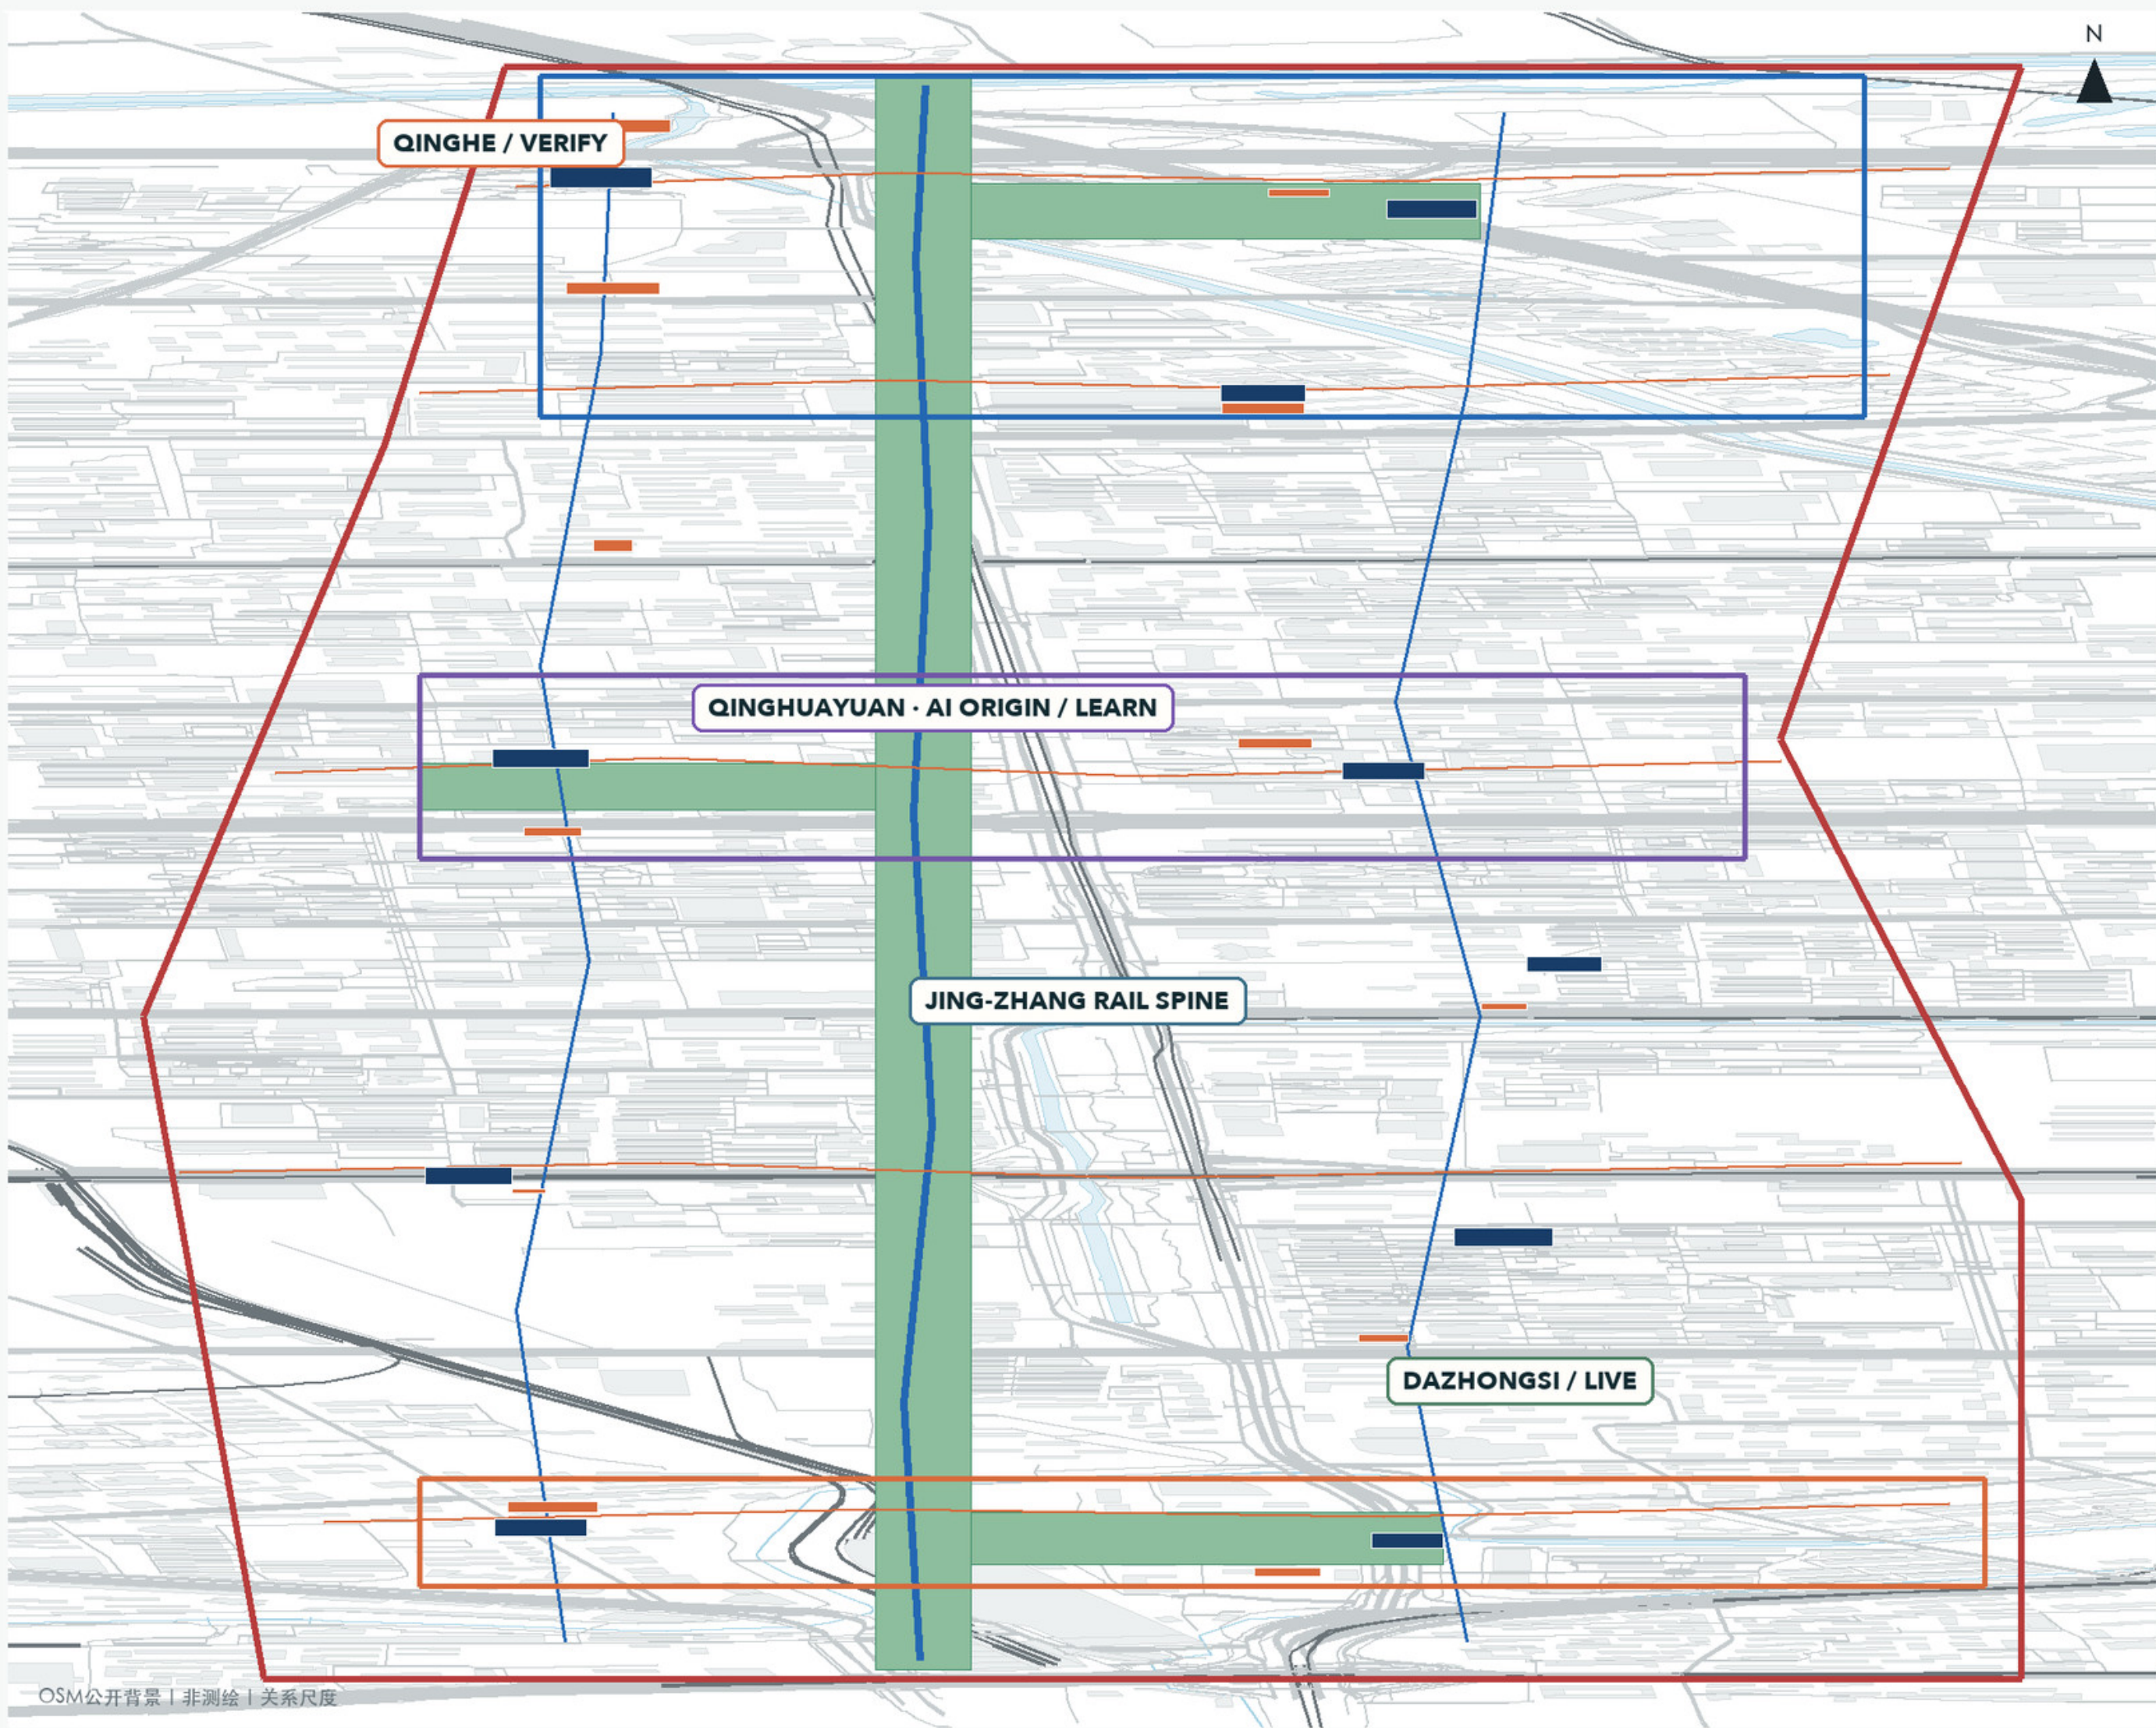

Three places carry distinct spatial answers; one no-new-build 90-day MVP closes baseline, accountability, cost, review and exit first.

CONCEPT PROPOSAL · PUBLIC ROLE INTERFACES ARE NOT PROJECT AUTHORITY · HOLD UNTIL DATA, SIGNATURES, BUDGET, APPOINTMENT AND OFFICIAL GEOMETRY

02 / RELATIONAL MASTERPLAN

## ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

### STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility  
THREE CLOCKS | VERIFY · LEARN · LIVE  
TWO WINGS | technology service · urban needs  
TWELVE COMMONS | arrival · test · learn · quiet

### EVIDENCE GATES

VERIFY | reproducible and controlled testing  
LEARN | public translation and correction  
LIVE | bounded trial, human takeover and retirement

