

One public rail spine · Three verification communities

The spatial, knowledge, and accountability weaves share one auditable framework

01

PUBLIC PROTOTYPING BELT

AI innovation becomes an urban routine that people can enter, leave, appeal, and review.

JING-ZHANG OPEN WEAVE

Nine weave zones: numbered map + legible schedule

Same geometry, numbering, and full coverage; functions remain conceptual

02

ZONE SCHEDULE

1 0803 Rail heritage + public learning

2 05 AI-native service + display

3 0702 Community + shared talent service

4 1401 Rail-spine park + resilience

5 0802 Open R&D + verification

6 05 Innovation + mixed commerce

7 0701 Talent living + mixed housing

8 0804 Education + research exchange

9 16 Flexible reserve pending evidence

Three verification communities: distinct tasks, shared safeguards

Locations use provisional geometry; spatial components are reversible prototypes

03

ZHONGZHIYUAN | Full-stack verification

Standards / trusted tests / green-compute learning

AI ORIGIN | Knowledge transfer

Launch / shared incubation / talent life

DAZHONGSI | AI-native service

Accessibility / responsibility gallery / night review

SHARED BASE: TIME-SPACE FENCE · HUMAN REVIEW · OPT-OUT/APPEAL · OPEN ARCHIVE