### INTERVENTION ORDER

01 SHARE | measure real additional use  
02 RETROFIT | access, ground floor, shade, separation  
03 ADD LIGHTLY | movable, maintainable, restorable  
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

COMMON TIME JING-ZHANG / V14.0 / SPATIAL VALUE + DELIVERY

CONCEPT / PROVISIONAL / HUMAN DECISION

### 01 / RELATIONAL MASTERPLAN

Geometry remains provisional; official release triggers ten-step full-package recalculation

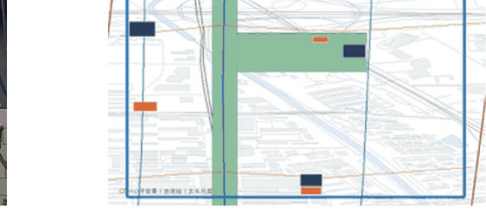

04 / THREE KEY AREAS

### THREE KEY AREAS: REAL CONTEXT, RELATIONAL PLAN, REALISTIC CONCEPT

Each row separates what is real, what is proposed and what still requires verification.

VERIFY

COMMON TIME JING-ZHANG / V14.0 / SPATIAL VALUE + DELIVERY

CONCEPT / PROVISIONAL / HUMAN DECISION

### 02 / THREE RESPONSIBILITY INTERFACES

Check title, operation, named accountability and exit asset by asset

SIX EVIDENCE GAPS / ONE EXECUTABLE CONTRACT

## Procedures are ready. External evidence is not.

A public interface is not authority; a survey protocol is not field evidence; a policy ceiling is not a budget; evaluation terms are not an appointment.

**4x4** Tuesday/Thursday/Saturday/Sunday × four time bands

**7** separated independent-evaluation roles

**10** full-package recalculation steps after official geometry

VERIFY

### Qinghe / Zhongzhiyuan

Phase-I interface verified; project title, operation and names await signatures

LEARN

### Beijing AI Origin

Candidate interfaces verified; rights and authority require asset-level signatures

LIVE

### Dazhongsi arrival

A delivery-unit clue cannot become ownership of the whole district

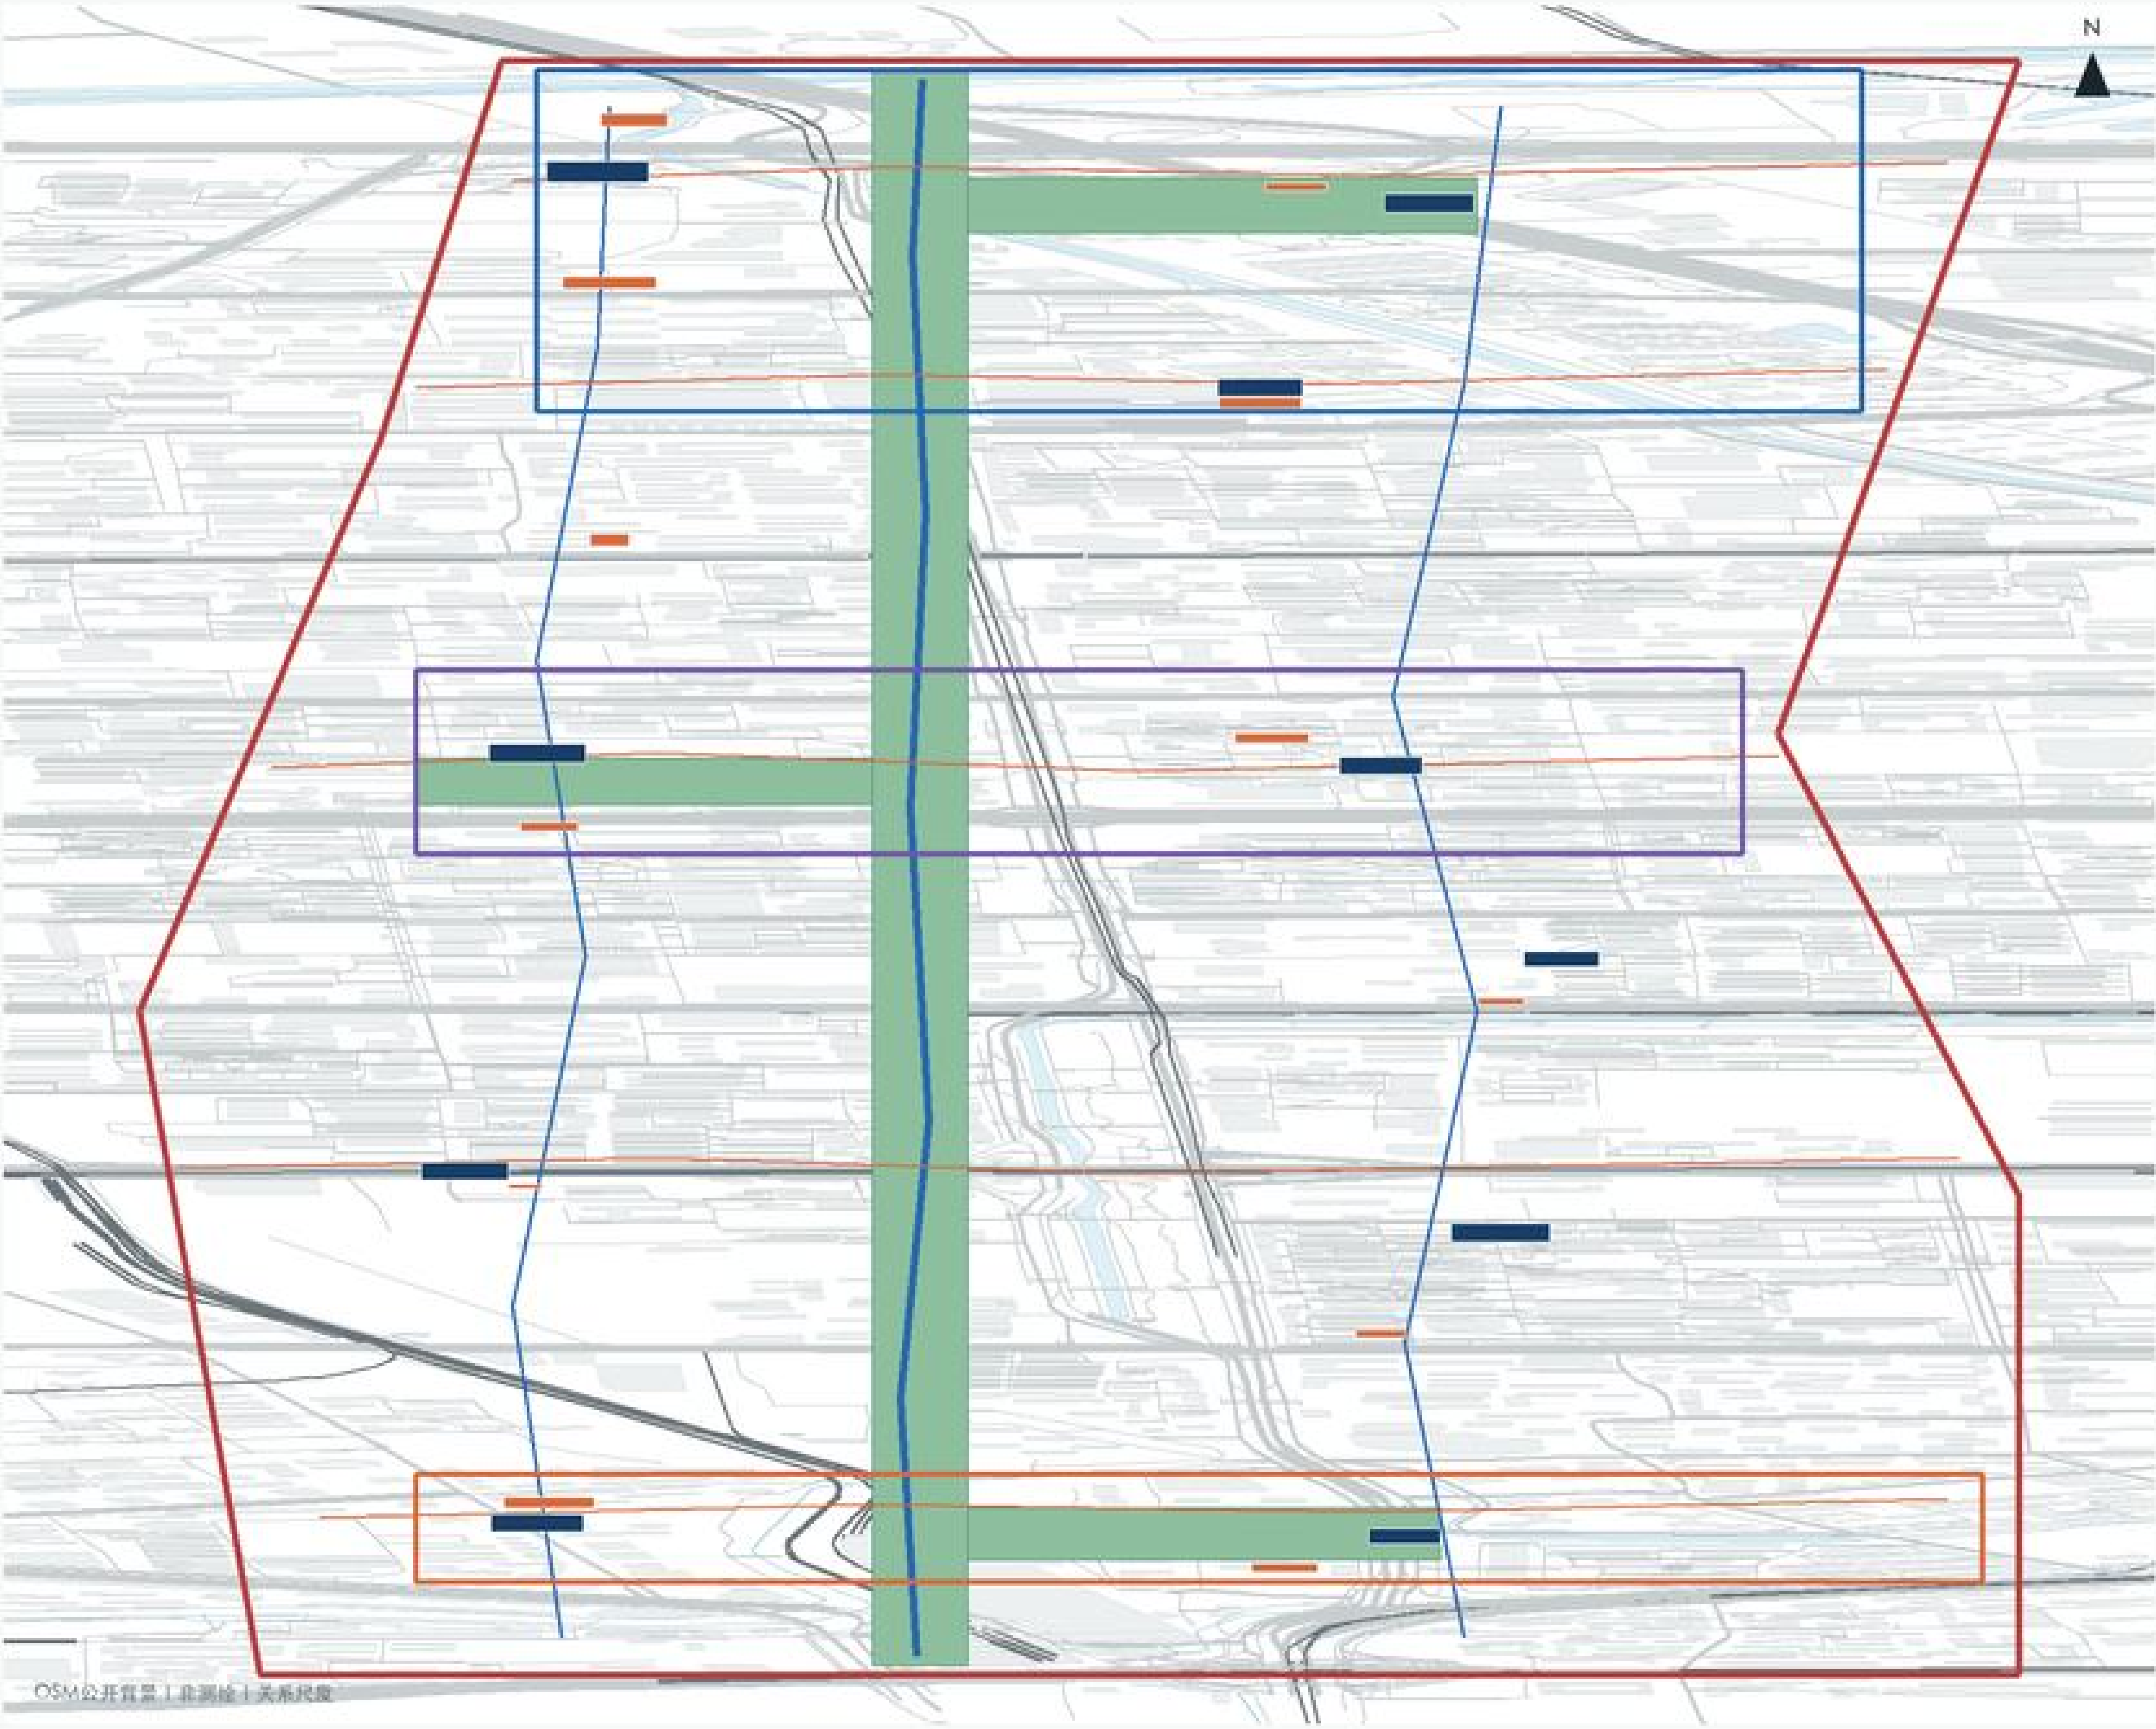

# ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

02 / RELATIONAL MASTERPLAN

## ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

COMMON TIME JING-ZHANG / V8.0

### STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility  
THREE CLOCKS | VERIFY · LEARN · LIVE  
TWO WINGS | technology service · urban needs  
TWELVE COMMONS | arrival · test · learn · quiet

### EVIDENCE GATES

VERIFY | reproducible and controlled testing  
LEARN | public translation and correction  
LIVE | bounded trial, human takeover and retirement

### INTERVENTION ORDER

01 SHARE | measure real additional use  
02 RETROFIT | access, ground floor, shade, separation  
03 ADD LIGHTLY | movable, maintainable, restorable  
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

The relational masterplan organises questions without claiming statutory geometry.

# UNKNOWN + SPATIAL ROLES + OPERATING TIME

03 / THREE OVERLAYS

## FROM FALSE PRECISION TO UNKNOWN + SPATIAL ROLES + OPERATING TIME

Three aligned layers; land-use codes support topology and are not regulatory recommendations.

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

Aligned layers compare missing evidence, conceptual roles and negotiated operating time.

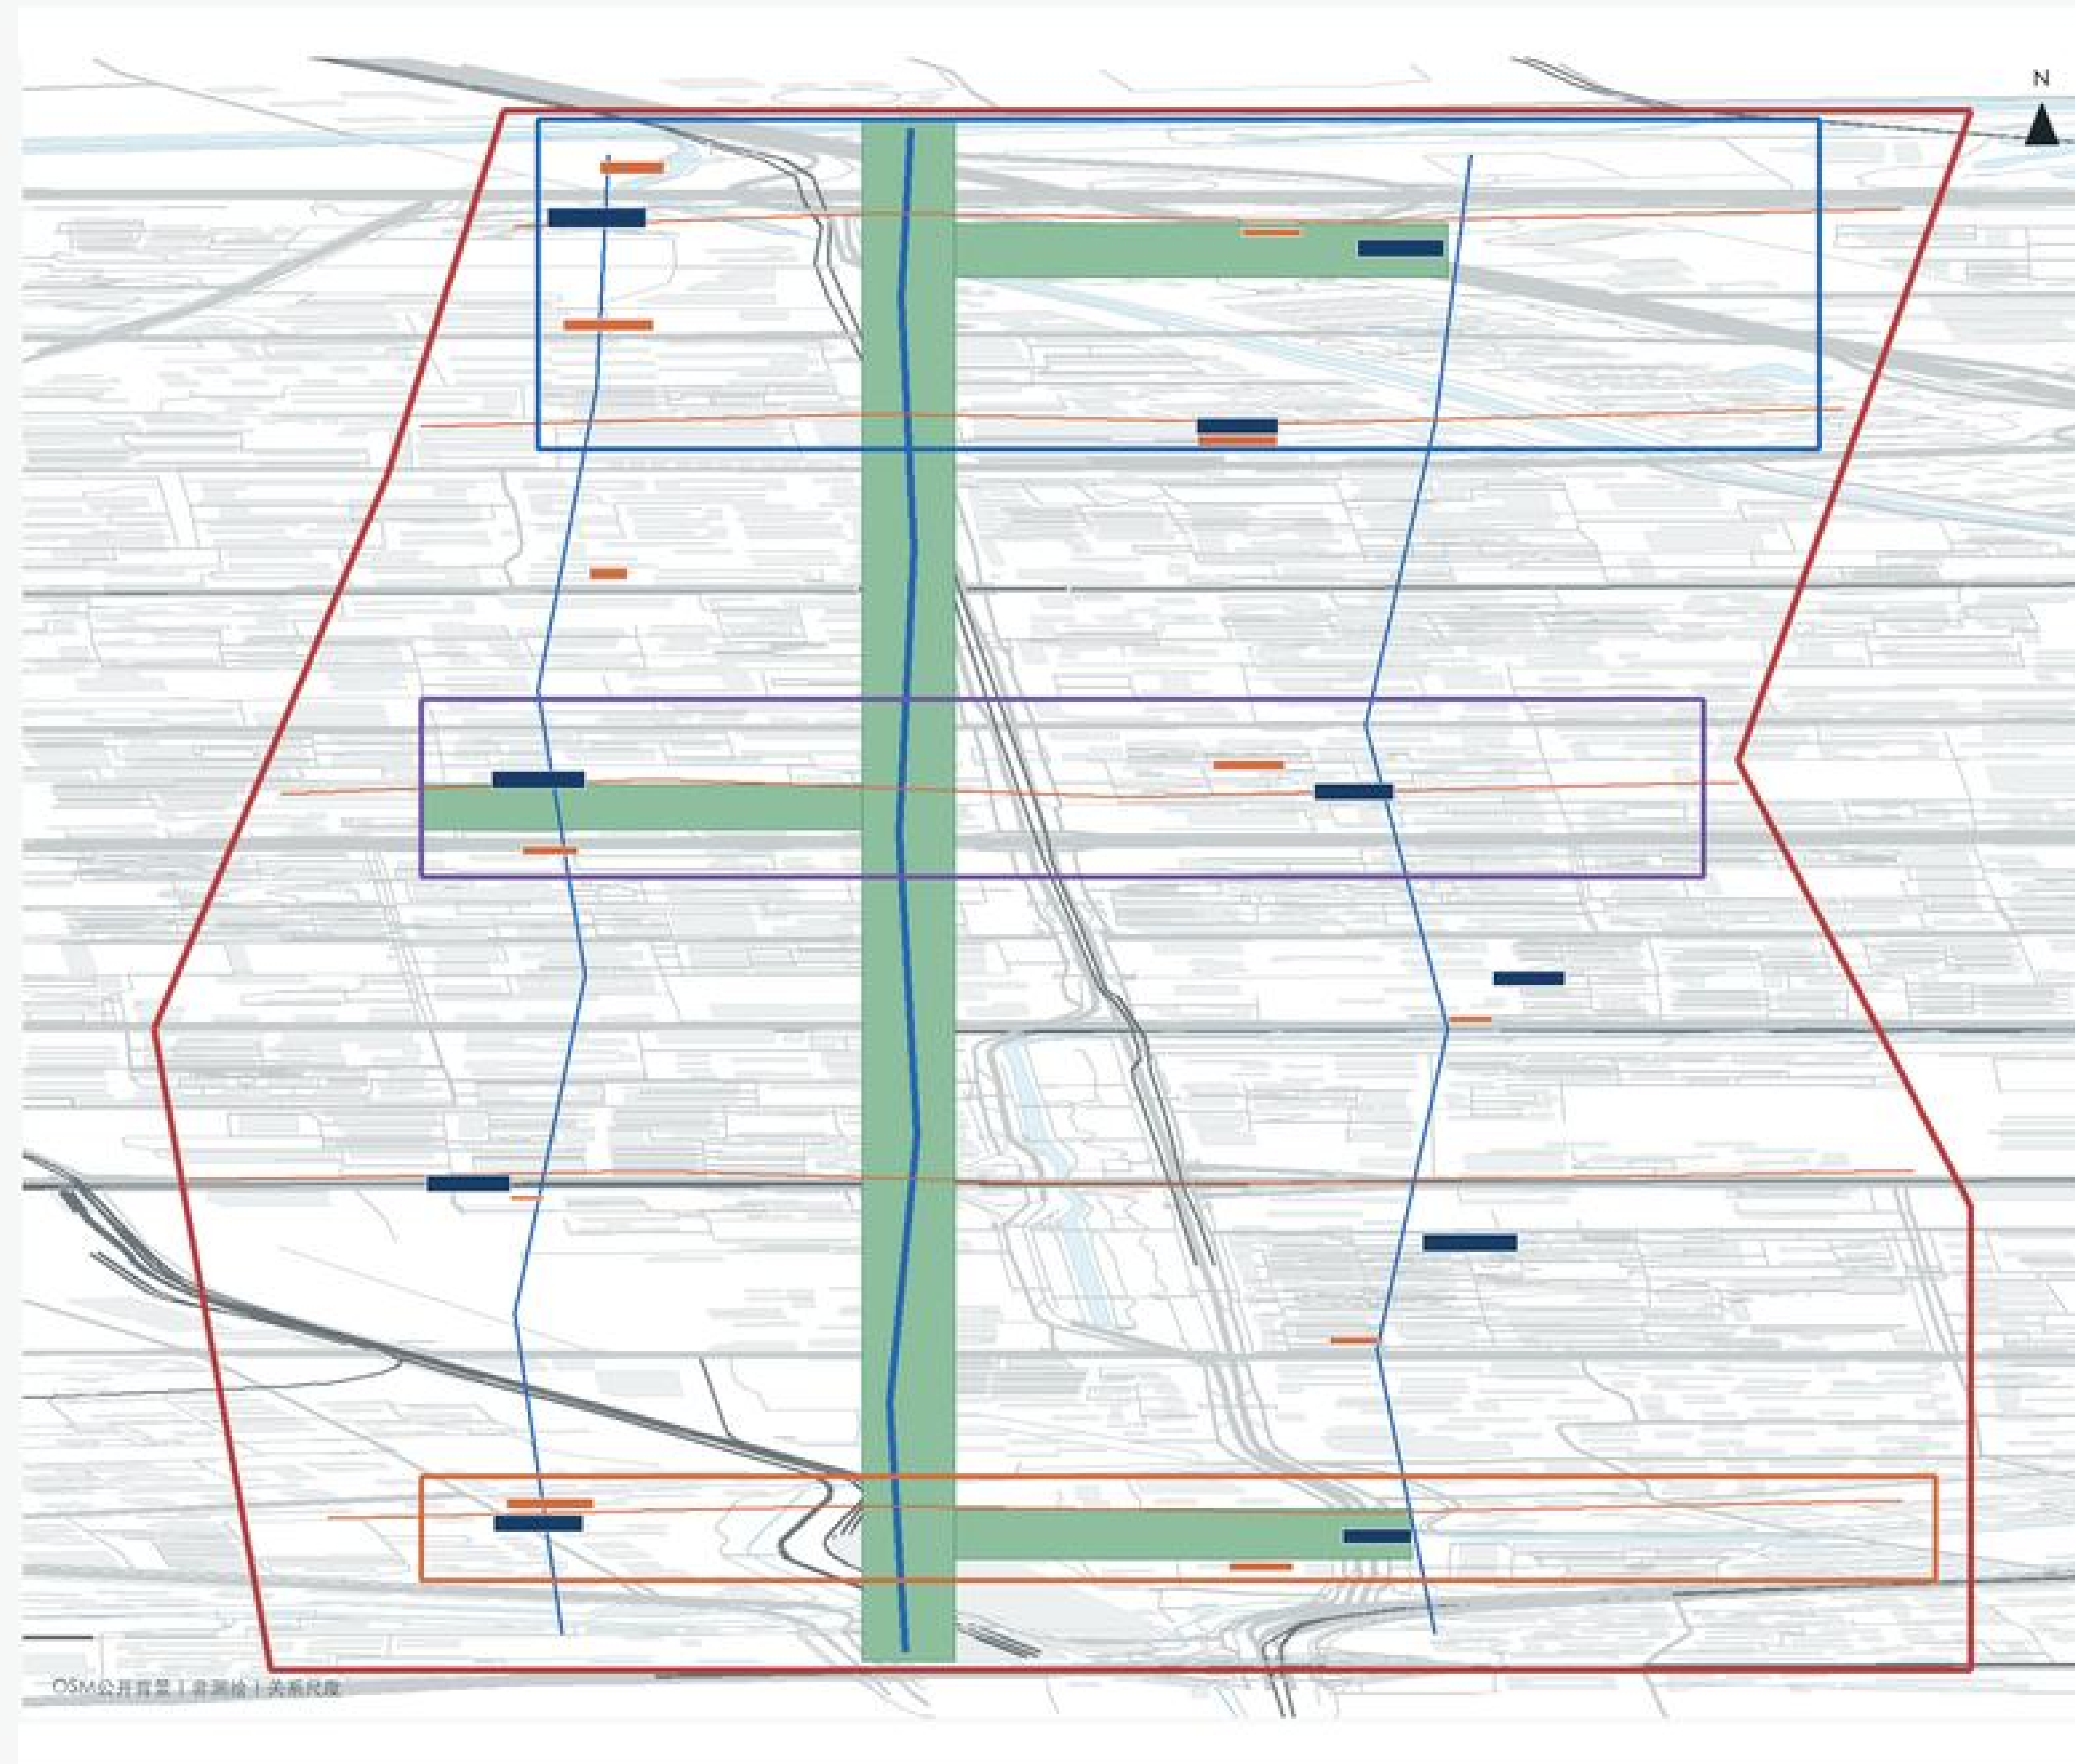

# MOBILITY • BLUE-GREEN • UTILITIES • GROUND FLOOR

## 05 / SYSTEMS + SECTIONS

## NEGOTIATE MOBILITY, BLUE-GREEN, UTILITIES AND GROUND FLOOR TOGETHER

Candidate links register questions; sections expose sequence, conflict and professional handoff.

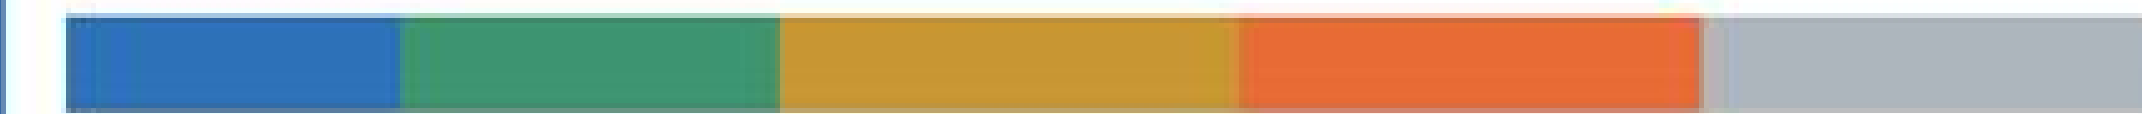

OSM 公开数据 | 来源标注 | 关系网络

COMMON TIME JING-ZHANG / V8.0

### T1 QINGHE—VERIFY

river | maintenance | public | separation | controlled  
Verify flood, ecology, Fifth Ring and maintenance.

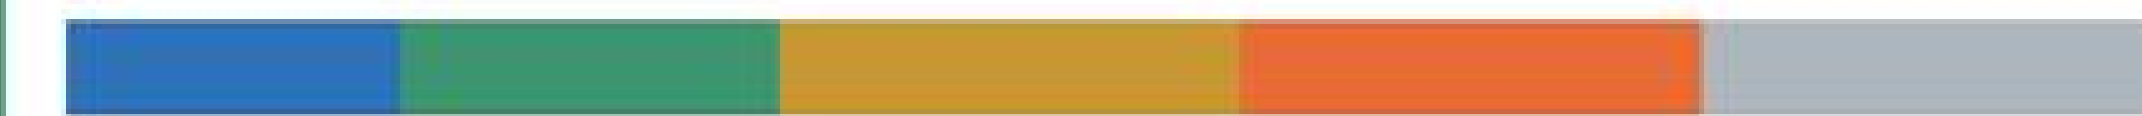

### T2 CAMPUS—LEARN

campus | edge | learning | community  
Verify heritage, access, roads, fire and IP.

### T3 HERITAGE—COMMUNITY

memory | slow mobility | shared ground floor | daily life  
Verify identity, noise, light, loading and access.

### T4 STATION—CIVIC ROOM

station | cycle | wait | trial | quiet  
Verify passengers, evacuation, kerb, utilities and takeover.

CONCEPT PROPOSAL • NOT AN APPROVED PLAN • PROVISIONAL RELATIONSHIPS • PROFESSIONAL VERIFICATION REQUIRED

Four sections expose conflict, professional inputs and human takeover.

# VERIFY · LEARN · LIVE

04 / THREE KEY AREAS

## THREE KEY AREAS: REAL CONTEXT, RELATIONAL PLAN, REALISTIC CONCEPT

Each row separates what is real, what is proposed and what still requires verification.
